A N ORDINANCE—Amending Section 2 of an Ordinance entitled, "An Ordinance authorizing the grading and curbing of Glenwood avenue from Second avenue to Mansion street," approved June 16, 1902, enlarging the limit of the whole cost, the same not to exceed an increased estimate herein named.

Whereas, It has been ascertained that the estimate of the cost and expense of grading and curbing Glenwood avenue, from Second avenue to Mansion street, as

furnished by and through the Department of Public Works, and contained in the ordinance hereinafter referred to, is so low that the City of Pittsburgh cannot obtain bids therefor within said estimated amount, and

Whereas, The Department of Public Works has furnished to Councils another estimate of the whole cost, namely the sum of fifteen thousand eight hundred (\$15,800.00) dollars, Therefore,

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same,* That Section 2 of an ordinance entitled, "An Ordinance authorizing the grading and curbing of Glenwood avenue from Second avenue to Mansion street," approved June 16 1902, which reads as follows, to-wit:

"Section 2. The City Recorder and the Director of the Department of Public Works are hereby authorized and directed to advertise, in accordance with the Acts of Assembly of the Commonwealth of Pennsylvania and the ordinances of the said City of Pittsburgh relating thereto and regulating the same, for proposals for the grading and curbing of said street between said points: the contract therefor to be let in the manner directed by the said Acts of Assembly and ordinances; and the contract price, or contract prices, if let in separate contracts, not to exceed the total sum of thirteen thousand (\$13,000.00) dollars, which is the estimate of the whole cost, as furnished by the Department of Public Works," is hereby amended so as to read as follows, to-wit.

Section 2. The City Recorder and the Director of the Department of Public Works are hereby authorized and directed to advertise, in accordance with the Acts of Assembly of the Commonwealth of Pennsylvania, and the ordinances of the said City of Pittsburgh relating thereto and regulating the same, for proposals for the grading and curbing of said street between said points; the contract, or contracts therefor to be let in the manner directed by the said Acts of Assembly and ordinances; and the contract price, or contract prices, if let in separate contracts, not to exceed the total sum of fifteen thousand, eight hundred (\$15,800.00) dollars which is the estimate of the whole cost, as furnished by the Department of Public Works."

A N ORDINANCE—Requiring the erection, equipment and maintenance of standpipes in buildings and regulating the same for the better protection of life, limb and property in cases of fire.

SECTION 1. Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That every building now erected which exceeds one hundred (100) feet in height and every building hereafter to be erected which shall not be less than eighty-five (85) feet in height nor more than one hundred and fifty (150) feet in height, that is within the limits of the City of Pittsburgh, shall be provided and equipped with a four (4) inch standpipe; and every building which shall be hereafter erected which shall be more than one hundred and fifty (150) feet in height shall be provided and equipped with a six (6) inch standpipe. These standpipes shall run from the cellar to the roof; be properly equipped with one four-way 2 1-2-inch Siamese connection placed on the street above the curb level, and have a 2 1-2 inch outlet on each floor, with a sufficient quantity of hose attached thereto to run the entire depth of the building, which hose shall be placed on reels or other suitable apparatus in close proximity to each outlet and equipped with at least one nozzle of not

less than one (1) inch opening, to be approved by the Bureau of Fire. Buildings fronting on more than one street or alley shall be provided with standpipes with outside connection on each street or alley. All buildings such as above specified shall be equipped with one force pump of sufficient capacity for each standpipe, which shall be connected direct with the street main to supply these standpipes with water, and shall be kept in readiness by the owner or owners for immediate use by the Bureau of Fire during all hours of the day and night, including holidays and Sundays. Said pumps if located in a story below the street level shall be placed not less than two feet above the floor level.

All buildings which are used or occupied or may hereafter be used or occupied for power, business or manufacturing purposes, shall be provided and equipped in addition to the standpipes herein required, with two and one-half (2 1-2) inch perforated iron pipes placed on and along the ceiling line of each and every story below the street level and extending to the full depth of the building. Buildings twenty-five (25) feet in width or less shall be equipped with one row of perforated iron pipes, and all buildings more than twenty-five (25) feet in which shall have one extra row of pipe for every ten (10) feet over twenty-five (25) feet in width, to be placed six (6) inches under the ceiling line of each story below the street level and extending the full depth of the building. Such perforated pipes shall be provided with a valve placed at or near the standpipes so that water can be let into the same when deemed necessary by the firemen and shall be provided with one four-way two and one-half (2 1-2) inch Siamese connection, subject to the approval of the Bureau of Fire, or in lieu of such perforated pipes, automatic sprinklers may be put in the same to be approved by the Bureau of Fire.

Section 2. Valves shall be provided at all outlets on each and every story including the basement, cellar and sub-cellar and on the roof.

Section 3. All standpipes to be erected under the provisions of this ordinance shall be made of material of a quality sufficient to stand a pressure of not less than three hundred pounds to the square inch in order to force streams of water to any of the floors of the building or to the roof.

Section 4. All such buildings as are affected by this ordinance shall also be equipped with and have in readiness at all times for the use of the Bureau of Fire during all hours of the day and night, including holidays and Sundays, at least one elevator.

Section 5. All standpipe outlets, couplings and other fire appliances necessary for the proper equipment as provided herein shall be of the regulation Bureau of Fire pattern, and be approved by the Chief Engineer of the Bureau of Fire; the same to be kept in perfect working order by the person or persons in charge of such buildings.

Section 6. All buildings as herein described which are now erected and are already equipped with standpipes not less

than three (3) inches in diameter shall be considered as complying with the provisions of this ordinance relating to standpipes, but all outlets, equipment, hose connections, nozzles, etc., required in Section 1 of this ordinance shall be made to correspond with the Bureau of Fire standards.

Section 7. It is hereby made the exclusive duty of the Bureau of Fire of the City of Pittsburgh to enforce each and all of the provisions contained herein and said Bureau of Fire shall be and is hereby given the power and authority to make such inspections and examinations of the standpipe or pipes and other appliances placed in the buildings in compliance with this ordinance as may be from time to time deemed necessary.

Section 8. Any person or persons, firm or firms, corporation or corporations, association or associations failing, neglecting or refusing to comply with any of the provisions of this ordinance on and after the 1st day of April, A. D. 1903, shall be subject to a penalty not exceeding the sum of fifty dollars, (\$50.00), for each and every day of said failure, neglect or refusal, the same to be collected as penalties are now by law collectable.

Section 9. That this ordinance shall not be so construed as to apply to any building or structure that has been heretofore and is now equipped with such overhead sprinkler system as is or has been approved by the Board of Fire Underwriters.

Section 10. That any ordinance or part of ordinance, conflicting with the provisions of this ordinance, be and the same is hereby repealed so far as the same affects this ordinance.

A N ORDINANCE—Creating the Firemen's Disability Board, defining the duties of the officers thereof, designating the medical examiner of the Department of Public Safety as the medical examiner of said Board, establishing a fund for the care, maintenance and relief of the aged, retired, disabled or injured employees of the Bureaus of Fire and Electricity, and providing the mode and manner for the payment of beneficiaries and for the care and management of said fund.

Whereas, An Act of Assembly entitled, "An Act amending and supplementing an Act entitled 'An Act for the government of cities of the second class,' approved the 7th day of March, A. D. 1901, in the following particulars, to-wit: Section 1. Amending Article 3, Section 1, concerning matters in charge of the Department of Public Safety; Section 2, amending article 3, Section 2, empowering the City Councils to establish a pension fund for policemen and firemen; section 3, amending section 1, article 5, providing for the appointment and compensation of delinquent tax collectors; section 4, amending article 7, regulating the deposit in the city treasury of moneys collected by officers; section 5, amending article 9, section 1, paragraph 3 regulating returns to the city treasury by the law department; section 6, amending articles 12,

section 1, regulating the appointment and election of officers other than the City Recorder; section 7, amending section 2, article 12, regulating the removal of subordinate officers and clerks and the appointment of their successors; section 8, amending section 3, article 12, regulating the removal of subordinate officers and clerks and the appointment of their successors; section 9, amending section 1, article 14, vesting the veto power in the City Recorder; section 10, amending article 17, providing that this article shall not apply to the collector of delinquent taxes, and for fixing his compensation; section 11, amending section 1, article 15, changing the method of letting contracts; section 12, section 2, paragraph 5, article 13, regulating the exercise of co-operate powers; section 13, amending section 3, paragraph 1, article 19, removing the limitation of taxing power; section 15, amending section 3, paragraph 6, article 19, providing for the issuing of bonds and the application of bonds already issued; section 16, amending section 3, paragraph 9, article 19, relating to the creation of offices by the Councils and the powers, duties and compensation of officers; section 17, amending section 3, paragraph 10, article 19, relating to official bonds; section 13, amending section 3, paragraph 31, article 19, empowering Councils to purchase land for park purposes; section 19, amending section 4 of the schedule providing for the repeal of a portion of Act of June the fourteenth, one thousand eight hundred and sixty-seven, in relation to the government of cities of the second class," approved the 20th day of June, A. D. 1901.

Provides inter alia that Councils of cities of the second class of the Commonwealth of Pennsylvania may provide by ordinance a fund for the care, maintenance and relief of aged, retired, disabled or injured firemen; and

Whereas, The present fund as established under and by virtue of an ordinance entitled, "An Ordinance fixing the number and pay of employees for the purpose of providing for the insuring of said employees against accident and casualties while on duty," approved the 13th day of January, A. D. 1886 is for the benefit of the employees of the Bureau of Electricity as well as those of the Bureau of Fire, (the employees of the former bureau being included in the Bureau of Fire, at the time of the passage of said ordinance), and has accumulated from monthly installments set aside by the City Controller from the salaries of the Bureaus of Fire and Electricity and other sources, and provides and insures only against accident and casualties while engaged in the discharge of duty in the employ of the said Bureaus of Fire and Electricity; and

Whereas, The condition of the present fund for insuring against said accidents and casualties is such that it is deemed wise to broaden the plan and provide for the care, maintenance and relief of aged, retired, disabled or injured employees of the Bureau of Fire and Electricity and in case of death provide an insurance; now, therefore,

SECTION 1. Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the Firemen's Disability Board of the City of Pittsburgh shall be and the same is hereby created and shall consist of the City Recorder, or chief executive officer of the City of Pittsburgh, the City Controller, the City Solicitor, the President of Select Council, the President of Common Council, the Director of the Department of Public Safety, and the Chief Engineer of the Bureau of Fire, which Board shall have for its Secretary the chief clerk of the Department of Public Safety.

Section 2. The Secretary shall call meetings of the Firemen's Disability Board at least once a month, and at such other times as may be required when notified by the president or by a majority of the members thereof. He shall keep a faithful record of the proceedings, an account of said fund, and shall perform such other duties as the Board may direct. He shall be paid such compensation for his services as the Disability Board may by resolution authorize.

Section 3. The medical examiner of the Department of Public Safety shall be the Medical Examiner of the Firemen's Disability Board and shall render to said Board such medical and surgical services as may be required upon notification by the president, the secretary, or any member of the Board or any of the assistant chief engineers of the Bureau of Fire, or by the Superintendent or Assistant Superintendent of the Bureau of Electricity for any injuries which may be received by the beneficiaries of the fund, and he shall make a careful examination of the injuries thereof to the Disability Board through its secretary, and shall make further visits to such injured employees or beneficiaries as necessity may require, reporting weekly thereon and the time when such employee shall become fit for duty. In no case, however, shall such medical examiner be employed professionally by the injured employee, and he shall be subject to such rule or rules as the said Firemen's Disability Board may from time to time adopt not inconsistent with this ordinance. He shall, at least once in each year make a full report to said Disability Board of all cases of accidents, the extent thereof, and the name of the person or persons to whom and the places at which the injuries occurred, and he shall receive no compensation for his services.

Section 4. There shall be and is hereby established and created a fund for the care, maintenance and relief of aged, retired, disabled or injured employees of the Bureaus of Fire and Electricity, which shall be under the control, direction and supervision of the Firemen's Disability Board established by this ordinance, which fund shall consist of moneys now deposited with the Safe Deposit and Trust Company, of Pittsburgh, Pa., as Trustee of the present Firemen's Disability Board, under and by virtue of an ordinance entitled "An ordinance fixing the number and pay of employees for the purpose of providing for the insuring of said employees against ac-

cident and casualties while on duty," approved the 13th day of January, A. D. 1886 and the plan of insurance adopted thereunder as approved by Councils, March 8th, 1886, and the Mayor, March 17th, 1886, entitled, "A plan for the insurance of the employees of the Fire Department of the City of Pittsburgh from accident, casualty or death under the ordinance of Councils approved January 13th, 1886, as formulated by the Board of Fire Commissioners and as amended by Councils under and by virtue of C. C. Resolution 1658, passed Councils October 11th, 1897, and approved by the Mayor, October 15th, 1897, which moneys shall be and the same are hereby assigned, transferred and set over to the Firemen's Disability Board of Pittsburgh as created under and by virtue of this ordinance; together with the thirty dollars per annum for each of the employees of the Bureau of Fire and Electricity as provided by said ordinance of January 13th, 1886, herein referred to the same to be set aside in regular monthly installments for the uses and purposes of the Firemen's Disability Board as now provided by law, together with such fines as may be imposed upon the employees of the Bureaus of Fire and Electricity for violating the rules and regulations governing the said employees as provided for under and by virtue of an Act of Assembly entitled, "An Act for the government of cities of the second class," approved the 7th day of March, A. D. 1901, and the ordinance, entitled, "An ordinance regulating the disposition of fines and pecuniary penalties imposed on policemen and firemen under the authority of the Act of Assembly entitled, 'An Act for the government of cities of the second class,' approved the 7th day of March, A. D. 1901," approved January 15th, 1902, which fines shall be paid to the treasurer or trustee of the Firemen's Disability Board by the City Controller as provided for in the ordinance herein mentioned; and the Firemen's Disability Board created under the ordinance of January 13th, 1886 above referred to, is hereby authorized and directed to issue its warrant for such moneys now deposited with the Safe Deposit and Trust Company of Pittsburgh, Pa., as trustees of said fund, in favor of the Firemen's Disability Board of Pittsburgh created under and by virtue of this ordinance.

Section 5. The said Firemen's Disability Board shall appoint such trust company or companies, bank or banks of the City of Pittsburgh, as it may from time to time elect, to act as treasurers, trustees or depositories of the fund without compensation.

Section 6. The beneficiaries of the Firemen's Disability fund shall consist of all sworn officers and employees now in the service of the Bureaus of Fire and Electricity of the City of Pittsburgh and hereafter all such officers and employees (except matrons) who shall have passed the regular medical examination by the medical examiner hereinbefore mentioned, showing that they are physically entitled to appointments in such Bureaus of Fire and Electricity and those who have fulfilled the requirements necessary to ap-

pointment to the positions which they hold; but any and all such officers and employees shall be beneficiaries only during the period of time of their said employment.

Section 7. There shall be paid to any employee of the Bureaus of Fire and Electricity who shall suffer injuries while in the discharge of duties as such employee as may incapacitate him therefrom, the sum of fifteen dollars per week during the time of such disability, provided that for any such disability the sum of fifteen dollars per week shall not be paid for a period of time exceeding fifty-two weeks, but if at the expiration of that period the medical examiner hereinbefore referred to shall certify under oath that such employee by reason of his said injuries is permanently disabled and is wholly unable to perform the duties of a fireman or of such employment as that in which he was engaged at the time said injury occurred, then in that case there shall be paid to him the sum of one thousand dollars, and he shall thereupon in writing release and acquit the City of Pittsburgh, the Firemen's Disability Board, and any and all of its officers from and of any and all claims arising out of said injuries. Such claims for disability shall only be allowed upon a certificate issued by the medical examiner of the Firemen's Disability Board which shall be accompanied by an affidavit of the injured party and in every case (if practicable) the affidavits of two witnesses, which affidavits must distinctly set forth the date of the injury, where the accident occurred, that said injured person or employee was not off duty on a twenty-four hour pass, or other leave of absence, together with such other information as the Disability Board in its judgment may from time to time require.

Section 8. The words, "While in the discharge of duty," referred to in section 7 of this ordinance, shall be understood and considered as meaning that the benefits will be granted not only when the injury actually occurs at a fire, but during the entire time of his employment and actual service within the said Bureaus of Fire and Electricity from the date of his appointment until his release therefrom.

Section 9. Any member or employee of the Bureaus of Fire and Electricity who shall have served for twenty years in either or both of said bureaus may under the regulations hereinafter prescribed withdraw upon his written application stating that he desires to withdraw from the employ of the Bureau of Fire or Electricity of the City of Pittsburgh, and shall receive thereafter a monthly pension equal in amount to one-half of the salary paid him at the time he so withdraws, provided that he shall have served in the position so employed at least for a period of six months prior to the time of such retirement; provided further that the proof of the applicant of twenty years' service shall constitute a prima facie claim upon behalf of the applicant and shall entitle him to the benefits as provided herein, to-wit: One-half of the salary paid him

at the time he so withdraws: provided further that the claim of any applicant or beneficiary receiving one-half of the salary paid him as a pension at the time he so withdraws shall not be altered, amended or pension interfered with by any amendments to this ordinance or otherwise except upon written agreement of the applicant with this association and by a majority vote of the Firemen's Disability Board, except as herein provided for in Section 10. In reckoning the twenty years' service, under this ordinance entitling an employee to a pension for said twenty years' service it shall not be construed to mean continuous service, but each and every applicant or beneficiary applying for a pension under the twenty years' provision shall be entitled to have all of the service rendered by him to the City of Pittsburgh in whatever capacity he may have served as an employee of the Bureau of Fire or Electricity in either or both bureaus added, whether the same be continuous or not; and shall also be entitled to credit for actual service by him in the army or navy of the United States in times of war, or for active service in the Pennsylvania State Militia.

Section 10. If any member or employee of the Bureau of Fire or Electricity shall be awarded a pension and shall thereafter be convicted of felony or shall become an habitual drunkard or shall cease to care for and support the members of his family, or shall remove from the State of Pennsylvania permanently, then in every such case the Disability Board shall have power by a two-thirds vote to revoke the pension or to suspend payment thereof, or to direct the payment of the pension to the family of such pensioner.

Section 11. All payments to pensioners shall be made monthly on a day to be fixed by the Firemen's Disability Board and shall be paid in person, but in exceptional cases the Disability Board may permit payment to an attorney in fact.

Section 12. If at any time the fund of the Firemen's Disability Board shall be insufficient to pay all just claims against it, the pensions then payable shall be abated proportionately, but the Disability Board in its discretion, when the fund shall warrant, may pay to the pensioners who have thus received less than the regular monthly pension, all or any part of the sums that have been thus abated.

Section 13. At the death of any member or employee of the Bureaus of Fire and Electricity, or upon such proof of his permanent disability at the expiration of fifty-two weeks as hereinbefore provided, upon satisfactory proof of such death or permanent disability the beneficiary or his legal representatives shall be paid the sum of one thousand (\$1,000.00) dollars.

Section 14. Any member or employee of the Bureau of Fire or Electricity resigning from or being dismissed or dropped from his position in said Bureau shall relinquish and forfeit all his rights, demands and privileges of whatsoever kind in the assets or benefits herein provided.

Section 15. All claims for disability, pension or of any kind or character whatsoever which may become due and payable by the Firemen's Disability Board shall be paid upon warrant drawn upon the treasurer or trustee of the fund, signed by the president of the Board and attested by the secretary.

Section 16. All employees of the Bureaus of Fire and Electricity shall sign an acceptance of the provisions of this ordinance and agree to forever release the City of Pittsburgh, the Firemen's Disability Board and any or all of its officers from any and all costs or damages whatsoever except as herein provided for any injuries received, or that he may receive in said service, and also agree that upon retiring from the employ of said Bureau of Fire or Electricity either voluntarily or upon dismissal for cause, he shall thereby relinquish and forfeit all rights to participate in said fund, and no appointment to said Bureau of Fire or Electricity shall be made until the applicant shall have signed an agreement as provided for by this section.

Section 17. Any and all donations of money for the benefit of the employees of the Bureau of Fire or Electricity or both of them from whatsoever source shall be paid into this insurance fund through the secretary of the Disability Board.

Section 18. The insurance or death benefits hereby created and established, shall not be applicable to any person or persons who may be upon the list of substitutes in said Bureaus of Fire and Electricity unless it is made clear to the said Firemen's Disability Board that at the time of any injury sustained or the death which occurred, he was actively and actually engaged in the service of one or the other of the aforesaid bureaus and under the control and direction of the proper officers or authorities; and, further, the legal representatives of any such substitute shall not be entitled to death benefits as provided for in this ordinance unless it is clearly proven to the satisfaction of the said board that such death actually resulted from injuries or disabilities received while in the service and under the control and direction of the proper officers of one or the other of the aforesaid bureaus.

Section 19. The treasurer or trustee of the Firemen's Disability Fund shall invest from time to time the funds of said Board in such security or securities, giving preference to those of the City of Pittsburgh and County of Allegheny, as are deemed legal investments for trust funds in this Commonwealth, and as may be directed by the said Firemen's Disability Board, and all such investments shall be registered in the name of the said Firemen's Disability Board, and the interest accruing therefrom shall be added to and become a part of the general funds of said Board.

Section 20. The Firemen's Disability Board hereby created may adopt such rules and regulations for the government and distribution of its funds as in its judgment may be deemed proper and

wise and not inconsistent with the laws of this Commonwealth of Pennsylvania or the provisions of this ordinance.

Section 21. That any ordinance or part of ordinance conflicting with the provisions of this ordinance, be and the same is hereby repealed so far as the same affects this ordinance.

A N ORDINANCE—Authorizing the widening and opening of Virgin alley, from Liberty avenue to Smithfield street and the assessment of damages caused by the grade of the same.

Whereas, It appears by the petition and affidavit on file in the office of the City Clerks that a majority of property owners in interest and number abutting upon the line of Virgin alley, from Liberty avenue to Smithfield street, have petitioned the Councils of the City of Pittsburgh to enact an ordinance for the widening and opening of the same to the width of forty-four (44) feet, the additional width to be taken from the property on the northerly side of said alley. Therefore

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled and it is hereby ordained and enacted by the authority of the same That, Virgin alley, from Liberty avenue to Smithfield street be widened and opened to a width of forty-four (44) feet, the property required for that purpose, namely an additional width of twenty-four (24) feet throughout to be taken from the property on the present northerly side of said alley.*

Section 2. The Department of Public Works is hereby authorized and directed to cause to be surveyed, widened and opened to a width of forty-four (44) feet

said Virgin alley, from Liberty avenue to Smithfield street, the additional width of twenty-four (24) feet to be taken from the property on the northerly side of said alley.

Section 3. The damages caused thereby and the damages caused by the grade thereof and the benefits to pay the same to be assessed against and collected from properties specially benefited in accordance with the provisions of the Acts of Assembly of the Commonwealth of Pennsylvania relating thereto and regulating the same.

Section 4. That any ordinance or part of ordinance conflicting with the provisions of this ordinance, be and the same is hereby repealed, so far as the same affects this ordinance.

A N ORDINANCE—Granting unto the Pennsylvania Railroad Company, its successors, lessees and assigns, in the construction, maintenance and use of a branch running from its main line near Fifth avenue to the Western Pennsylvania Railroad, the right to cross Hamilton avenue, Kelly street, Frankstown avenue and Lincoln avenue by overhead bridges, to pass underneath Larimer avenue, and to build a bridge to carry Larimer avenue over said branch.

Whereas, The Pennsylvania Railroad Company is about to construct a branch from its main line to the Western Pennsylvania Railroad, of the general character and in the general directions set out in the blue print marked "Plan A," hereto attached, and made part hereof, the route whereof will be substantially as follows:

Beginning at a point in the main line of the Pennsylvania Railroad, where it crosses Fifth avenue; thence by a curve to the northeastward crossing over Hamilton avenue and Kelly street to a point in Frankstown avenue about sixty (60) feet west of Linden avenue; also beginning in the main line of the Pennsylvania Railroad at the point where the same crosses over Dallas avenue; thence curving to the northwestward and crossing over Hamilton avenue and Kelly street and connecting with the curve first above described; thence by a tangent across Frankstown avenue to a point about thirteen hundred (1,300) feet north of the same, where the line will curve to the westward to a point near Tennis street; thence by a tangent in a northerly direction nearly parallel with Beechwood avenue to a point about three hundred (300) feet south of Larimer avenue; thence curving to the eastward passing under Larimer avenue to a point about three hundred (300) feet north of the same; thence by a tangent nearly parallel with Beechwood avenue to a point about eleven hundred (1,100) feet south of the

Allegheny Valley Railroad; thence curving to the west and extending northwardly to and across the Allegheny river; also beginning at the said point about eleven hundred (1,100) feet south of the Allegheny Valley Railroad and curving eastwardly to a connection with the said Allegheny Valley Railroad about two thousand (2,000) feet east of Brilliant Pumping Station; together with a "Y" connection between said two lines last hereinbefore described near their junction in the vicinity of the Brilliant Pumping Station, all as shown on said blue print marked "Plan A."

And, Whereas, The construction of said branch will necessitate the use and occupation by said Railroad Company of certain of the park and other property of said City, which use and occupation are to be defined and fixed by an agreement to be entered into between said City and said Railroad Company, in accordance with the law in such cases made and provided; and will also necessitate the vacation by proper ordinances to be enacted by said city of the following streets and highways to the following extent:

(1). Vacation of Linden avenue, from Hamilton avenue to the right of way of the Pennsylvania Railroad Company.

(2). Vacation of Formosa alley, from Linden avenue for a distance of one hundred and forty-six (146) feet westwardly therefrom.

(3). Vacation of Linden avenue, from a point one hundred and forty (140) feet north from Frankstown avenue to the northern end of Linden avenue, a distance of seven hundred and fifty (750) feet northwardly therefrom.

(4). Vacation of Angle alley, from the north line of Lincoln avenue northwardly to the northern line of lot No. 103 in George Finley's addition plan in the Twenty-first ward, approved December 11, 1893.

(5). Vacation between Angle alley and a point eighty (80) feet east thereof, of an unnamed alley which runs from Tennis street to Angle alley, about one hundred and forty (140) feet north of Lincoln avenue.

(6). Vacation of Kirker alley, from Tennis street to Angle alley.

(7). Vacation of Tennis street, from a point two hundred and thirty (230) feet north from Lincoln avenue for a distance of about four hundred and fifty (450) feet to the northern terminus of the street.

(8). Vacation of Daggs alley, from Tennis street to Lyric street.

(9). Vacation of Lyric street, from Montezuma street northwardly to the eastern line of property of the East End Gas Company.

(10). Vacation of Odessa alley, from a point four hundred and sixty (460) feet north from Montezuma street for a distance of about three hundred and ten (310) feet to the eastern line of property of the East End Gas Company.

(11). Vacation of Rowan avenue, from Park avenue to the eastern line of property of Alexander King estate.

And Whereas, The construction of said branch will also necessitate some depression of the present grade on the ground of Hamilton avenue and the City of Pittsburgh, in order to secure a better grade on Hamilton avenue, intends to depress the said present grade thereof as follows:

Beginning at the westerly curb line of Dallas avenue at the present elevation of two hundred and nine one-hundredths (200.09) feet (City datum), ascending by a two (2) per cent. grade to the easterly curb line of Linden avenue at an elevation of two hundred and ten and sixty-nine one hundredths (210.69) feet (City datum); thence level across Linden avenue to the westerly curb line; thence descending by one and one-hundredths (1.01) per cent. grade to the easterly curb line of Fifth avenue at its present elevation of two hundred and four and eight one-hundredths (204.08) feet (City datum).

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled and it is hereby ordained and enacted by the authority of the same.* That on the terms and conditions hereinafter set forth the right be and is hereby granted unto the said the Pennsylvania Railroad Company, its successors, lessees and assigns, in the construction, maintenance and use of the said branch above recited, to construct, maintain and use over Hamilton avenue, Kelly street, Frankstown avenue and Lincoln avenue, iron or steel bridges, supported by masonry abutments, located within the property lines of said Railroad Company, as follows:

(1). Two (2) bridges over Hamilton avenue, at a clearance of not less than thirteen feet over the proposed and above recited new grade of said Hamilton avenue.

(2). A bridge over Kelly street at a clearance of not less than thirteen (13) feet over the present grade of said Kelly street.

(3). A bridge over Frankstown avenue at a clearance of not less than thirteen (13) feet over the present grade of said Frankstown avenue.

(4). A bridge over Lincoln avenue, at a clearance of not less than fourteen (14) feet over the grade of Lincoln avenue, as now being constructed by the City of Pittsburgh.

Also to construct, maintain and use said branch underneath Larimer avenue, as per attached plan, and for such purpose to build an iron or steel bridge to carry Larimer avenue at the present grade thereof over said branch, said last named bridge to be located east of the easterly end of the present Larimer avenue bridge.

Section 2. The rights hereinbefore granted are granted upon and subject to the following terms and conditions:

(1). That in all cases where the City of Pittsburgh shall desire hereafter to open or extend any street, streets or highways across the right of way or tracks of said branch railroad, a bridge or passage way shall be constructed (in

accordance with plans and specifications approved by the Department of Public Works) either below or above the grade of said branch railroad, and the said railroad company shall pay one-half of the expense of constructing and maintaining the same within the lines of the said railroad company's right of way, or property.

(2). Said Railroad Company shall pay the cost of the labor and materials necessary for depressing Hamilton avenue, as hereinbefore recited and for repaving said Hamilton avenue on said new grade between said recited points of depression.

(3). Said Railroad Company shall, at its own expense, maintain said bridges over Hamilton avenue, Kelly street, Frankstown avenue and Lincoln avenue, and said bridge to be built by said Railroad Company to carry Larimer avenue over said branch, and shall also maintain any bridges which may hereafter be constructed, as aforesaid, below the grade of said branch railroad within its right of way.

Section 3. The bridges mentioned in this ordinance shall be closely floored in such manner as to prevent the falling through the same of water or any substance or filth into the streets below.

Section 4. That in the construction of said road, the said Railroad Company shall construct such drains, culverts, water courses and passage ways through or under said road, as the Department of Public Works may require, and in accordance with the plans and specifications prepared by the City Engineer, and any relocating or lowering of any sewers or water lines made necessary by the construction of said road, or the changing of the grade of any streets or highways provided for in this ordinance shall be done by and at the expense of the said Railroad Company, and in a manner satisfactory to the Department of Public Works.

Section 5. That said Company shall, within ninety (90) days after the passage and approval by the Recorder of this ordinance, file with the City Controller a duly certified copy of a resolution passed by the Board of Directors of said Company, accepting and agreeing to this ordinance, in all its provisions and stipulations, and in case of failure so to do, this ordinance shall be void and of no effect.

Section 6. For a violation of any of the provisions of this ordinance, the said Company, or its employees responsible therefor, will be subject to a penalty of \$50 for each and every offense, and in case of a continuing offense, to a penalty of \$50 for each day the same may continue, to be recovered according to law.

Section 7. That all damages resulting from the change of grade of any street, or streets, or public highway, or any portion thereof, or by reason of the vacation of any street, streets or public highway, or any portion thereof, under the provisions of this ordinance, shall be assumed and paid by the said Railroad Company.

Section 8. In consideration of the rights, privileges and franchises granted to said Railroad Company by this ordinance the said Railroad Company shall pay to the City of Pittsburgh such reasonable compensation or tax therefor, or for the exercise thereof, as shall or may be duly fixed by a general ordinance applying to all railroad companies.

Section 9. That any ordinance or part of ordinance, conflicting with the provisions of this ordinance, be and the same is hereby repealed, so far as the same affects this ordinance.

A N ORDINANCE—To authorize and direct the proper officers of the City of Pittsburgh, in the name and on behalf of said City, to enter into and execute an agreement with the Pennsylvania Railroad Company defining and fixing the manner, terms and conditions upon which certain of the Highland Park and adjoining property of said City may be used and occupied by said Railroad Company in the construction, maintenance and use of a branch of its railroad running from its main line to the Western Pennsylvania Railroad and connecting with the Allegheny Valley Railroad, providing therein for an exchange of properties between said City and said Railroad Company.

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same.* That the proper officers of the said City be and they are hereby authorized and directed in the name and on behalf of said City of Pittsburgh to enter into and execute an agreement with the Pennsylvania Railroad Company in the following form, to-wit:

CONTRACT.

This agreement made this _____ day of _____ 190____, between the City of Pittsburgh, hereinafter designated "City," first party, and the Pennsylvania Railroad Company, hereinafter designated "Railroad Company," second party, witnesseth:

Whereas, Said Railroad Company is about to construct a branch from its main line to the Western Pennsylvania Railroad and connecting with the Allegheny Valley Railroad, and the construction thereof will necessitate the use and occupation by said Railroad Company of certain of the Highland Park and adjoining property of said City, and the general location and direction of the center line of said branch and its connections where the same pass through said park and adjoining property of said City are set out in the blue print marked "Plan A" hereto attached and made part hereof:

NOW THIS AGREEMENT WITNESSETH AS FOLLOWS:

Said City hereby assents and agrees that said Railroad Company, its successors, lessees and assigns, in the construction, maintenance and use of said branch and connections may use and occupy a strip of land through said park and adjoining property of said City, marked on the said "Plan A," along the center line of said branch and connections for a width of sixty-six (66) feet (that is thirty-three (33) feet on each side of said center line), together with the right to occupy and use for slopes and fills so much additional adjoining land as may be required to maintain the said strip of land of its full width of sixty-six (66) feet at the elevation of the railroad to be constructed thereon, and also such portions of said park and adjoining property of said City as are bounded by the Allegheny Valley Railroad, the said branch railroad and the connection thereof with the Allegheny Valley Railroad; and said City hereby covenants and agrees with said Railroad Company by deed to convey in fee simple unto said Railroad Company as soon as said branch and connections are constructed and in operation the said strip sixty-six (66) feet wide, of and through said park and adjoining property of said City (that is thirty-three (33) feet on each side of said center line), together with the right to occupy and use for slopes and fills so much additional adjoining land as may be required to maintain the said strip of land of its full width of sixty-six (66) feet at an elevation of the railroad, to be constructed thereon, and also such portions of said park and adjoining property of said City as are bounded by the Allegheny Valley Railroad, the said branch railroad and the connection thereof with the Allegheny Valley Railroad.

In consideration thereof, said Railroad Company covenants and agrees with the said City, by proper deed, to convey, or cause to be conveyed, unto the said City, at or before the execution of this contract, the following described property, free and clear of all incumbrances:

All that tract of land described in deed from the German Roman Catholic St. Joseph's Orphan Asylum of Allegheny county to John Leech, dated July 22nd, 1882, recorded in Deed Book vol. 443, page 551, containing as per said deed 76 acres, 158.38 perches, subject to roads and rights of way as in said deed mentioned, also to rights of way for gas pipe lines granted by said John Leech to the Chartiers Valley Gas Company September 13th, 1887, and to the Philadelphia Company, November 21st, 1888.

Excepting and reserving therefrom and thereout for said branch railroad a strip through said land sixty-six (66) feet wide, (that is, thirty-three (33) feet on each side of said center line), together with the right to occupy and use for slopes and fills so much additional adjoining land as may be required to maintain the said strip of land of its full width of sixty-six (66) feet at the elevation of the railroad to be constructed thereon.

Also, all that tract of land, situate in the Twenty-first ward of the City of Pittsburgh, Pennsylvania, containing nineteen acres, five perches, (19 acres 5 perches), more or less, bounded by land of Standard Oil Company on the north, by land of John Leech on the west, by lands of McCune and German Lutheran cemetery on the south, and by land of Shoenberger on the east.

In testimony whereof, said City of Pittsburgh has hereunto caused its corporate seal to be hereunto affixed, attested by the signatures of the proper officers of said City, and the said the Pennsylvania Railroad Company has caused its corporate seal to be hereunto affixed, attested by the signatures of its proper officers, the day and year first above written.

This contract being executed for and on behalf of said City under and pursuant to an ordinance of said city entitled (Here to be inserted the title, dates of enactment and approval, and place of record of the ordinance): and being executed for and on behalf of the said the Pennsylvania Railroad Company under and pursuant to a resolution duly adopted by its Board of Directors."

No. 349.

AN ORDINANCE—Granting certain rights, privileges and franchises to the Pittsburgh, Carnegie & Western Railroad Company, its lessees, successors and assigns.

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled and it is hereby ordained and enacted by the authority of the same, That* the consent of the City of Pittsburgh is hereby given to the Pittsburgh Carnegie & Western Railroad Company, its lessees, successors and assigns, to build, construct, maintain and operate a double track railroad, with such stations, terminals, switches, turn-outs, sidings and connections as may from time to time be necessary for the convenient transaction of business over and upon the following routes: The construction to be of the general character and in the general direction shown in plan and elevation on blue prints, marked "Exhibits A, B, and C," which is hereby made a part of this ordinance: Provided, however, that the lowest part of the structure of said Pittsburgh, Carnegie & Western Railroad at Duquesne way shall not be lower than (756) feet, tide elevation, viz.:

(1st. From a point at the corner of Liberty avenue and Ferry street to a point on the City line in the Thirty-fifth ward, Pittsburgh (substantially as shown on Exhibit "A"), which from Liberty avenue to the tunnel portion shall be elevated.

(2nd. From a point on the north side of Second avenue about 80 feet west of Ferry street to a point of low water in the Allegheny river about 75 feet east of Fourth street, as shown on Exhibit "A," which structure shall be elevated and shall be constructed by said railroad in the manner as hereinafter provided for the construction of elevated structures constituting part of its railroad, and be supported by columns set one foot from the curb lines on Liberty avenue and Duquesne way; and also upon the Allegheny river wharf on each side and substantially at the line of any right of way now or hereafter granted to any other railroad company on said wharf, so as to provide for proper crossings of such right of way and any structures erected thereon.)

(3d. Commencing on the main line near Carson street; thence by a curve into West Carson street to its center line; thence along the center line of West Carson street and Carson street to a point near the line of land formerly of the Robinson-Rea Company, now owned by the Pittsburgh, Carnegie & Western Railroad Company; thence curving into and through said property and other property of said Railroad Company crossing the Pittsburgh & Lake Erie Railroad and passing under the bridge of the Pittsburgh, Cincinnati, Chicago & St. Louis Railroad to the north side of the Pittsburgh & Lake Erie Railroad to the bank of the Monongahela river parallel with said Pittsburgh & Lake Erie Railroad to a point of connection with the Monongahela Connecting Railroad and about 100 feet east of South Twenty-fifth street, as shown on Exhibit "B," which is made part of this ordinance.)

(4th. Beginning on main line in the Thirty-second ward at Station 69—82; thence in an easterly direction along the valley of Saw Mill Run, crossing Grace street, Vale street, Reed street and Weinman street to the city line at the center of Washington avenue at a point 49 34-100 feet south of the south line of Boggs avenue, as shown on Exhibit "C," which is made a part of this ordinance.)

Section 2. The said Company shall not in running trains or locomotives within the limits of the City adopt or permit a greater speed than four miles an hour where grade crossings exist.

Section 3. Said Company shall at all times hereafter be subject to such rules, regulations and ordinances as may be passed and prescribed by the City of Pittsburgh as may be found necessary for the protection to persons and property of the citizens.

Section 4. The said Company shall construct such passageways and water courses as the Department of Public Works requires in the construction of said road.

Section 5. That in the construction of their roadway where the same shall cross streets, the said company, where the roadway is above or below the roadway of said streets shall construct bridges over and across said streets to a span equal to the full width of said streets and sidewalks; provided, however, that said railroad company shall have the right to construct and maintain columns and supports for overhead bridges and crossings one foot from the curb lines of streets crossed by its road (subject to the approval of the Director of the Department of Public Works as to position and construction) where said railroad company owns the property on both sides of the streets at the points of crossings; and provided, further, that said railroad company shall have the right to construct and maintain columns under like conditions at its crossing of Duquesne way. That in the construction of said bridges and crossings where the same cross Water street, First, Second, Third, Fourth, Liberty and Penn avenues and Duquesne way and the alleys intervening said streets and avenues, the supports of the bridges of crossing shall be located within the property lines of said railroad company and the spans of said bridges or crossings shall be of the full width of the avenues, streets and alleys, except as in this section otherwise provided in case of ownership by said company of property on both sides of said streets, avenues and alleys.

That wherever the crossings shall be over a street, it shall be by good and substantial stone or steel bridge with clear height of not less than 14 feet, and be closely floored in such manner as to prevent the falling of any substances, filth or water into the streets below. Where it becomes necessary to a proper crossing to change the location or grade on any such streets, alleys, lanes, highways, etc., such changes shall be authorized by ordinance, and the whole cost thereof lawfully awarded shall be paid by the said railroad company. Where the railroad of said railroad company consists of an elevated structure, and is operated as an elevated railroad, the construction shall be of steel, supported by columns set one foot from the curb lines of the streets traversed by said elevated structure whose construction and height above the streets shall be as hereinbefore provided in case of crossings.)

Section 6. The construction of the railroad and its appliances shall be under the supervision and inspection of the Director of the Department of Public Works, whose duty it shall be to control the construction thereof so that it shall conform to the location and plan thereof, as approved by Councils, as provided in Section 1 hereof. That all questions in dispute arising between said Railroad Company and the Director of Public Works, in reference to doing the work, shall be submitted to the (Joint Standing) Committee on Public Works, whose decision shall be final and conclusive.

Section 7. That any property of the city taken and used by said Company shall be paid for in like manner as similar property of private persons.

Section 8. For a violation of any of the provisions of this ordinance, the said Company, or its employees responsible therefor, will be subject to a penalty of \$50 for each and every offense and in case of a continuing offense, to a penalty of \$50 for each day the same may continue, to be recovered according to law.

Section 9. The City shall be indemnified, saved and kept harmless from all costs and damages arising from any matter or thing caused by the construction and operation of the railroad of said Railroad Company.

Section 10. In consideration of the rights, privileges and franchises granted to said Railroad Company by this ordinance, the said Railroad Company shall pay to the City of Pittsburgh such reasonable compensation or tax therefor, or for the exercise thereof, as shall or may be duly fixed by a general ordinance applying to all railroad companies.

Section 11. That said Company shall within ninety (90) days after the passage and approval by the Recorder of this ordinance, file with the City Controller a duly certified copy of a resolution passed by the Board of Directors of said Company, accepting and agreeing to this ordinance, in all its provisions and stipulations, and in case of failure so to do, this ordinance shall be void and of no effect.

Section 12. That any ordinance or part of ordinance conflicting with the provisions of this ordinance be and the same is hereby repealed so far as the same affects this ordinance.

AN ORDINANCE—Authorizing, empowering and directing the City Recorder to execute and deliver in the name of the City of Pittsburgh a deed in fee simple for certain property situate at the corner of Nineteenth and Mary streets, in the City of Pittsburgh, and to transfer to the Treasurer of the Board of Trustees of the Carnegie Library of Pittsburgh all moneys and securities received as consideration therefor.

Whereas, At a meeting of the Board of Trustees of the Carnegie Library of Pittsburgh, held on December 19th, 1902, the following preamble and resolution were presented and adopted:

"Whereas, The Board of Trustees of the Carnegie Library of Pittsburgh on May 10th, 1895, purchased from William Schuette and wife, for the sum of twenty thousand dollars (\$20,000) for the purpose of erecting thereon a branch library building, a lot or piece of ground situate in the Twenty-sixth ward of said city of Pittsburgh, and bounded and described as follows, viz.: Beginning at the northeasterly corner, formed by the intersection of Nineteenth and Mary streets; thence extending along said Mary street, one hundred and twenty-eight feet, and in depth along said Nineteenth street, one hundred and twenty feet, preserving the same width of one hundred and twenty-eight feet to Harcums alley;

And whereas, though the title to said piece of ground is vested in the City of Pittsburgh, the money for its purchase was part of a building fund provided by Mr. Andrew Carnegie, and placed under the control of said Board of Trustees;

And whereas, it is deemed by said Board of Trustees inadvisable to erect on said ground, a branch library building as contemplated;

And whereas, an offer has been made to purchase said piece of ground for the sum of twenty thousand three hundred fifty dollars (\$20,350) in manner following: Three hundred fifty dollars (\$350) to be paid to George A. Jones, a real estate agent, as his commission; five thousand dollars (\$5,000) in cash to be paid on February 11th, 1903; and a mortgage for fifteen thousand dollars (\$15,000) payable in three equal annual installments of five thousand dollars (\$5,000) each, with interest at five per cent., to be given by the purchasers for the balance.

Now, therefore, Resolved by the Board of Trustees of the Carnegie Library of Pittsburgh, that the Councils of the City of Pittsburgh be requested to direct the proper officials to execute a deed for said property to the purchasers and pay to the Treasurer of said Board the sum of five thousand three hundred fifty dollars (\$5,350) when such amount is obtained from purchasers and assign to said Board the mortgage for fifteen thousand dollars (\$15,000) when executed." Now, therefore:

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common*

Councils assembled and it is hereby ordained and enacted by the authority of the same, That the City Recorder is hereby authorized, empowered and directed to make, execute and deliver to the proposed purchaser or purchasers of the above described property for the consideration above designated, to wit: the sum of twenty thousand three hundred fifty (\$20,350) dollars, a deed in fee simple for the above described real estate, and to accept in payment therefor the sum of five thousand three hundred fifty dollars (\$5,350) cash and a bond and mortgage for the sum of fifteen thousand dollars (\$15,000), payable in three equal annual installments, with interest at 5 per cent. per annum, in accordance with the foregoing preambles and resolution.

Section 2. Upon the execution and delivery of said deed and the receipt of said money and bond and mortgage, the City Recorder is hereby authorized, empowered and directed to pay over said money to the Treasurer of the Board of Trustees of the Carnegie Library, of Pittsburgh, and to assign of record to the said Treasurer the said bond and mortgage and all moneys secured thereby, the same to be held by him in trust for the said Board of Trustees of the Carnegie Library of Pittsburgh.

Section 3. That any ordinance or part of ordinance conflicting with the provisions of this ordinance be and the same is hereby repealed so far as the same affects this ordinance.

No. 357.

A N ORDINANCE—Providing for the making of a contract between the City of Pittsburgh, Pa., and the Security Investment Company, of Pittsburgh, Pa., by the terms of which the said company is to be allowed to lay and maintain a water pipe system in the Wilkins Place Plan, Twenty-second ward, City of Pittsburgh, furnish the necessary water supply thereto and collect the water rents therefrom, and providing further for the transfer of said pipe line system to the City, together with all rights and privileges connected therewith.

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the City Recorder and the Director of the Department of Public Works shall be and are hereby authorized and directed to enter into a contract with the Security Investment Company, of Pittsburgh, Pa., by which the said Security*

Investment Company, or its assigns, will be allowed to lay and maintain a water pipe system in the Wilkins Place Plan of Lots, Twenty-second ward, Pittsburgh, Pa., furnish the necessary water supply thereto and collect the water rents therefrom, the said water pipe system to be laid in accordance with the requirements of the City of Pittsburgh for such work, and the total cost of same shall not exceed the sum of six thousand dollars (\$6,000.00), and providing further that the City of Pittsburgh, Pa., shall have the right, upon notice, to purchase all of the said pipe line system and appurtenances thereof, which may be laid under and by virtue of this Ordinance, together with all rights and privileges connected therewith, for a sum not to exceed the actual cost of said work, the purchase price, in no event to exceed the sum of six thousand dollars (\$6,000.00), without interest, the contract to be entered into to be in accordance with an Act of Assembly entitled, "An Act for the government of cities of the second class," approved the 7th day of March, A. D. 1901, and the different supplements and amendments thereto, and the Ordinances of Councils in such cases made and provided.

Section 2. The said Security Investment Company, or its assigns, upon obtaining the proper permit from the City of Pittsburgh, shall have the right to open up the necessary streets, lanes and alleys in said plan of lots for the purpose of laying, maintaining and repairing of said lines, and making all necessary street and house connections, and shall have the right to enforce all such rules and regulations governing the supply of water to consumers as may be reasonably necessary to control such supply, such rules, in so far as the same may be expedient, to conform to the rules and regulations of the City of Pittsburgh pertaining to its water supply.

Section 3. The said Security Investment Company, upon the opening or tearing up of any street or alley, for any of the purposes above mentioned, shall immediately after the completion of its work thereat replace said street or alley in the same or as good condition as it was before said opening, and the same shall be done to the satisfaction of the Superintendent of the Bureau of Highways and Sewers.

Section 4. This Ordinance shall not be construed or understood as waiving any right or privilege the City of Pittsburgh may now or hereafter have to lay water pipe and supply water and collect water rents for such supply in the territory herein mentioned. On the contrary, the City reserves such right, power or privilege, and this reservation shall be inserted in said proposed contract and made one of the conditions or provisions thereof.

Section 5. It is deemed advisable for the City to enter into the proposed contract for the reason that the territory to be supplied is located at a considerable distance from the nearest point on the City supply system, and cannot therefore be supplied therefrom.

Estimate for laying of pipe line in Wilkins Place Plan:

3,360 feet of 6-inch and 8-inch pipe, with all fixtures, laid complete, at \$1.60 per foot\$5,280.00

Plus 10 per cent. for engineering, supervision and contingencies.... 528.00

Total\$5,808.00

Section 6. That any ordinance or part of ordinance conflicting with the provisions of this ordinance, be and the same is hereby repealed, so far as the same affects this ordinance.

A N ORDINANCE—Levying taxes and assessing water rents for the fiscal year beginning February 1st, 1903.

SECTION 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same.* That for the purpose of providing sufficient revenue for the payment of the interest on the funded debt and to provide sinking funds as required by law for the retirement of said debt at maturity, for the payment of the salaries of City officers and to pay the ordinary current expenses of the City and for the discharge of other liabilities now due, or which may become due and payable during the said year beginning February 1st, 1903, taxes shall be and are hereby levied and assessed upon all property and other objects of taxation, as follows:

City Tax—Upon all property taxable for State or County purposes fourteen mills upon each dollar of valuation, except the property in said City designated as rural, upon which the tax shall be assessed at two-thirds of said rate, and upon all property designated as agricultural the tax shall be assessed at one-half of said rate.

East Birmingham Special Tax—Upon all property taxable for State or County purposes within the limits of the former Borough of East Birmingham 5-10 mills.

Beltzhoover Borough Special Tax—Upon all property taxable for State or County purposes within the limits of the former Borough of Beltzhoover 2 mil's.

The balance of receipts from said special taxes (after paying interest) shall be paid into a sinking fund for the district from which it is collected, and shall be used for the payment of the special debt of said district.

Section 2. The Department of Public Works shall assess water rents by the schedule of water rents as follows:

Lamb	Schad	

And **M. G. Leslie** received fourteen votes.
 And **Charles S. Crawford** received thirty-five votes.

Mr. Leslie moved

That the election of Mr. Crawford as President be made unanimous. Which motion prevailed.

And Charles S. Crawford having received the unanimous vote of Council was declared duly elected to the office of President of Common Council for the ensuing term.

The Clerk appointed Messrs. Brown, Reitz and Beckert to escort the President-elect to the Chair.

And the President took and subscribed to the oath of office, as required by Act of Assembly of April 18th, 1874, which was administered to him by Mr. M. G. Leslie, the member designated for that purpose by the Clerk.

The President having taken the Chair, thanked the members for the honor and addressed Council:

GENTLEMEN:—In assuming the duties and responsibilities of the presiding officer of this Council, it is with a feeling of dependence, for without your aid and indulgence the desire to discharge the duties of the office in a manner deserving of your confidence, and to be entirely fair, impartial and considerate, will not be realized.

This will, indeed, be an important day in the history of Pittsburgh if it marks the beginning of the realization of the fondest hopes of her citizens for municipal reform. If Councils, organized to-day, shall prove to be the medium through which the long sought changes in municipal affairs are affected, I shall be proud of the distinction of being the first President of this branch of Pittsburgh's Reform Council.

For a long time back there has been a prevailing feeling of profound dissatisfaction with the management of our municipal affairs. So universal and intense had this dissatisfaction grown that the people determined on the eighteenth of February last to overthrow the government which they felt was unworthy of the citizens who live under it.

The people, justly alarmed at the growing municipal evils, have become greatly interested in this question, the gravity of which they are beginning to appreciate. Public attention is awakened in this respect to a degree never before known to exist in our city. The eyes of all this City, and perhaps the County and State, are riveted upon us. Our citizens are anxiously awaiting the first act indicating true reform.

The majority of this Council is elected upon a platform embracing reform principles, but the people have endeavored to have incorporated in the laws of our city for a number of years. If one member should fail in his duty in respect to these principles, the disappointment of his constituents, and the city at large, will be keenly felt.

We are entering upon our councilmanic duties to-day under reasonably fair conditions; we desire, and shall attempt, to enact such legislation as will carry out the pledges we have made to the people. Our constituents must not, however, expect that such legislation can be perfected immediately; they must not be overly anxious for immediate results; they must not forget that the evils of our government have been growing for the past twenty years, and to break down the barriers of so long duration will take time and careful management.

The principal duties of Councils are the making of laws for the government of our city, but the duties of Councils extend beyond the mere making of laws. It sometimes be-

comes necessary to investigate the executive officers, to take care that they do not, or have not, transcended their authority or been derelict in their duties.

We are living in a progressive city and in a progressive period. Our manufacturing and commercial interests are pushing forward at a very rapid gait. In our eagerness to secure and maintain an efficient municipal government, we must be careful in the making of laws that the onward progress of our GRAND CITY may not be retarded but encouraged.

And the roll having been called there were present:

Messrs.		
Armstrong	Hughes	Sahner
Baldauf	Jack	Schud
Barker	Lamb	Schuck
Barr	Lauler	Semmelrock
Beckert	Leslie	Shaw
Beehner	Lewis, David	Shearer

Crawford, C. S., President.

The President then administered the oath of office, as prescribed by law, to the members-elect with the exception of Mr. Schwarz-waelder, who was not present.

The Clerk of Select Council having been introduced announced that that body had organized by the election of John S. Lambie as President and was now ready to proceed with business.

Mr. Leslie moved

That the Clerk notify Select Council that Common Council had organized with Charles S. Crawford as President and that Common Council would meet with that body in Joint Session at 12 o'clock, noon, for the purpose of administering the oath of office to John B. Larkin, Controller-elect.

And Select Council was so notified.

The Clerk of Select Council having been introduced announced that that body would meet with Common Council in Joint Session at 12 o'clock noon, for the purpose of administering the oath of office to the Controller-elect.

Mr. Leslie moved

That the Clerk make the assignment of seats to the old members and the Chairmen of Committees, and the new members draw lot for choice of seats.

Mr. D. F. Crawford moved to amend

That all the members draw lot for choice of seats.

Mr. Reitz asked that the amendment be amended that the Chairmen of Committees and those defective in sight or hearing be given the front seats.

Mr. D. F. Crawford accepted the amendment of Mr. Reitz, and moved that all the members draw lot for choice of seats except the Chairmen of Committees and those defective in sight or hearing.

Which motion prevailed.

Mr. Reitz moved

That the drawing of seats be postponed until the next meeting.

Which motion prevailed.

Mr. McNeil moved

That the rules of the last Council be adopted as the rules of this Council, excepting the following amendments and additions:

Amend Rule 1, Meeting of Councils sections 1 and 2, to read as follows:

"Section 1. Stated meetings of Councils shall be held on the second and last Mondays of every month, at 7:30 o'clock P. M."

"Section 2. Special meetings of Councils shall be called at the order of the President, or of any standing committee of Councils, or of one-third of all the members, provided that such order shall be in writing; shall specify the purpose for which the call is made; shall be signed by the parties ordering the call, and be entered by the clerks upon their respective minute books, and the clerks shall give not less than three days' written notice of such special meetings, except the special meetings as are authorized to be called by the City Recorder, under Act of 1901."

Add section 5 to read as follows:

"Section 5. No meeting of any standing committee shall be called within six hours previous to a councilmanic meeting."

Add section 6 to read as follows:

"Section 6. The Clerk shall send to each member of this Council a written notice of each meeting of every standing committee."

Which was read.

Mr. Armstrong moved

To lay the matter over until the next meeting and a copy of the amendments be sent to each member of Council.

Which motion prevailed.

Mr. Armstrong moved

That Council take a recess until 11:55 o'clock.

Which motion prevailed.

The time of the recess having expired Council was called to order, and there were

Crawford, C. S., President.

Absent—Mr. Schwarzwaelder

The Chair directed the Clerk to notify Select Council that Common Council was now ready to meet with that body in joint session for the purpose of administering the oath of office to the Controller-elect.

And Select Council was so notified.

The Clerk of Select Council having been introduced, announced that that body was ready to meet with Common Council in joint session for the purpose of administering the oath of office to the Controller-elect.

And Select Council having appeared and introduced, and being so met in

JOINT SESSION

for the purpose of administering the oath of office to **John B. Larkin**, the Controller-elect.

Mr. McNeil moved

That a committee of five, three from Common Council and two from Select Council, be appointed to notify the Controller-elect, and escort him to the Common Council Chamber for the purpose of administering to him the oath of office.

Which motion prevailed.

President **Crawford** appointed, on behalf of Common Council, Messrs. **McNeil**, **Brown** and **Stevenson**.

President **Lambie** appointed, on behalf of Select Council, Messrs. **Paul** and **Perry**.

The committee having retired, returned, introduced **John B. Larkin**, the Controller-elect, who took and subscribed to the oath of office, which was administered to him by President **Lambie**, of Select Council.

Controller **Larkin** said:

"MR. CHAIRMAN AND GENTLEMEN OF SELECT AND COMMON COUNCILS:—I thank you heartily for your testimonial of respect. I promised you, in taking the oath of office, that I would obey the law. I will so discharge the duties of my office as to bring credit to you and to those who supported me. I have no speech to make, as it didn't occur to me that anything would be necessary, except to say "Aye" to the oath. I will expect you to aid me in the discharge of my duties, and I will always be glad to see you and the Chairmen of Councils as well. I will always be glad to hear from you and to talk matters over with you. I would like to get along with as little friction as possible, and I will always keep in view the pledges made to the citizens of this city in the late campaign."

"I again thank you, gentlemen."

Mr. Perry moved

That the joint session do now adjourn.

Which motion prevailed.

And Select Council returned to its own Chamber.

Mr. Stevenson presented

No. 112.

A resolution authorizing the appointment of a joint committee to investigate the water supply of the City of Pittsburgh and matters appertaining thereto.

WHEREAS, The City of Pittsburgh recently has been threatened with a failure in its water supply arising from causes not publicly made known, and

WHEREAS, Said condition existed while pumping facilities which heretofore have fully maintained a sufficient supply of water have been operated to their full capacity, and,

WHEREAS, The low stage of water in certain reservoirs has exposed an accumulation of reeking filth, the result of failure to thoroughly cleanse said reservoirs for a period of fifteen years as alleged, and

WHEREAS, Such conditions create widespread alarm, are a menace to life and property, have threatened to make insurance risks extra hazardous, if not altogether prohibitive, and have called forth from the Director of the Department of Public Works the following notice:

PITTSBURGH, March 20, 1902.

"To the Citizens of Pittsburgh:

On account of the scarcity of water in the reservoir and the impaired condition of the engines at Brilliant Pumping Station, it will be necessary, in order to recuperate the water supply, to close the distributing gates at the reservoir for a sufficient length of time to permit of necessary repairs to be made. The supply of water in the reservoir is being steadily exhausted and it will be necessary to resort to this extreme measure to prevent possibly a total water famine. The public is hereby requested to economize as much as possible in the use of water pending this temporary cessation of the supply.

Due notice will be given through the newspapers when this proclamation will be carried

into effect, which may occur at any time within the next forty-eight hours.

J. GUY MCCANDLESS,

Director Department Public Works."

Now, therefore be it Resolved, That upon the adoption of this resolution a joint committee of Councils shall be appointed—consisting of two members of the Select Branch to be designated by the President thereof and three members of the Common Branch to be designated by the President thereof—whose duties shall be to investigate the water supply of the City of Pittsburgh and the recently threatened failure thereof as well as all matters and conditions relating thereto and at the earliest date possible report its findings of fact together with such recommendations as may be deemed proper, and further,

Be it Resolved, That said committee forthwith upon its appointment shall organize, elect a chairman and secretary and adopt such rules of procedure as may be deemed expedient, and further,

Be it Resolved, That for the purpose of such investigation said committee shall be clothed with full power and authority without liability to the City to inspect and have inspected any and all pumping machinery, reservoirs, pipes, mains and connections, reports and data which the City now own or over which it may exercise control, relating to the supply and distribution of water; examine under oath any person or any officer or employee of the City and call to its assistance such expert knowledge as may be deemed advisable for a full and complete investigation of the facts.

Which was read.

Mr. Stevenson moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended the resolution was read a second and third times and finally passed.

The Chair appointing Messrs. Woods, Wasson and Shaw on behalf of Common Council.

Mr. Beckert moved

That the drawing for seats be postponed until after the joint committees are appointed and organized.

Which motion prevailed.

Mr. Stevenson moved

That Council adjourn to meet on Monday the twenty-first day of April, 1902, at 7:30 o'clock P. M.

Which motion prevailed.

And Council adjourned.

Bevelacqua, her deed for parts of lots Nos. 10, 11 and 12 in the plan her to attached, and on October 10th, 1901, she also sold to petitioner, Louis Tambron, part of lot No. 9 in said plan.

The lots owned by Mrs. Jamison were lots 7, 8, 9, 10, 11, 12, 13, 14, 17, 18 and 19 in said plan. That between 1894 and 1900 several liens for taxes and water rents aggregating \$1,157.92 were filed against said property by the City of Pittsburgh, and thereafter Mrs. Jamison sold several lots, and still others were sold by the Sheriff, and on each such occasion apportionment was made by the City of Pittsburgh of the amount of taxes estimated to be against such lot, and upon payment of the sum so found the particular lot was then released from said liens, so that all of lots shown in the plan have been released except the two lots owned by your petitioners, and there is

now a balance of unpaid liens against the two lots amounting to \$581.25, and which is greatly out of proportion to their share of the liens.

The lot of Bevelacqua cost \$1,000.00 and that of Tambron cost \$650.00. The city officials admit that the assessment of water rents was an error. The assessment for city taxes was greatly in excess of the value of the property.

Your petitioners show by the foregoing facts that it would be very unjust and inequitable to continue the said liens for their full amount against the said lots, as the result would be confiscation and great loss to petitioners. Petitioners respectfully offer, in full payment and satisfaction of said liens, one-third of the aggregate. They therefore respectfully ask that the accompanying resolution, authorizing and directing the satisfaction of said liens, may be passed.

Allegheny County, ss.

Louis Tambron being duly sworn says that the facts in the foregoing petition are true, as he believes.

No. 149.

To the Honorable the Select and Common Councils of the City of Pittsburgh.

The petition of The Little Sisters of the Poor of Pennsylvania respectfully represents:

1. That your petitioners own in fee a parcel of land in the Twentieth ward of city, fronting 417.02 feet on south side of Penn avenue, extending from Rebecca street westward to a point 124 71-100 feet east from Atlantic avenue.

2. That four parties owning the properties between your petitioners' said land and Atlantic avenues, petitioned for, and procured, the passage of an ordinance, approved July 6, 1890, for a fifteen-inch pipe sewer extending from their said properties eastward to the Rebecca street sewer, and thus caused your petitioners' whole frontage to be assessed for a sewer which is of no benefit to petitioners.

3. That the properties opposite your petitioners' are accommodated by a sewer along that side of Penn avenue, and they did not contribute to this sewer along the south side.

4. That the viewers who assessed the cost of this sewer pointed out that in lieu of it, a much shorter sewer could and should have been built to connect with the Atlantic avenue sewer, and at the expense of the property owners needing and desiring it; but by the plan adopted they escaped with a smaller assessment and petitioners are required to bear a large part of the cost of this much more expensive sewer.

5. That your petitioners paid \$1,300 or upwards to the city for the Rebecca street sewer, and their buildings, which are permanent, substantial structures, drain entirely into that sewer. They further represent that under their charter their said property is wholly devoted and for all time to come as they hope, and believe will be devoted to a purely public charity, to wit: a "Home for aged poor of both sexes without distinction of religion;" and that its maintenance directly diminishes the rate of poor taxes in the city.

6. That though all other parties interested signed the petition for the first mentioned sewer, your petitioners were not asked to do so, and they had no notice or knowledge of its intended construction until ground was broken.

7. That the original assessment against petitioners was \$497.23, and at No. 492 December term, 1897, a verdict has been entered for \$372.94 and costs in favor of the city against said property of your petitioners.

8. That petitioners were compelled to submit to the entry of said verdict because they are advised that the courts have no jurisdiction to inquire into the propriety of the action of councils in ordaining the construction of said sewer, and that the only recourse of your petitioners is to obtain from the present councils relief from the unjust, oppressive and inequitable assessment so made against your petitioners.

9. Petitioners therefore beseech your Honorable bodies to authorize and direct the city solicitor to mark said verdict and claim of lien, upon the records thereof, satisfied or cancelled, upon payment of costs.

And they will ever pray, etc.

Pittsburgh, Feb. 24, 1902.

To the Select and Common Councils of the City of Pittsburgh.

Gentlemen:—We, the undersigned citizens and property holders of the Twenty-second ward, respectfully represent, that the lives and property of the people are in constant danger from the fact that we have no fire protection in our section of the city. That the nearest engine house is at Neville street, Bellefield, and from the fact that it is an extremely heavy grade from the Oakland district to our section; the time required and the exhausted state of the horses in pulling the heavy engine up the steep grades causes valuable time to be lost, resulting in most instances in the entire destruction of the property, as the late fire on Wightman street of the McEldowney property demonstrates.

We could suggest the location of an engine house if our prayer be granted, Homewood avenue, between Wightman street and Beechwood avenue, as the streets are paved in all directions from that point, and the further fact that this location is the summit of Squirrel Hill and the grade is down hill in every direction, affording quick results and saving to the stock of the department.

And we will ever pray.

No. 169. Resolved, That the Board of Assessors shall be and are hereby authorized and directed to issue an Exoneration in favor of The Kingsley House Association, for the taxes assessed for the year 1901, against property located on Fulton street, Eighth ward, Pittsburgh, used and occupied by it for charitable purposes.

Also

No. 170.

To the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:—The undersigned executors of the estate of John D. Scully, late of the Twenty-third ward of the City of Pittsburgh, deceased, respectfully represent:—

That the said John D. Scully died on the 9th day of January, 1898, and that at and before the time of his death he was the owner of fifty-six (56) small unimproved lots of ground, situate in the Fourteenth ward of said City of Pittsburgh: six (6) of which lots are situate on Juno street, and are numbered 161 to 166 inclusive in the plan of the Linden Land Company, Recorded in Plan Book, vol. 8, page 164; two (2) others of which lots are situate on Boundary street and are numbered 67 and 68 in said plan, and two (2) others of which said lots are situate upon a street leading from Boundary street to Sylvan avenue, and are numbered 135 and 136 in said plan; the remaining lots are numbered 1 to 38 inclusive and 60 to 67 inclusive in John D. Scully's plan of lots, recorded in Plan Book vol. 15, page 161, are situate on Frazier and Childs streets, and are occupied as a brickyard under a lease made by John D. Scully to George A. R. Benney, from which lease no rent is derived; the said Benny and his assigns

being in possession for the purpose of grading the said lots, and said grading has not yet been completed.

That for the year 1896, the city assessment for the purpose of taxation upon said lots numbers 161 to 166 and lots numbers 1 to 38, was \$21,600.00, and the city tax upon the same was \$251.99, for which sum two delinquent tax liens have been filed, one at No. 397 December term, 1896, and the other at 398 December term, 1897.

That for the year 1897, the city assessment for the purpose of taxation upon all of the said lots of John D. Scully was \$22,260.03, and the city tax for said year 1897 was the sum of \$258.20, for which sum a delinquent tax lien has been filed at No. 401 December term, 1898.

That for each of the years 1898, 1899 and 1900 the city assessment for the purpose of taxation upon all of the said lots of said John D. Scully was \$29,504.00, and for the 1901, said assessment was \$25,144.00, and for the year 1898, the city tax was the sum of \$368.97, for which a delinquent tax lien has been filed at No. 511 December term, 1899; for the year 1899, the city tax was the sum of \$351.65, for which a delinquent tax lien amounting to \$404.56 has been filed at No. 392 March term, 1902, and for the year 1901, the city tax upon said land was the sum of \$314.00, including in the above sums the commission of the Delinquent Tax Collector.

That none of said taxes have been paid. That ever since the death of the said John D. Scully, your petitioners have been diligently endeavoring to sell the said lots of ground at private sale, but have failed to obtain any offer whatever for the same, or any of them.

That under an order of the Orphans' Court all of said lots were offered at public sale by your petitioners, on the 31st day of October, 1901, and were very fully advertised, and for want of a sufficient bid the sale of said lots was then adjourned until the sixth day of November, 1901, and all of said lots were finally sold for the sum of eleven thousand and twenty (\$11,020.00) dollars, which sale was confirmed by the Orphans' Court.

That, under the lease, the said Benney, the lessee, was bound to pay all taxes upon his machinery and improvements placed upon said real estate, but no assessment appears upon the books of the city against said machinery and improvements, and it would seem that the said lots of ground have been assessed not only for their own value, but for the value of the improvements of said tenant, used in his brickyard.

Your Petitioners therefore, representing that the said assessments upon the lots of said decedent are more than double the actual value thereof, and submitting to your Honorable Bodies that a mistake has been made in said assessments, which mistake has worked hardship and injustice to the estate of said John D. Scully, and to his creditors, respectfully pray you to grant them relief in the premises by reducing the aforesaid assessments to the sum of eleven thousand and twenty (\$11,020.00) dollars, the actual value of said lots of ground, as determined by the said Orphans' Court sale of the same, and that the taxes assessed upon said lots may be reduced proportionately, and that the City Attorney may be directed, upon receipt of such proportional parts of the annual, taxes for the year 1896 to 1900 inclusive, and payment of costs, to mark said delinquent tax liens satisfied in full; and that the Delinquent Tax Collector

may in like manner be directed to accept payment in full satisfaction of the year's taxes for 1901 of such proportion thereof as your Honorable body may fix.

And your petitioners will ever pray, etc.

Mr. Sterrett presented

No. 248.

To the Select and Common Councils of the City of Pittsburgh.

Gentlemen:—Your petitioner is the owner of a lot of ground, situate on Portland street, between Wellesley avenue and Jackson street, in the Nineteenth ward. The said street was graded, paved and curbed between said points and an assessment made to cover the costs of the same. At the time the viewers made said assessment your petitioner was not in the city of Pittsburgh, so was unable to be at the hearing before the said Board of Viewers.

Your petitioner has been assessed the sum of \$188.71 for said improvement, whereas the owners of all property between said points whose lots are of the same size as your petitioners, to wit: 24 ft. by 110 ft., have only been assessed the sum of \$113.71 with the exception of the City of Pittsburgh, who owns a lot of ground which is the same size as your petitioner's, and whose assessment is the same as your petitioner's, to wit: \$188.71.

Your petitioner therefore prays that the City Solicitor be authorized and directed to accept the sum of \$113.71 from your petitioner in full for the grading, paving and curbing of said street.

And he will ever pray, etc.

W. F. EICHENLAUB.

Also

No. 249.

Resolved, That the City Solicitor be and he is authorized and directed to accept the sum of \$113.71 in full payment for the assessment against the property of William F. Eichenlaub, situate on Portland street, between Wellesley avenue and Jackson street, Nineteenth ward, on account of the grading, paving and curbing of said street between said points.

Which were referred to the Committee on Finance.

Mr. Brown presented

No. 250. An Ordinance increasing the pay of certain employees of the Bureau of Police of the City of Pittsburgh, and fixing their pay until this ordinance takes effect.

Which was referred to the Committee on Finance.

Also

No. 251. An Ordinance amending section 1 of an ordinance entitled "An Ordinance to regulate the placing of light or lights on vehicles and regulating travel upon the

streets and highways of the City of Pittsburgh," approved June 6, 1899.

Which was referred to the Committee on Public Safety.

Mr. McNeill presented

No. 252. An Ordinance granting the Pennsylvania Railroad Company the right and privilege to construct, maintain and use an extension to its track on Liberty avenue from the present track west of the west building line of Eleventh street along the north side of Liberty avenue to a point west of the west building line of Twelfth street.

Which was referred to the Committee on Corporations.

Also

No. 253.

To the Select and Common Councils of the City of Pittsburgh, Pa.

Gentlemen:—The petition of Frank Fuhr, agent in this behalf of Margaret J. Walker, of the Twenty-first ward, Pittsburgh, Pa., respectfully represents:

That since July 18th, 1892, the said Margaret J. Walker has been and is now the owner of a lot situated in the Twenty-first ward, City of Pittsburgh, front 20.88 feet on Mayflower street and extending back 100 feet; that she purchased said lot from Annie Fuhr and husband on said 18th day of July, 1892, by deed of release, which deed was registered in the City Engineer's office on August 18th, 1892; that during the years 1897, 1898 and 1899, the city assessors, through error or mistake, assessed said lot in the name of Annie E. Walker, instead of Margaret J. Walker, as required by Act of Assembly, and for said years your petitioner, in behalf of Margaret J. Walker, paid city taxes on the property of Mary J. Walker, thinking they were the taxes of said "Margaret." Hence, through the errors above cited, the taxes of said Margaret J. Walker was never paid, and the City of Pittsburgh has filed liens at Nos. 882 Dec. Term, 1898, 961 Dec. Term, 1899, and 827 Dec. Term, 1900, D. T. D., against said lot, all of which liens are illegal (being filed against Annie E. Walker instead of Margaret J. Walker, the registered owner), but at the same time they are a cloud on the title and should be removed.

The said Mary J. Walker, whose taxes were paid by your petitioner, refuses to reimburse your petitioner.

Wherefore, your petitioner asks that a resolution be passed by your Honorable body empowering and authorizing the City Solicitor to satisfy said liens at said D. T. D., and charge the costs against the City of Pittsburgh.

Respectfully submitted,

FRANK FUHR,

Agt. for Margaret J. Walker.

Also

No. 254.

Resolved, That the Collector of Delinquent Taxes be and he is hereby authorized and directed to enter satisfaction in full on the record in the Prothonotary's Office of Allegheny county, D. T. D. No. 261.

PITTSBURGH, May 26, 1902.

To the Select and Common Councils of the City of Pittsburgh, Pa.

Gentlemen:—The petition of the undersigned respectfully represents: That she is the owner of a house on Nixon street, near Lewis street, in the Twenty-second ward, situated at the foot of the slope of Schenley park; That in the summer of 1901, the City was grading at or near the "Race Track" in the park, and the earth excavated was thrown over the slope:

That fearing danger from it she warned Superintendent Falconer, who caused a drain to be dug for the purpose of preventing the water getting under this earth and causing it to slide; That said drain was insufficient, and sometime about the last of July or beginning of August, 1901, a slide of the earth placed on the slope occurred, carrying with it a stone wall in the rear of your petitioner's lot, forcing it against the rear of her building, destroying the out-houses, stone wall and fencing, and shattering and damaging the building;

That your petitioner has for a year past been endeavoring to get her claim before the proper authorities for adjudication but has hitherto failed. That

during last winter the water from the park overflowed her yard, or what was left of it, and froze in a solid sheet of ice, and in going out she fell and broke her arm.

She therefore prays that she may be allowed damages for the injury she has received and that the Controller shall be directed to issue a warrant for six hundred and twenty-five dollars (\$625.00), in payment of the claim.

MRS. J. MCCOLGAN.

Also

No. 262. Resolution authorizing the issuing of a warrant in favor of Mrs. J. McColgan for the sum of six hundred and twenty-five dollars, in settlement in full of a claim for damages arising from a landslide in Schenley Park on the line of Nixon street, Twenty-second ward, and charge the amount to Appropriation No. 42.

Also

No. 263.

To the Members of Common Council.

Your petitioner, L. T. Yoder, respectfully represents that the estate of Elizabeth M. Yoder is the owner of property abutting on Murray Hill avenue, Twenty-second ward, Pittsburgh, in front of which the city has laid a sewer, and made assessments therefor to the amount of six hundred and sixty-five and 66-100 dollars (\$665.66) for a frontage of three hundred and sixty feet (360 ft.)

That said Murray Hill avenue was laid out, graded and paved by the Yoder Land Co., and a sewer draining the property towards Fifth avenue was put in under the advisement of W. R. Browne, and with the authority of the said city, and afterwards the city approved of the plan of lots laid out by the Yoder Land Co. and known as the Ardshiel Terrace plan, recorded in the Recorder's office of Allegheny county in plan book, volume 10, page 18, and accepted the said Murray Hill avenue.

That the said sewer put in by the Land Co. extends a distance of one hundred and eighty (180) feet along and in front of the property assessed for the city sewer, and by some mistake or oversight of the engineer, the city sewer for which the aforesaid assessment for the six hundred and sixty-five and 66-100 dollars (\$665.66) is made, overlaps said sewer put down by the Land Co. some one hundred and eighty (180) feet, or fully one-half of the frontage, which was entirely unnecessary for the enjoyment of the said one hundred and eighty (180) feet, and of no benefit whatever, as the said sewer placed by the Yoder Land Co. is ample for the drainage along said avenue, it being a fifteen (15) inch sewer, and to which the City of Pittsburgh has made connections of four (4) drains placed on Murray Hill avenue.

That your petitioner avers that said estate did not receive any notice whatever of the meeting of the Board of Viewers, and has had no opportunity of having redress. That the only notice received by your petitioner, or said estate, was the notice from the City Treasurer, dated May 31st, 1900, to pay said assessment within thirty days.

Wherefore, your petitioner prays your Honorable body to grant said estate relief in this matter, and authorize the City Solicitor to accept the sum of three hundred and thirty-two and 83-100 dollars (\$332.83) in full for the assessment for the sewer on Murray Hill avenue.

L. T. YODER,

for E. M. Yoder Estate.

Allegheny County, ss:

Personally appeared before me, L. T. Yoder, who being duly sworn, says the statements made in the foregoing petition are true and correct to the best of his knowledge, information and belief.

Which motion prevailed.

And the rule having been suspended the resolution was read a second and third times, and finally passed.

The Chair appointed Messrs. Reitz, McNeill and Soffel.

Mr. Stevenson presented

No. 272.

To the Presidents and Members of Select and Common Councils, City of Pittsburgh.

Gentlemen:—I herewith submit for your consideration the following statement relating to revenues of this City, and the sources from which they are derived, for twenty years, with the view of not only having you consider a more equitable distribution of burden, but some method by which one species of income may be as promptly secured to the City as another.

It seems unfair to home owners and investors in real estate, that a tax levy should be made a lien to secure collection and penalty for delayed payment, while others to whom license, opportunity and public grants are given, are permitted to pay as they please, when they please,

or not at all, as suits their discretion. The willing and enterprising citizen who invests in real estate, whether for a home or as a source of income should be protected, and only be required to pay his fair proportion of the general expense of the community in which he resides and invests. Those to whom grants, license and special privileges are accorded, should also pay their proportion; while those who transgress the laws and require restraint and admonition or the imposition of penalty, should pay their full share. The revenue from these sources should be as carefully and as promptly collected as the tax upon realty, which is fruitful, growing and certain.

The people who have borne this burden, very positively object to a continuance of the system now obtaining, and want a re-adjustment. They want the load which they have long and patiently carried lifted or made lighter, and expect those to whom they have delegated authority to provide ways and means to discharge that duty.

That they have had just cause for complaint is probably best illustrated by the following exhibit, covering the revenues of this City for the past twenty years, and showing the relation which those from real estate bear to those derived from public grants, franchises, utilities and private enterprises, made possible through public favor, and afforded the same protection as real estate.

it will be seen that of the assembled revenues from direct and indirect taxation, adding the Delinquent Tax office penalty for default of payment, real estate (direct real estate tax) contributed 84.4 per cent, while all other classes, consisting of licenses, fees, etc. (termed indirect tax), paid only 16.6 per cent, compared with 68.3 per cent credited to Real Estate in the City of Chicago, while the revenues from other sources in that City yielded in 1900 36.7 per cent, as reported to the merchants of that City by special accountants selected to review the revenues of Chicago, and revise the method of public accounting. These results are deducted from facts presented, and they demonstrate that notwithstanding that Chicago is being governed under what is known as the City and Village Charter of 1875, which permits at least twenty bodies or Boards within its Corporate limits, to assess taxes for local purposes, it secures from its indirect system of taxation almost 37 per cent of its gross revenue, while this City is content with less than 17 per cent from like subjects, and loads the willing horse with more than 83 per cent under the Charter of 1887, confining the tax levying power to Councils. Considering the Corporate privileges this City has to bestow; their wide range and inestimable value, the glaring disproportion must strike all thoughtful men with the necessity of radical and prompt revision through reduction of the millage on property and an increase of tax on those enjoying public functions, whether such tax is or is not now imposed. Bad as our system seems in principle, the practice is worse, and cannot be defended. Revenues provided for should be collected instead of using them for parade on the Appropriation Ordinance, as an offset, for the time being, to proposed disbursements.

REVIEW OF REVENUES.

Bicycle License, inaugurated in 1895, is on the decline owing to practical abandonment of the wheel as a pleasant or healthful exercise, although well looked after while it was popular.

The Bridge License, amounting to \$100 per year, has been regularly paid by one manufacturer for the privilege of crossing the Allegheny Valley Railroad tracks on a structure of his own erection; payment for 1901 will be made later.

MONONGAHELA BRIDGE. When the Smithfield Street Bridge was rebuilt, the Pittsburgh and Birmingham Traction

Company advanced to the Bridge Company the sum of One Hundred and Eighty-five Thousand (\$185,000) Dollars to build the addition over which the cars run, and this sum was to be repaid by the Bridge Company to the Traction Company in tolls. The debt was to bear 5 per cent per annum, and the Traction Company was to be charged seven and one-half (7½) cents per trip for its cars, the tolls to aggregate not less than Fifteen Thousand (\$15,000) Dollars per annum for seven years, and Seventeen Thousand (\$17,000) Dollars thereafter. When the City bought the Bridge, the Traction Company brought suit against the Bridge Company to recover the unpaid balance it had advanced the Bridge Company, amounting to One Hundred Fifty-two Thousand Five Hundred Twenty-eight Dollars and Thirty-one Cents (\$152,528.31), taking the position that the purchase of the bridge by the City released the Traction Company from its contract, but the Supreme Court decided the case in favor of the Bridge Company, in other words, the City. As more than seven years have now elapsed, it would be well to investigate as to the credits the Traction Company is now getting on its indebtedness, the number of cars it is running and the number of trips made by them. In this connection, it might also be well for your Honorable bodies to determine by what authority the Hill Top Line crosses the Bridge.

POINT BRIDGE. This bridge up to the time of its purchase by the City, earned money, and by decree of Common Pleas Court No. 2, April Term, 1892, the West End Railway Company was ordered to pay the Bridge Company the sum of Eight Thousand (\$8,000) Dollars per year rental for use of bridge tracks, and the Railway Company paid this sum down to June 1st, 1896, when it refused to pay further because the bridge had been bought by the City. Suit was thereupon brought in the name of the Point Bridge Company, against the Railway Company, in Common Pleas Court No. 1, March Term, 1898, but the suit has never been brought to trial. The defense of the Company is that the City, having bought the bridge and made it free, cannot collect tolls; this question, however, has already been settled by the Courts and there should be no difficulty in recovering the amount due with interest from June 1st, 1896, which would amount now to

about Fifty Thousand (\$50,000) Dollars, and to which I will call and press attention later.

During the years 1897 and 1898 this bridge got credit for some old wire and a refund of taxes amounting to One Thousand One Hundred Eighteen Dollars and Eighty-three Cents (\$1,118.83), as shown in Bureau of Bridges, which is also credited with Twenty-five Thousand Nine Hundred Seventy-six Dollars and Forty-seven Cents (\$25,976.47) for renewal of bridges over Pennsylvania Railroad tracks, and Four Hundred Ninety-six Dollars and Seventy-six Cents (\$496.76), for tax and insurance refunds.

FINES. The amounts credited are collections from Aldermen, with the exception of the large amounts during 1888 and 1889, and again in 1893, which were from Law and Order Associations.

DOG TAX. This is a real live revenue, and is looked after, whatever else may be said of it.

BUREAU OF FIRE. gets its revenue largely from sale of horses unfitted for further service, as does Bureau of Parks. should give way at once to requirements of New Charter. The returns under that head are the City's share of receipts,

GAUGING. This is a fee office and the Gauger retaining his share, or fifty per cent of the business transacted by him until 1888, when he was permitted to retain seventy-five per cent. In 1882 his gross business was Eight Thousand Seven Hundred Twenty-four Dollars and Eighteen Cents (\$8,724.18), of which he had for services and expenses, Four Thousand Three Hundred Sixty-two Dollars and Nine Cents (\$4,362.09), but in 1887 the business fell to Six Thousand One Hundred Eighty-eight Dollars and Ninety-four Cents \$6,188.94), Three Thousand Ninety-four Dollars and Forty-seven Cents (\$3,094.47), of which he retained.

In the next year, 1888, Councils in consideration of the decrease in the Gauger's business, allowed him seventy-five per cent of the whole business, the City getting One Thousand Four Hundred Seventy-four Dollars and Eighty-eight Cents (\$1,474.88) and the Gauger Four Thousand Four Hundred Twenty-four Dollars and Sixty-four Cents (\$4,424.64). No fault can be found with the official in looking after his own interests, but what must be said of a Corporation that permits its affairs to be so managed that a decrease in the

volume of its business allows increased compensation for its transaction, or pays seventy-five cents for the collection of every dollar. Followed to its logical conclusion, that method of business would in time not only absorb the entire earnings, but involve an appropriation to sustain it.

BUREAU OF HEALTH began in 1888, when H. P. McCullough, Treasurer of old Board of Health, covered into City Treasury all money in his hands; since then, changes in law have diverted and decreased this revenue.

HIGHWAYS AND SEWERS gets its cash from old junk. Re-enforced in 1900 by cash from S. T. Paisley for Forty Two Hundred Dollars (\$4,200), and from E. M. Bigelow for Seven Thousand Four Hundred Twelve Dollars and Eighty-eight Cents (\$7,412.88), to make good the Paisley shortage.

LIQUOR LICENSE. This is a varying license, depending altogether on the number of licenses the Court is disposed to grant, nine-elevenths of each City license being set aside for use of City. Formerly the County Treasurer held this money until September, for such use as he might determine. This year, however, the Charter requires immediate deposit in City Treasurer, and it was so deposited.

MARKETS.

Notwithstanding the population has more than doubled in twenty years, the returns from Markets lag, the revenues having increased in that time about Eleven Thousand Dollars (\$11,000), and in the past eleven years have fallen from Fifty-two Thousand Three Hundred Fifty-eight Dollars and Twenty-two Cents (\$52,358.22) to Fifty Thousand Nine Hundred Ninety-one Dollars and Eighty-five Cents (\$50,991.85). The little Adams Market has fallen off about 25 per cent in eleven years; the Diamond about 10 per cent in the same time, and the South Side Market has barely held its own, although the population has grown rapidly.

OLD CITY HALL revenues are from rentals. It had a walking match in 1896 that helped it out, but in recent years it seems to have been rented at long intervals only, earning about the equivalent of two nights per month, at Seventy-five (\$75) per night.

PRODUCE LICENSE started out well in 1897, but seems to be on the decline like all other sources of City income.

PAWNBROKERS. There were thirteen of them in 1890, according to license fees collected; nine in 1900 and twelve in 1901.

RENTS from houses owned by City have also dwindled from Eleven Hundred Fifty-seven Dollars and Thirty-three Cents (\$1,157.33) in 1884, to nothing last year.

MAYOR'S OFFICE.

The returns from this office with its five Police Magistrates are not much greater now than they were twenty years ago, and more than 30 per cent smaller than eleven years ago, although the cost of suppression of crime has doubled.

STREET RAILWAYS did comparatively well for a time, but are nearly Three Thousand Dollars (\$3,000) behind 1899. Cincinnati in 1900 had contributed from this source, One Hundred and Fifty Thousand Dollars (\$150,000) against Eighteen Thousand Five Hundred Thirty-four Dollars and Seventy-eight Cents (\$18,534.78), in this City.

SWITCH AND SCALE LICENSES.

Your attention is respectfully called to the abuses of these valuable and convenient utilities. There are of record in this office one hundred ninety-seven (197) switches, the erection of which is supposed to have been granted by ordinance, at an annual rental of Seventy-five (\$75) Dollars, and supposed to yield almost Fifteen Thousand Dollars (\$15,000) annually. After diligent search less than fifty ordinances are found in the books and the rentals have not in any year since 1885 equalled Three Thousand Dollars (\$3,000), the lowest amount, Thirteen Hundred Eighty-seven Dollars and Fifty Cents (\$1,387.50) being in the year 1901, just passed. That at least one hundred of these utilities have been put down without leave or license, so far as the records of the City show, is as certain as that only a few of those using them pay anything for obstructing the streets and sidewalks, without authority, thus not only escaping obligations to the City, but putting a premium on the violation of law. In the distribution of its grants, the City should treat all citizens alike and tax them alike under like circumstances, or abandon its pretense. If this grant is a proper one, and the charge reasonable, it should be paid regularly and without discrimination. More than One Hundred and Fifty Thousand Dollars

(\$150,000) is now due the City for this privilege alone.

VEHICLE AND VENDERS' LICENSES have almost kept pace with the growth of the City and show creditable results.

WHARVES.

They are all occupied in one way or another, and the Allegheny Wharf especially looks like a nightmare, and is a disgrace to the City. Twenty years ago the wharves produced Seventeen Thousand Five Hundred Eighty-one Dollars and Twenty-nine Cents (\$17,581.29), against Fifteen Thousand Two Hundred Eighty-nine Dollars and Sixty-one Cents (\$15,289.61) in 1901.

The Allegheny Wharf alone, if it must be given over to miscellaneous interests, should be made produce all that can be gotten out of it from the Exposition Buildings to Brilliant Reservoir. It is a disgrace to the City as it now is, and the inflections located on it should be made pay at least One Hundred Thousand Dollars (\$100,000) annually, instead of less than Six Thousand (\$6,000), or the wharf cleared of its obstructions.

WEIGH SCALES. The fact that Weigh Scales covered into City Treasury Four Thousand Sixty-nine Dollars and Eight Cents (\$4,069.08), twenty years ago, and last year earned net, Nine Hundred Fifty Dollars and Twenty-eight Cents (\$950.28), is about the worst picture that could be drawn of the general mal-administration and of the want of interest in an important feature of government. That these scales can produce and did produce, is attested by reference to the returns from this source in years 1882, '83, and '84.

WEIGHING OF COAL. In 1882 the income from this source was Five Thousand Four Hundred Eighty-nine Dollars and Eleven Cents (\$5,489.11), and in 1883 it was discontinued, after collecting in that year One Thousand Sixty-nine Dollars and Fifty-six Cents (\$1,069.56). No wiser provision could have been made than this, as great complaint, whether just or unjust, is made of what is called short weight. It was and is stated that the purchasers of coal would not pay for the weighing, but no person ventures to say they preferred to buy it without knowing exactly what they were getting. I do not undertake to say that any dealer would sell light weight or deceive his

customers, but that the sellers and buyers may both feel satisfied, the weighing of all commodities by a sworn officer of the City should be insisted upon, and the fees for such service should be borne by the seller, and a certificate of weight furnished the purchaser, the charge for such service going direct to the City Treasury.

E. S. MORROW. In 1885, Mr. E. S. Morrow, then City Controller, instituted proceedings against Mr. Hostetter to recover from him as bondsman of Andrew Hartupée, for failure to perform contract for construction of Water Works engines. Change of venue to Beaver County was sought and obtained, but Mr. Morrow persistently followed the City's varying fortunes in the face of difficulties and discouragements that less courageous men would have avoided. The verdict for the City, Two Hundred Seventy-six Thousand One Hundred Twenty-three Dollars and Fifty-two Cents (\$278,123.52), was a compliment to Mr. Morrow's public spirit and integrity at a time when both were needed.

PENN AVENUE COMPROMISE. The cash to the credit of fund is the result of a compromise between abutting property holders on certain avenues and streets and the City; regarded as an equity, it is now nearly extinct, as a revenue, reliant.

WATER RENTS. No need to say this is a never failing source, a golden stream that is never permitted to become inert or fail to supply ever increasing wants, even in the face of universal protest of those who pay the bills. Water not only pays its own way, but earns a surplus, and the people reason that anything taken from them and not required, is reprehensible exaction. Therefore, if water earns as it did last year, Eight Hundred Sixty-three Thousand Fifty-seven Dollars and Twelve Cents (\$863,057.12), and only costs Six Hundred Sixty-one Thousand Three Hundred Sixty-one Dollars and Seventy-two Cents (\$661,361.72), including the fixed charges, it is an injustice to tax them with more than its cost. As this revenue must grow in proportion, the tax should be lowered at once to 75 per cent of present charge, or in other words: the man or woman paying Ten Dollars (\$10) should only be required to pay Seven Dollars and Fifty Cents (\$7.50). This would only be a return to about the per capita rate of 1882,

when the receipts from Water were Three Hundred Sixty-Three Thousand One Hundred Eighty-six Dollars and Eighty Cents (\$363,186.80).

MUNICIPAL HALL. The items under this head are charges for offices of Delinquent Tax Collector, and ceasing in 1901, owing to Charter change, making that office a Department of the City.

DELINQUENT TAXES. Your attention is also called to the commissions paid the City by the Delinquent Tax Collector, and amounting since 1896, the year of the change, to One hundred Four Thousand Eight Hundred Forty-eight Dollars and Ninety-two Cents (\$104,848.92), or two-fifths of the whole penalty collected. This money should not be taken from the people and thrown into the Treasury to be drawn upon for other purposes. People have learned to know that money once taken from them through taxation or as a penalty for failure to pay their taxes, never returns to them.

The fact that the City reduces the pay of the Collector gives no warrant for the transfer of the abatement to the City; it should not be taken when it is not required to satisfy the debt.

CONCLUSIONS.

In reaching these conclusions it does not necessarily follow that any want of integrity in the discharge of duty is charged; rather a faulty conception or a disposition to follow a beaten path. Men generally follow custom, and especially those long established, or to which no objections have been urged.

The system as practiced is faulty, out of joint and not at all adapted to the wants of a great, rapidly growing City, and the need of radical revision is manifest in almost every item in the group.

The growth of these revenues and their hap-hazard ebbs and flows, as shown in the assembled figures of twenty years, are much more suggestive and convincing than official criticism. **REAL ESTATE** alone, has been the one great producer. The burdens imposed on it have been increased and collected with scrupulous fidelity, and its response to demands whether right or wrong, has been as certain as the recurring year.

No private Corporation would permit these inequalities to exist, or allow the earning power in any branch of its business to lag or be dissipated; nor would it

suffer the proceeds of that branch of its business which produced most readily, to be drawn upon in **UNDUE** proportion without prompt investigation, and the immediate introduction of corrective measures. Vast sums of money cannot continue to be paid out for government without harrassing the owners of real estate and through them, the wage earners and tenants, unless public franchises and utilities consisting of scales, switches, licenses, gauging, rentals, markets, docks, wharfage, and kindred grants bear their full share of the cost and are just as vigilantly looked after as the income from the tax duplicate. The Controller and his present force find their time wholly taken up with current work, careful disbursement and necessary record, but close attention to the income is as essential to proper administration as the auditing of accounts or the closest scrutiny of the "outgo."

That deserved attention may be given to these things, an Ordinance should be passed regulating and fixing the charge for all public service utilities, and providing for such penalty for non-payment as is now imposed on real estate. Authority should be given the fiscal officer of the City to appoint, instruct and direct three or four Revenue officers to personally inspect every feature of the public service from which the City derives revenue and report such inspection daily to the Controller.

All charges to be paid into City Treasury at stated period and all delinquencies to be collected by the Delinquent Tax Collector.

In this exhibit no account has been taken of proceeds from sale of Bonds, or earnings of Sinking Funds, these special features being regarded as extraordinary and for extraordinary improvements.

I have the honor to be
Very respectfully,
J. B. LARKIN,
Controller.

Respectfully submitted,

GEO. W. WILSON.

Director Department of Charities and Correction.

In Select Council May 12, 1902. Read, received and filed.

Which was read, received and filed.

S. C. No. 257. Resolution for a warrant in favor of E. M. Semmelrock for the sum of \$183.00 for furnishing, undertaking and ambulance services to Department of Charities and Correction, and charge Appropriation No. 38.

Which was read.

The Chair said:

I see that this resolution has not been before a joint committee of Councils.

In order that there may be no misunderstanding with respect to ordinances and resolutions messaged to Common Council from Select Council, before such ordinances or resolutions have been submitted to the proper Joint Standing Committee, I deem it expedient to make the following ruling:

I believe the law governing the procedure of Councils, and the passage of ordinances, provides that all ordinances and resolutions must first be submitted to the proper Joint

Standing Committee before any action can be taken by either Council.

I am inclined to think that the Recorder will veto, or at least he will have sufficient excuse to use the prerogative of veto, all ordinances that are passed by either Council before having been first submitted and acted upon by the Joint Standing Committee. The resolution is therefore referred to the Joint Committee on Charities and Correction to be acted upon and reported under the rules of that committee.

To the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:—The petition of the Pittsburgh Brewing Company respectfully represents:

That on the the 10th day of December, 1901, one of their drivers, driving along Liberty street with his team, in turning out to avoid a traction car, drove into a hole in the street, which, being filled with water, was not discernable; that his team was thrown down, and one of the horses had its hoof torn off, and had to be killed. That the paving was in a very bad condition at the point where the accident occurred, for a width of about three feet, extending from the south rail of the north track to the south rail of the south track. As it was by reason of this condition of the street that the accident occurred, your petitioners respectfully request that an order may be made, paying them the sum of two hundred and fifty dollars, the value of the horse.

And they will ever pray, etc.

PITTSBURGH BREWING CO.,

F. W. MUELLER, Pres.

Which was read, received and filed.

Also

S. C. No. 5. Resolution authorizing the issuing of a warrant in favor of The Pittsburgh Brewing Company for \$250.00 in payment in full for damages arising from the killing of a horse on Liberty avenue, December 10, 1901, and charge amount to Contingent Fund.

Which was read.

And the rule having been suspended the resolution was read a second and third times and upon final passage, the ayes and noes were taken, and being taken were:

AYES—Messrs.

And the Clerk was directed to message the same to Select Council for concurrence.

Also

S. C. No. 48.

The petition of Hugh Murphy and Michael Diebold, of the Twentieth ward, City of Pittsburgh, late co-partners as Murphy & Diebold, respectfully represents: That in the years 1898, 1899 and 1900, and for some years prior to that your petitioners were the owners as tenants in common of a certain lot of ground situate in the easterly side of North Negley avenue, near Margaretta street, fronting 57 feet thereon, and extending back 100 feet; that in the year 1898, when the assessment was made by the Board of Assessors, the property was assessed to your petitioners as a lot 57x100 feet, at the rate of \$100 per foot, making the total amount \$5,700 for said lot, as will appear by the blotter of 1898, page 24, Second Volume, Nineteenth ward, in the Assessor's office, but in posting the figures a clerical error was made, by which the figure one (1) was incorrectly prefixed, whereby said lot was assessed at \$15,700, instead of \$5,700, and said error was carried through to the Treasurer's books. That your petitioners at the time owned a number of other pieces of land in said ward and the error was not discovered at the time, and for the years 1899 and 1900, the lots still continued to be assessed at \$15,700, instead of \$5,700, and your petitioners paid taxes on said valuation of \$15,700, for the years 1898, 1899 and 1900. That a short time ago your petitioners discovered the error, and by reason of said error your petitioners have paid taxes on a valuation of \$10,000, in excess of the real assessed value of said property, and are advised that the taxes paid in excess of the amount they were legally liable for, were as follows:

1898	\$116 58
1899	115 24
1900	128 64
	-----\$360 46

Your petitioners therefore ask that an ordinance be passed refunding to them the taxes so paid by mistake. And they will ever pray, etc.

HUGH MURPHY,
MICHAEL DIEBOLD.

State of Pennsylvania, } ss.
Allegheny County.

Hugh Murphy, Michael Diebold being duly sworn say that the statements contained in

the foregoing petition are true and correct, as they verily believe.

HUGH MURPHY,
MICHAEL DIEBOLD.

Mr. Armstrong asked and obtained leave to present

No. 204. Whereas, The removal of the old South Tenth street bridge has taken from the people in that vicinity an important thoroughfare which they used in the transaction of their business, and in going to and from their daily work, and has caused a great hardship and inconvenience to the working people of the South Side to such an extent that it is necessary to make some arrangement whereby the people may be relieved. Therefore, be it

Resolved, That the City Recorder and the Director of the Department of Public Works be and are hereby authorized and directed to procure and maintain until the said South Tenth street bridge is rebuilt, a steam ferry boat to be run free of charge to the people, from the foot of South Thirteenth street across the Monongahela river to a point on Second avenue near the north end of said bridge, the cost of the same to be charged to Appropriation No. 42, Contingent fund.

On motion of Mr. Beckert the reading of the minutes of the previous meeting was dispensed with.

Mr. McNally presented

No. 361. An Ordinance authorizing the construction of a sewer on Webster avenue, from west of Somers street to Kirkpatrick street.

Which was referred to the Committee on Public Works.

Mr. Lauler presented

No. 362. Petition for the grading and curbing of Bellefield avenue, between Grant Boulevard and the line of property of the Dollar Savings Bank.

Also

No. 363. An Ordinance authorizing the grading and curbing of Bellefield avenue, from Grant Boulevard to the line of property of the Dollar Savings Bank.

Which were referred to the Committee on Public Works.

Mr. Sterrett presented

No. 364.

WHEREAS, The City of Pittsburgh has purchased the property situate at the corner of Station street and Larimer avenue for the purpose of a branch library, which said property is assessed in the name of William Baughman and against which there are taxes for the year 1902 amounting to \$442.00; and

WHEREAS, The Library Commission desires to have the said property free from all liens, taxes and encumbrances; therefore, be it

Resolved, That the City Treasurer and Collector of Delinquent Taxes be and they are hereby authorized and directed to exonerate and satisfy of record all taxes assessed for the year 1902 against all that property assessed in the name of William Baughman, situate at the corner of Station street and Larimer avenue, in the Nineteenth ward, which said property has been purchased by the City of Pittsburgh for the purpose of a branch library, and charge all costs to the City of Pittsburgh.

Also

No. 365. Petition of R. M. Morris for damages in the sum of \$400.00, caused by injury to vehicle and loss of brown mare by falling into a hole on Forbes street on the night of June 9, 1902.

Which were referred to the Committee on Finance.

Mr. Bole presented

No. 366. Petition for grading, paving and curbing of Colombo street, between Rebecca street and Negley avenue.

Also

No. 367. An Ordinance authorizing the grading, paving and curbing of Colombo street, from Rebecca street to Negley avenue.

Also

No. 368. Petition for the grading of Rosetta street, between Fairmont street and North Graham street.

Also

No. 369. An Ordinance authorizing the grading of Rosetta street, from Fairmont street to North Graham street.

Which were severally referred to the Committee on Public Works.

Mr. Brown presented

No. 370. Petition for the grading, paving and curbing of Overman alley, between Baum avenue and Friendship avenue.

Also

No. 371. An Ordinance authorizing the grading, paving and curbing of Overman alley, from Baum avenue to Friendship avenue.

Which were referred to the Committee on Public Works.

Mr. Wymard presented

No. 372. An Ordinance locating Shetland street, from Lincoln avenue to Beechwood avenue.

Which was referred to the Committee on Surveys.

Mr. Woods presented

No. 373. Petition for the grading, paving and curbing of Abbott street, between East End avenue and Peebles street.

Also

No. 374. An Ordinance authorizing the grading, paving and curbing of Abbott street, from East End avenue to Peebles street.

Also

No. 375. Resolution authorizing and empowering J. H. Moore to lay water pipe on Albemarle, Plainfield, Northumberland and Squirrel Hill avenues, Twenty-second ward.

Also

No. 376. Resolution authorizing the issuing of a warrant in favor of Booth & Flinn, Ltd., for the sum of \$149.10 for lowering water line on Coral street, and charge to Appropriation No. 32, Bureau of Water.

Also

No. 377. Resolution authorizing the issuing of a warrant in favor of Booth & Flinn, Ltd., for the sum of \$136.15 for lowering water line on Semple street, and charge to Appropriation No. 32, Bureau of Water.

Which were severally referred to the Committee on Public Works.

Also

No. 378. An Ordinance locating Plainfield avenue, from Forbes street to Murdock street.

Also

No. 379. An Ordinance locating Albermarle avenue, from Forbes street to Murdoch street.

Which were referred to the Committee on Surveys.

Mr. Barker presented

No. 380. An Ordinance authorizing the construction of a sewer on Yoder street, from ninety (90) feet north of Kearcher street to Greenfield avenue with a branch sewer on McKee street, from crown about two hundred and eighty (280) feet east of Yoder street to sewer on Yoder street.

Which was referred to the Committee on Public Works.

Also

No. 381. An Ordinance requiring the erection, equipment and maintenance of standpipes in buildings and regulating the same for the better protection of life, limb and property in cases of fire.

Which was referred to the Committee on Public Safety

Mr. David Lewis presented

No. 382. An Ordinance authorizing the construction of a sewer on Larkins alley, from twenty (20) feet west of South Twenty-seventh street to South Twenty-sixth street.

Which was referred to the Committee on Public Works.

Mr. Sahner presented

No. 383. Resolution requesting the Department of Public Works to immediately proceed to have the Pennsylvania Railroad Company to open a way for the people residing on Welsh way to get in and out of said street.

Which was read.

Mr. Semmelrock presented

No. 384. Resolved, That a Joint Committee of five—two from Select Council and three from Common Council—be appointed to confer with the officials of the Pennsylvania Railroad Company relative to the placing of floors on the several overhead bridges crossing the streets on the Southside, by the reconstructed roadway of the Pittsburgh, Virginia and Charleston Railroad, so as to protect the public traveling under said bridges.

Which was read.

Mr. Armstrong presented

No. 385. Resolution authorizing the issuing of a warrant in favor of Booth & Flinn, Ltd., for the sum of \$3,614.82 for extra work on walks at Zoological Building, Highland Park, and charge Appropriation No. 113.

Which was referred to the Committee on Parks.

The Chair, for Mr. Schuck, presented

No. 386. An Ordinance authorizing the construction of a sewer on the south sidewalk of Washington avenue south, from Amanda street to end of present sewer about five hundred (500) feet east of Arlington avenue.

Which was referred to the Committee on Public Works.

The Chair took up

C. C. No. 387.

Pittsburgh, Pa., June 23, 1902.

To the Presidents and Members of Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:—The joint committee of Councils appointed under Resolution of Councils of April 14th, 1902, C. C. No. 112, entitled "A resolution authorizing the appointment of a joint committee to investigate the water supply of the City of Pittsburgh and matters appertaining thereto," respectfully report:

That on April 24th, 1902, the members of the committee met in Common Council chamber and organized by the election of W. S. Woods as Chairman, and W. C. Gearing, Clerk of Common Council, as Secretary, and adopted rules of procedure, and appointed a committee consisting of Messrs. Wasson and Upperman to secure expert engineers, and then adjourned to meet at the Brilliant Pumping Station on Saturday, April 26th, 1902, at 2 o'clock, at which time and place, in company with the Director of the Department of Public Works, the Superintendent of the Bureau of Water Supply and Distribution, and Messrs. Samuel Diescher and Oliver A. Waggoner, expert and distinguished engineers, the latter persons selected by the Committee aforesaid, made a careful survey and inspection of the Pumping Station, and also of the plans of pumps, cribs, intake pipes, and mains leading to and from the reservoirs, and then adjourned to meet on Monday, April 28th, 1902, for the purpose of taking testimony. All meetings were held publicly in Common Council chambers at 3:15 P. M. on Mondays, Wednesdays and Fridays of each week thereafter until and including May 16th, 1902, at which date the taking of testimony was closed.

The following named persons were summoned by the Committee and after being duly sworn, gave their testimony:

J. Guy McCandless, Director of Department of Public Works.

A. B. Sheppard, Superintendent Bureau Water Supply and Distribution.

H. E. Fernald, Chief Engineer Brilliant Pumping Station.

H. W. Emery, Bureau of Water Engineering Department.

W. A. Cochran, Watchman Highland Reservoir.

W. D. McGill, Fire Marshal Allegheny County.

S. M. O. Grant, Bureau of Water.

Thomas Fording, Bureau of Water Assessments.

John G. Trimble, Engineer in charge Highland Reservoir.

Miles S. Humphries, Superintendent Bureau of Fire.

Michael Hennigan, Assistant Engineer Bureau of Fire.

James Stewart, Assistant Engineer Bureau of Fire.

Patrick Ridge, Keeling & Ridge, Contractors Highland No. 2.

Elmer E. Anderson, Foreman Keeling & Ridge, Contractors Highland No. 2.

Charles A. Findley, Ex-Assistant Engineer Highland Reservoir No. 2.

And the following persons appeared in response to a public notice inserted in the daily press:

Frank I. Gosser, Attorney-at-Law.

William Kemler, Jeweler.

Frank McCrorey.

The latter named persons were from the South Side of the city. A full and fair opportunity was given for the development of such facts as in the judgment of the Committee were deemed pertinent to the subject of enquiry. The range of enquiry was comprehensive, embracing not only the conditions at Brilliant Pumping Station and Highland Reservoirs No. 1, the causes of the recently threatened shortage, but the character and progress of the work on the new Highland reservoir known as No. 2, the condition and sufficiency of the down-town distributing system as well as the character of services rendered in certain sections of the city supplied by private corporations.

In this connection, the Committee desires to acknowledge the uniform courtesy shown during the progress of the investigation by the Director of the Department of Public Works, the press of the city, and the various witnesses who appeared before them. And especially do the Committee wish to note their appreciation of the valuable services gratuitously rendered by Messrs. Diescher and Waggoner, expert engineers, and Fire Marshal W. D. McGill, and of the co-operation and valued assistance given by Mr. A. B. Sheppard, Superintendent of the Bureau of Water Supply and Distribution, whose fidelity to the duties of his employment, his eminent fitness for the position, and whose lively appreciation of the crying needs of the city are refreshing, inspiring full confidence in the minds of the Committee.

A transcript of the testimony taken, together with the several exhibits offered in evidence, are returned herewith.

Your Committee begs leave to report the following findings of fact:

FINDINGS OF FACT.

The source of the water supply of that portion of the city lying between the Allegheny and Monongahela rivers excepting the Thirty-seventh ward and that part of the Twenty-second ward known as the North Homestead district, is the Allegheny river pumped therefrom at the Brilliant Pumping Station into the reservoir at Highland avenue.

The Brilliant Pumping Station is equipped with four Allis pumps, each of which has a guaranteed maximum pumping capacity of 12,000,000 gallons every twenty-four hours, and two Holly pumps, each of which has a guaranteed maximum capacity of 10,000,000 gallons every twenty-four hours, a total of six pumps with a pumping capacity of 68,000,000 gallons each twenty-four hours, and had an average daily pumping the past year of 58,000,000 gallons. From the testimony we find the average daily consumption of water is about equal to the average daily pumping capacity.

The Allis were installed in 1898, the Holly pumps were installed in 1893; these latter have been in continuous service since 1894-1895 except for such short periods of time as were necessary in which to make repairs.

There are no pumps at the station in reserve for any emergency and should any pump be stopped for any cause it would cause a loss in the supply of water at the rate of about 500,000 gallons per hour, during such stoppage.

Two new pumps were contracted for by the City with the Allis-Chalmers Co., February 15th, 1902, each with a pumping capacity of 15,000,000 gallons every twenty-four hours, but the earliest time at which one of said pumps will be delivered to the city is June 15th, 1903, and the other to be delivered in a short time thereafter. The water is taken from the river through cribs and pipes, the former of which are two in number and located in the river about three hundred feet distant from the pumping station. The intake pipes are four in number, three of which are each three feet in diameter, leading into one crib, and one four feet in diameter leading into the other. These intake pipes convey the water into wells in the pumping station, and from the latter the water is pumped through two mains each of fifty inches diameter to the Highland reservoir.

Reservoirs—From this reservoir the water is distributed to other reservoirs and tanks of the city as follows:

Herron Hill Reservoir by main of 30 inches diameter.

Bedford Reservoir by main of 20 inches diameter.

Garfield Tanks (2) by main of 20 inches diameter.

Lincoln Tank (1) by main of 20 inches diameter.

The storage capacity of all our reservoirs and tanks is as follows:

	Gallons.
Highland Reservoir (20 feet depth) both basins included.....	117,300,000
Herron Hill.....	8,000,000
Bedford	2,000,000
Garfield Tanks (2).....	500,000
Lincoln Tank (1).....	250,000

Total128,050,000

Highland Reservoir No. 2, when completed, is estimated to have a capacity of 125,000,000 gallons.

Distributing Mains—The distributing mains are two down Butler Street, one of which is from 50 inches in diameter reducing to 36 inches down town, and one of about 36 inches in diameter, supplying the Butler Street and Penn Avenue and downtown district, with branches off on various streets, the former of which was recently completed, and two mains down Highland Avenue, one of which turns off at Bunker Hill Street, thence down St. Clair Street. These with branches supply the eastern section of the city. In the latter section the pipes are much newer and larger than in the former. The pipes in what is known as the downtown district are to a very large extent too small in size and by reason of their age are very much corroded, thereby materially lessening the volume of water, for instance, Wood Street between Water Street and Fifth Avenue has a 6-inch main laid in 1868. First Avenue has an 8-inch main laid about the same time. Second Avenue, between Wood and Smithfield, 6-inch main, laid in 1867, since which a main 36-inches has been laid. Larger mains more recently laid are 36 inches on Duquesne Way, 12-inch main on Penn Avenue, and 30-inch main on Smithfield Street.

From the testimony it clearly appears that the volume of water in this latter district is inadequate for fire purposes, particularly, and an additional number of fire hydrants are very necessary in order to protect this great business section from possible disastrous conflagrations. The increase in number of large and high buildings in this section must of necessity require a larger volume of water than has been heretofore furnished or required, and might tax beyond endurance the older mains in this section. The volume of water now daily consumed is estimated at from 35 to 40 millions gallons per day.

In this connection, for corroboration and further information, as to the size and location of water pipes and fire hydrants in this district, we desire to call your attention particularly to plan or blue print of same herewith returned, furnished by the Bureau of Water Supply and Distribution.

By reason of the insufficiency of the water supply in this district the insurance companies doing business in the city, through their representatives, in December last, increased the annual rates

for fire insurance two dollars per thousand and sent notices to their several policy holders that this increased rate would continue until a system of water mains and fire hydrants satisfactory to the companies shall be provided by the City of Pittsburgh. This notice commonly known as the "pink slip." This extra or increased rate of insurance is a heavy burden upon the business men and property owners in this district, from which they should be relieved as early as possible.

It appears from the testimony that to renew the mains and add fire hydrants therein so as to give a sufficient volume of water and ample fire protection would cost between \$300,000 and \$400,000. It also appears that the increased rate of insurance paid by the policy holders to the insurance companies for the reasons hereinbefore given, would in two years approximate the above sum.

Connections—The number of connections to city mains on February 1st, 1902, from $\frac{1}{2}$ -inch to 1 inch, was 34,605; 4-inch and over was 296; number of meters in service, 322.

The average estimated cost per meter to install meters on all services in the city, \$18.50. If meters were installed on all services there would be an estimated saving of from 1-3 to 1-2 in the pumpage and consumption. In this connection we submit herewith Exhibit "A," showing the mills and factories, firms and corporations along the line of the rivers using water, whether metered or not, those not metered pay for the water by schedule rates adopted by Councils. Those using fire hydrants, and when used the daily average consumption, also those who pump their own water. This exhibit furnished from records and by the Bureau of Water Supply and Distribution. This exhibit also shows that the firm of Brown & Company, Schoenberger & Company, Oil Well Supply Company, McConway, Torley & Company, and Park Steel Company, with others, were using or preparing to use fire hydrants and some of which were stopped by the Inspector, and upon a re-examination they were found to be not using these. Also returned herewith a schedule of water rates and yearly report of meters installed.

Inspection—A system of inspection under the Department is had as to all gates, valves, pipe lines, mains, etc., and during the month of March, 1902. Inspections were made of such and no leakage or waste was found other than ordinary, excepting in the matter of service pipes which from the testimony were many caused by frost and recent thaws.

Reservoir—Highland Reservoir is composed of two compartments, and from the testimony has not been cleaned for many years, it would appear that the sediment is made up mostly of sand, and if the same could be spread evenly over the bottom would not exceed in depth two feet. It would seem in the judgment of the Superintendent of the Bureau of Water Supply, at this time to be impractical to attempt to clean it, for the reason

that should one compartment be emptied of the water the division wall between the compartments might be seriously endangered, if not at least partially give way. While the water could be pumped directly into the mains, "it would, however, be a dangerous thing to do, unless we had a sufficient amount of pumping machinery to be perfectly sure of such an undertaking. If one pump were to stop an immediate loss would be experienced on the mains." The Department will not be ready to attempt the cleaning of this reservoir until the new pumps already contracted for are installed.

Highland No. 2—It appears that the Mercantile Trust Company, of Pittsburgh, Pa., as surety for Jonathan Clark & Sons Company, of Chicago, Ill., through the Keelling & Ridge Co., a corporation of the State of New Jersey, under contract with the latter, dated September, 1900, have undertaken to complete Highland Reservoir No. 2, under the contract theretofore existing between said city and said Jonathan Clark & Sons Co., "subject to such changes in the specifications as the city may see fit to make." On May 13th, 1901, certain changes in the specifications were made by letter at the request of the Mercantile Trust Co., by Geo. W. Wilson, then Director of the Department of Public Works, and concurred in by E. M. Bigelow, October 2, 1901, the then Director of said Department, both of whom "reminded the said Trust Co. that such changes should in no wise establish a precedent or in any sense alter the terms or conditions of the contract." See Exhibit "B" returned herewith.

Between September, 1900, and July 31st, 1901, the work was being prosecuted and at the latter date, Keelling & Ridge stopped all work until about April 1st, 1902.

In July, 1901, Charles A. Finley was engineer in charge of the work in behalf of the city, and as such notified his superior, Mr. A. B. Sheppard, by letter, that broken stone in place on the south slope of the reservoir about 700 feet in length, and covering in area about 1,200 square yards, was not in accordance with the specifications, in that it was not clean, was dirty, dusty mud and sand in it, and not of size as called for, and that he had notified said Keelling & Ridge that he condemned it, directing them to place no more of like character in place and remove what had been placed thereon. Mr. Sheppard upheld Mr. Finley in the matter and in turn both were sustained by Mr. Bigelow, the then Director. From the testimony this stone so condemned is not in accordance with specifications, is still in place, and will not be removed. It also appears that Keelling & Ridge are paid for their work by the Mercantile Trust Co. by the yard, have been paid for this stone in place, and will only remove same by being again ordered to do so and being paid therefor. Part of this stone has been paid for by the city on estimate of stone in store, but not in place. Such should have been broken up and brought to conform to the specifications. No broken stone in place has been paid for by the city.

There were some changes made in the continuation of the toe wall, that is, its

shape, and in the arrangement and placing of the puddle. These changes were made when the toe wall was first started with the approval of Jonathan Clark's Sons Co. The toe wall is now being constructed in shape as originally planned.

Some testimony was taken in regard to alleged changes in size of reservoir, enlarging it. No change in size was apparently ever heard of until this investigation. These different assistant engineers, viz.: Franz Engestrom, Mr. O. M. Mowat and Chas. A. Finley, each upon instructions from Mr. Sheppard to survey and check the line, upon each being placed in charge of the work, subsequently reported to him (Sheppard) that the lines tally, and that there was no increase or diminution in size, nor was any such change in size ever reported to Mr. Sheppard by Keeling & Ridge up to the time he (Sheppard) ceased to have charge about two months ago, or April 1st, 1902. We therefore find as a fact that no change in size of reservoir was made prior thereto.

We further find that Mr. A. B. Sheppard was at his own request relieved from further connection with Highland Reservoir No. 2 about April 1st, 1902; that among others the name of Mr. John G. Trimble was suggested to the Director of the Department of Public Works by Keeling & Ridge, the contractors for the work on this reservoir, as a proper person to fill the position as engineer, and said John G. Trimble was selected and is now in the employ of the city as engineer in charge.

This reservoir is expected to be completed this year provided sufficient materials can be obtained and no delays be caused the contractors.

Shortage and Cause—From the testimony we find that during the month of March, 1902, the water in the Allegheny river was more than ordinarily high, almost up to the grate bars in the boiler house at the Brilliant Pumping Station, and its condition was extremely bad, as to sand, gravel and ashes, and a greater thickness of ice than has been known by the present employees at the station or of which any record there is had. This condition caused a general choking up of the pipes, some destruction of the cribs and intake pipes, and the filling of the wells with sand and gravel, from which tons of the latter had to be taken.

The sand being taken into the pump chambers with the water caused a cutting of the valves and valve seats in the pump chambers, which necessitated stoppage of the engines to change valves, repair and replace them. The usual number per month changed, repaired, etc., approximates 1,000; during March alone about 6,000 were repaired. In this connection, there was offered in evidence Exhibit "C" furnished by Bureau of Water Supply, etc., from daily reports to that Department by engineer in charge at pumping station, a detailed report showing the date, number of engine, cause of stops, the gauge of water in reservoir, the quantity of water passing into reservoir, etc.

This report shows that the depth of water in the reservoir was daily growing less from February 28th, 1902, when the stage of water at 9 A. M. was 20 feet, 1 inch, until March 23rd, at the same hour the stage was 6 feet 10 inches. It also shows that almost daily some one of the engines was shut down on account of condition of river, renewing or changing valves or valve seats, ranging in time from ½ hour to 24 hours.

On March 20th, engine No. 4 was shut down 12½ hours, changing valves, renewing and milling valves; at this time the stage of water in reservoir was 6 feet 9 inches. On March 22nd engine No. 3 was off for 15½ hours for a similar cause, at which time the stage of water was 6 feet 10 inches in the reservoir. The engine again started, the water in river falling and become more clear pumping was easier and better and water began to rise in reservoir. On March 20, 1902, the Director caused to be published in the newspapers the notice, a copy of which is embodied in the resolution; this notice was based upon information from Mr. Sheppard, of the stage of water in the reservoir and also the condition of the engines and pumps at the pumping station. The notice was drawn by and given to the newspapers by Director McCandless without consultation or knowledge of Mr. Sheppard, and the notice itself may have been largely responsible for the rapid diminution of the water in the reservoir between March 20th and 23rd, as from the testimony it appears that at no time was there any intention to shut off the supply of water to the public by the Bureau of Water Supply and Distribution, nor to shut down the engines at the pumping station, that it would seriously impair the supply. The effect of the notice without doubt caused the general public to draw more water that was presently necessary in order to have a supply in case the distributing gates would be closed, as contained in the notice.

The Monongahela Water Company, a corporation, furnishes water to the South Side portion of the city, excepting the Thirty-eighth ward, under a contract entered into with the city, in 1885, expiring in 1906. This contract appears in the City Digest, 1897, Edition, page 519, et seq.

It seems the water supplies by this company is inadequate, is very bad in taste, smells bad, and is not fit for domestic purposes, and much complaint is made of the frequency and most inopportune times at which the water is without notice turned off, particularly so in the hill top districts. There mains or pipes are "old or rotten" and very few if any extensions of lines have been made.

There are not enough fire hydrants in this section of the city, but that is not the fault of the company, as, under the contract, the city must supply and maintain them. Applications to the Department of Public Works have been made on several occasions to supply same, but few were installed. The Department of Public Safety now have this matter in their charge and should be appealed to and have more fire hydrants placed in this district.

The Thirty-seventh ward and part of the Twenty-second ward, the latter known as North Homestead District, are each supplied by the Pennsylvania Water Company, a corporation, under contracts made with the city July 9th, 1900, and with the Borough of Brushton, now Thirty-seventh ward of city, dated May 18th, 1891.

No other evidence was submitted and no complaint of any kind was made in reference to supply in this district.

The Thirty-eighth ward is supplied by the Chartiers Water Company, also a corporation, under contract with the city dated June 1st, 1899, expiring December 22nd, 1900, for fire purposes, street cleaning, flushing of sewers and other public purposes only, at the rate of \$20.00 per annum per fire hydrant.

No other evidence was submitted relating thereto.

In connection with the foregoing findings of fact, your Committee begs leave to offer the following recommendations:

First—That the pipes or mains in the down-town district be renewed at once, and larger mains laid and more fire hydrants installed, so as to give a greater volume of water, and further that the work in connection therewith be done promptly and in the contract for same provision be made requiring that the work be fully completed so that said new mains will be ready to receive the water upon the installation of the new engine and pumps at the pumping station next year.

Second—That a system of meters be installed, and the water sold by meter throughout the city.

Third—That until at least the installation of the new pumps, the public use the water economically.

Fourth—That the proper authorities take such action as provided by law to prevent the wilful waste of water.

Fifth—The early completion of Highland Reservoir No. 2.

Sixth—That more fire hydrants be placed in the South Side district, and that a better quality and volume of water be supplied and that further extension of lines be made and more continuous service be given.

All of which is respectfully submitted.

Which was referred to the Committee on Corporations.

Mr. Fitzpatrick presented

No. 389.

To the Common and Select Councils of the City of Pittsburgh, Pa.:

The petition of St. Paul's Roman Catholic Orphan Asylum of the City of Pittsburgh, respectfully represents:

That it is a corporation of the first class under the laws of the Commonwealth of Pennsylvania, by special act of the Legislature, passed before the constitution of 1874.

That your petitioner owns on Tannehill Street, City of Pittsburgh, a certain piece of

ground beginning about three hundred and eighty (380) feet north from Center Avenue, and extending thence northwardly along Tannehill Street, about two hundred eighty (280) feet to property line, and thence eastwardly, preserving an even width of 280 feet, about one hundred seventy-five (175) feet to Vine Street; also beginning on Vine Street at a point distant in a direct line from Center Avenue, northwardly, about three hundred eighty (380) feet, and extending thence northwardly about two hundred and eighty (280) feet; and thence eastwardly, preserving an even width of 280 feet, about (91) feet to property line. Upon the property first described are erected the buildings used by your petitioner for the Asylum, and on the property second described the buildings used by and known as "St. Joseph's Rectory."

That said above described properties are directly opposite one another on Vine Street aforesaid, being formerly one undivided tract of land, and said Vine street being open through it.

That at the time of building said Asylum and Rectory, the City of Pittsburgh had no sewer constructed upon either of said streets. That in consequence thereof, your petitioners were forced to build a private sewer at a great expense, connecting with the City system, extending from the aforesaid buildings, across Vine Street to Tannehill Street from a point almost at the northward property line of aforesaid properties, and thence extending southwardly along the center of Tannehill Street to Center Avenue. Your petitioner ever since said sewer was built has permitted the other property owners along said Tannehill Street to use the same for drainage purposes, and a number of the property owners of both sides of said street have been connected with and using said sewer for many years. The size of said sewer is twelve inches. It is well constructed, deeply built, and is ample and sufficient in all respects to answer the needs and necessity of your petitioner, and of all the other property owners on Tannehill Street aforesaid, and there is no need or necessity, so far as your petitioner is concerned or any of the aforesaid property owners on Tannehill Street for additional sewers for drainage. And so far as your petitioner is concerned, there is no necessity nor has there been any necessity for an additional sewer upon Vine Street.

That in the year 1900, the City of Pittsburgh, by virtue of an ordinance of Council constructed a sewer along Vine Street, from Wylie Avenue to Center Avenue, part of which extends between the property above described. That in consequence of said construction, the sum of \$131.94 has been assessed against your petitioner, as its share of the cost of said Vine

Street sewer, and notice has been given by the City Attorney to your petitioner to pay the same.

Your petitioner showing that it already has sufficient drainage, by virtue of the aforesaid private sewer on Tannehill Street, which was laid at its own expense, and that the aforesaid Blue Street sewer is absolutely no use and benefit to it, and that if it be compelled to pay aforesaid assessment, it will operate as a hardship upon your petitioner, makes the following offer to your Honorable Body, namely:

If this Honorable Body will exempt your petitioner from payment of the aforesaid assessment, your petitioner will forthwith give and grant unto the City and dedicate for public use forever, the private sewer it now owns and controls upon Tannehill Street aforesaid to Center Avenue, and will relinquish all claim it has therein as owner.

Wherefore, your petitioner showing that an acceptance of this offer will result in great benefit, both to the City and to the other property owners fronting on Tannehill Street, by avoiding the necessity of having constructed on said street a public sewer, therefore saving much expense to aforesaid property owners and City, respectfully requests this Honorable Body to pass an ordinance exonerating it from the aforesaid assessment, and accepting its offer to dedicate the aforesaid private sewer to the City of Pittsburgh, to be forever hereafter used as a public sewer; and it will ever pray, etc.

ST. PAUL'S ROMAN CATHOLIC
ORPHAN ASYLUM,
OF THE CITY OF PITTSBURGH, PA.
M. LYNCH,
Secretary.

No. 393.

PITTSBURGH, June 26, 1902.

To the Select and Common Council of Pittsburgh:

GENTLEMEN—The water bill for our premises, 35 Diamond Square, has been presented for payment. We desire to petition the Select and Common Council of Pittsburgh in behalf of the work of the Salvation Army to exempt us from payment of the same, which amounts to \$39.00.

In Cleveland and other large cities the Councils have exempted the Salvation Army from payment of water rates on account of the

work being philanthropic and semi-charitable.

I remain, Gentlemen, yours very truly.

EDWARD WHITE,
Staff Captain.

Which was referred to the Committee on Finance.

Mr. Woods presented

Report of the Committee on Finance of June 27th, 1902.

Which was read, received and filed.

Also

No. 413.

PITT BURGH, June, 30, 1902

To the Honorable Members of the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:—The presentation of interest bills by contractors, and banks to whom assignments of contracts have been made, recalls a request made by this office some years ago for the modification of an ordinance passed May 1892, granting contractors or assigns, interest on the face of their contracts from the time their work is regarded by the City as completed.

These claims form no part of City's indebtedness, but arise from delay of fixing cost to private property abutting on streets recently improved and for the construction of sewers under direction of Department of Public Works. The cost of the improvements is apportioned by a Board of Viewers appointed by Court, and subject to appeal and delay, covering in instances two or three years; meantime, the City pays interest on the whole cost from completion of work until the owners of abutting property have had thirty days' notice from City Treasurer of pro rated cost. The appropriation to that interest fund this year is \$50,000, all of which, if required, may be taken from the Treasury to meet obligations in which the general public is only incidentally interested. Inasmuch as the City cannot collect interest from the owners of property during the adjustment, it seems clearly equitable that when the adjustment is made it should include the interest as a part of the

whole cost and judgment in default should be against the owners of property, and not against the City.

The contractor has his equity and should get interest on the face of his contract from the time the work is completed, but the City, it seems to me, is not justified in charging Fifth, Sixth or Seventh avenue owners with interest incurred in improving Fourth avenue. In other words, one class of people should not be compelled to pay any portion of the cost involved in the improvement of the property of another class. Independent of these considerations, there is no provision for the increase of the interest bearing debt and none can be made without consent of the people at the polls through submission to them of the proposed increase, as provided by law. If the City can be made pay interest on a debt for improvement of its streets, it has the same right to improve its public service in the same manner, and thus increase the public debt indefinitely without consulting the people who pay it. It would be unfair to those holding existing contracts to refuse to meet assumed obligations, but some means should be taken to secure to all concerned a just and equitable arrangement whereby those who loan their credit are protected against loss. Unless this is done, this office must give notice that all contracts made after January 1st, 1903, must depend for interest charges on the property improved, unless the Courts reverse the ruling of the Controller.

Respectfully submitted,

J. B. LARKIN,
Controller.

PITTSBURGH, PA., April 21, 1902.

To the Select and Common Councils of the City of Pittsburgh, Pa.:

GENTLEMEN:—On February 14, 1898, I sold and transferred to J. J. Vandegrift a lot of machinery, located in Vandegrift Building, corner of Third and Liberty Streets. I now find that this machinery has been assessed to me in the First ward of said city at a valuation of Sixty-eight hundred (6,800.00) Dollars for 1898, and was continued to be assessed against me in said ward at the same valuation for the years 1899 and 1900, and was paid by me from the fact that I did not examine the items of my assessment. It was also assessed against me for 1901 and 1902, at a valuation of ten thousand (\$10,000.00) dollars, but this assessment for these two years has been exon-

erated by the proper authorities before payment.

The rate of tax levy for 1898 in the First Ward was 15.6 mills, and the tax paid for that year was one hundred six and 8-100 (\$106.08) dollars; for the year 1899 the rate was 15.8 mills and the tax paid for that year was one hundred seven and 44-100 (\$107.44) dollars, and for the year 1900 the rate was 17½ mills making the amount for that year one hundred seventeen and 87-100 (\$100.87) Dollars, making a total of three hundred thirty-one and 39 100 (331.39) dollars.

I therefore respectfully present this petition to your honorable bodies praying that the resolution herewith submitted may be passed so that this amount can be refunded to me, and I will ever pray.

W. M. LAIRD.

Which was read, received and filed.

Also

S. C. No. 223. Resolution authorizing the issuing of a warrant in favor of W. M. Laird for the sum of \$331.39 refunding taxes on personal property in First ward and charge Appropriation No. 49.

No. 415.

GENTLEMEN OF COUNCIL—I wish to offer a resolution to the effect that two ex-members of the police force offer their services free of charge to protect the President and citizens of Pittsburgh at the Fourth of July celebration. I refer to Mr. O'Mara and Mr. Coulson, who both have had more than a quarter of a century's experience in the criminal business and who also have an international experience in the detection of criminals, and I see no reason why we should consider persons who are not residents of our own city in this matter.

Respectfully,

JOHN J. HUGHES,
Fifth Ward, City.

Which was read.

WHEREAS, It is absolutely necessary for the owners of property abutting on these avenues to be provided with a water supply, and

WHEREAS, It appears no sufficient appropriation has been made for the fiscal year of 1902, to enable the City of Pittsburgh itself to lay the necessary water pipe line for the required water supply; now, therefore, be it

Resolved, That the City of Pittsburgh hereby gives its consent to J. H. Moore, and the said J. H. Moore is hereby expressly authorized and empowered to lay the said pipe, un-

der the direction and supervision of the Director of the Department of Public Works of said City, and at a cost to be approved by him, the said Director.

Provided, That the City of Pittsburgh shall have the right and option, at its election, to purchase from the said J. H. Moore all of the said pipes, plugs and appurtenances laid or established under this agreement, at any time in the future it sees fit so to do, for a price not exceeding the actual cost of the laying and establishing of said pipe, plugs and appurtenances.

And provided, further, That the cost of laying and establishing said pipes, plugs and appurtenances shall not in any event exceed the sum of seven thousand dollars (\$7,000.00.)

Mr. Woods presented

No. 434.

To W. S. Woods, Esq., and Members of the Filtration Committee:—

Your special sub-committee to which were referred for examination and report thereon four certain ordinances in relation to the work necessary to be done for the purpose of extension and improvement of the water supply and distribution, and including the filtration of such water supply of the City of Pittsburgh, said Ordinances being S. C. Nos. 19, 20, 21 and 22 respectively, and all relating to the so-called Filtration Plant, respectfully report thereon as follows:

Said Ordinance No. 19 provides for the establishment of a Bureau of Filtration.

Said Ordinance No. 20 provides for the letting of a contract or contracts for Filters, Basins and Appurtenances, to be known as "Contract No. 1," at a cost not exceeding \$1,500,000 therefor.

Said Ordinance No. 21 provides for the letting of a contract or contracts for pumping engines, to be known as "Contract No. 2," at a cost not to exceed \$300,000.

Said Ordinance No. 22 provides for the letting of a contract or contracts for Filtered Water Reservoir, pipe connections, and gate houses, to be known as "Contract No. 3," at a cost not to exceed \$225,000.

The total amount set apart under the last named three Ordinances for the work

therein provided is the sum of \$2,025,000. Accompanying these Ordinances is a communication from the Director of the Department of Public Works (S. C. No. 17) submitting estimates by the whole cost of the proposed filtration plant alone, which is estimated at the sum of \$2,981,000 (including land). The estimate for the cost of installation of meters (about 35,000), part of said system, is \$654,500. The total cost, according to said estimate, of said proposed filtration plant, including the cost of meters, is accordingly \$3,635,500.

This estimate does not propose or include the cost of covering the filters, which would be not less than \$600,000. While not undertaking to decide the question of the necessity of covering the filters, we yet beg to submit that the decided weight of authority is that covers would be necessary at nearly all points on and north of the Potomac and Ohio Rivers. If it should be found necessary to cover the filters, the total cost of the system is swelled to \$4,235,500.

The only funds available for the cost of the work provided by said Ordinances are the proceeds of the bond issue for filtration purposes. Said bond issue amounted to \$2,000,000, which was available prior to June 1, 1900. The amount of said bond issue so far expended or about to be paid upon the work of filtration, beginning June 1, 1900, down to the present, is \$283,732. (\$238,753 being for land), leaving at present on hand and available a balance of \$2,216,268.

It thus appears that according to the estimate of the Director of the Department of Public Works, the cost of the filtration plant (without covers), including meters, will exceed the amount of money available for the purpose by \$1,135,500, and if covers be necessary by \$1,735,500.

This is the financial side of the situation that confronts us. Considering the matter as a business proposition, and in the light of common sense, to proceed with the work on the Filtration Plant under such conditions, without knowing or having any assurance how or from whence the enormous deficiency of money necessary for its completion shall come, if at all, the idea is appalling. The Filtration Commission estimated the total cost of the filtration plant at \$2,111,360, and the cost of establishing the meter system at \$600,000, making a total of \$2,711,360. Upon this basis and assurance the people of the city authorized by their votes a bond issue of \$2,500,000 for such filter system. Said amount of money has been available since prior to June 1st, 1900. The people of Pittsburgh have not authorized or approved the building of said filtration plant at an increased cost over the estimate of the Filtration Commission, of \$1,135,500 and if covers be necessary, of \$1,735,500. Under such circumstances, assuming no other objection or difficulty, are we justified in proceeding further with the work? We think not. The matter is up to the people of Pittsburgh, and we believe they should be consulted and given an opportunity to express their wishes as to what they want and are willing to do in the matter. But there are other serious and con-

trolling objections, which dispose of these Ordinances, Nos. 20, 21 and 22. Your committee are advised and believe they are illegal and in violation of the new charter, Act of March 7th, 1901, governing the City of Pittsburgh.

After a full and careful consideration of the whole matter, and upon consultation with eminent counsel on legal points involved, we find and report that all the above Ordinances should be returned to you with negative recommendation for reasons both legal and financial, namely:

1—Because the letting of the partial contracts and expenditure of moneys as proposed in said Ordinances are in violation of the provisions of the new city charter Act of March 7th, 1901, and its supplements.

2—Because, independently of the illegality, we deem it unjustifiable, unbusinesslike, and indefensible to proceed with such an unfinished and partial undertaking in the face of a money deficit of \$1,135,500 to \$1,735,500, for its completion, without any assurance that the people of the city will countenance or authorize such additional expenditure.

In view of these conclusions, there is no necessity at present for the establishment of a Bureau of Filtration, and said Ordinance No. 19 falls with the rest.

We, therefore return the above Ordinances with a negative recommendation accordingly.

THOS. M. BROWN,

Chairman Sub-Committee on Filtration.

HARRY A. LAMB,

W. F. BARKER,

Pittsburgh, Pa., July 5, 1902.

S. C. No. 17.

To the Presidents and Members of Select and Common Councils.

Gentlemen:—I submit herewith estimates of the whole cost of the proposed filtration plant, included in the proposed extension and improvement of the water supply and distribution of the City of Pittsburgh, the filtration of such water supply, and the establishment of the meter system.

I submit: First, the estimate of the total cost of the filtration plant proper, made by Mr. Morris Knowles, Resident Filtration Engineer, and approved by Mr. Allen Hazen, Consulting Filtration Engineer, as contained in their report to me, dated April 1, 1902; second, the estimate of the total cost of the proposed introduction and establishment of a meter system, made by Mr. A. B. Shepherd, superintendent of the Bureau of Water Supply and Distribution, and Mr. Morris Knowles, Resident Filtration Engineer, and approved by Mr. Allen Hazen, Consulting Filtration Engineer, as contained in their report to me, dated April 1, 1902.

These two reports are hereto attached and the estimates therein given are accepted and adopted by this department.

The estimate of the total cost of the proposed filtration plant alone (including land) is \$2,981,000.00. The estimate of the total cost of introducing and establishing the meter system is \$654,500.00.

The Filtration Commission's estimates of the cost of Sand Filters with Sedimentation Basins and appurtenances were as follows:

	Sand Filters with Sedimentation Basins.
Intake, pumping machinery, and pump house	\$ 315,000
Sedimentation basin	200,000
Filters	751,000
Pure water reservoir	133,000
Force main and conduits	78,600
Tunnel under river	60,000
Engineering and contingencies, 10 per cent.	153,760
Total cost of construction	\$1,691,360
Land with reserve area to double plant	420,000
Total estimated cost	\$2,111,360

The Filtration Commission in the concluding paragraph of its report, made these recommendations:

"We recommend, in conclusion, that the City of Pittsburgh adopt, for its water supply, the system of sand filtration upon the plan recommended herewith in the report of our Consulting Engineer, and that the system of selling water by meter be likewise adopted. For the erection of a filtration plant approximately \$1,700,000 will be required; to provide the necessary site \$500,000 should be amply sufficient; to establish the meter system will require an additional outlay of \$600,000. We recommend that your honorable bodies make provision for an issue of bonds for these purposes to the amount of \$3,000,000, the bonds to be issued by the proper authorities as they may be required, and no more to be issued than are actually required to provide for the establishment of a system of filtering and metering the water supplied to the city. In recommending an issue of bonds to the amount of \$3,000,000 we have allowed \$200,000 for contingencies which might, but are unlikely to arise, and we believe that the sum above named will be quite sufficient to make it sure that all the water supplied the municipality will be wholesome, as it certainly will be clear and free from mud."

It will thus be seen that at the time of the report of the Filtration Commission, in 1899, it was the opinion of the Commission, after a careful and exhaustive investigation of the subject that the total cost would be little less than \$3,000,000, and so the recommendation was submitted to Councils, that provision be made for the issue of bonds to this amount. Councils, however, limited the bond issue to \$2,500,000, apparently intending to meet the additional cost by direct taxation.

The present estimates are:

Land already bought and paid for	\$ 127,500
Land condemned, price of which is not yet determined, estimated at same rate per acre, as that already bought.	97,500
Filters, sedimentation basins and accessories, as included in Contract No. 1 (on which bids were recently received)	1,500,000
Pumping engines, 3-35,000,000 gals. each, high duty	300,000
Filtered water reservoir and connections	225,000
River crossing and connections at Brilliant	125,000
Intake, engine house, boiler house and accessories	250,000
Boilers, coal storage and coal handling machinery	50,000
Sand washer, pumps, electric machinery and lighting, crane and accessories	35,000

Sum of above items	\$2,710,000
Engineering and contingencies (including amount already spent) 10 per cent.	271,000

Total estimated cost of filtration plant complete

Cost of installing meters on all services of the City Water Works at the present time	\$595,000
---	-----------

Add for general expenses and contingencies, 10 per cent.	59,500	654,500
---	--------	---------

Total cost of proposed filtration plant, including the cost of meters

The estimates given by the engineers now are higher than those of the Filtration Commission, because since the report of that Commission, the prices of labor and material have greatly advanced, and are at present largely in excess of the prices at that time. In addition to the fact of advancement of prices, in order to guard against the possibility of delaying work on the filtration plant, the engineers have thought it advisable to submit estimates, reasonable, and at the same time sufficiently liberal, to justify the city in incurring the expense of passing ordinances and advertising for proposals for bids, the probability being that the bids would not exceed the estimates; otherwise, it would be necessary to reject them, increase the estimates, pass new ordinances and advertise again, because it is provided in the Charter Act of 1901 that "no bid in excess of such estimate shall be accepted." The ordinance heretofore authorizing the letting of contract No. 1, limited the price to \$1,500,000, and the lowest bid received was \$1,292,000. Had the price been limited to \$1,291,000, it would have been necessary to reject all bids and re-advertise.

The estimates for all the work, except for contracts Nos. 1, 2 and 3 (drafts of

proposed ordinances for which are herewith submitted for the consideration of your honorable bodies), are based upon preliminary plans and sketches, and it will probably take some months—until midsummer or longer—to prepare detailed letting plans and specifications for all of the remainder of the work. In the meantime, it seems advisable that progress be made on those parts of the work upon which we are prepared to proceed, for those parts will take the longest time to complete; the remaining portions can be prepared and finished in time for the operation of the filters themselves. It is particularly desirable that contracts for pumping engines be let, and thus all details, as to their design, size and arrangement, be known before designing the building.

Respectfully yours,

J. GUY McCANDLESS,

Director, Department of Public Works.
Pittsburgh, April 14, 1902.

PITTSBURGH, PA., April 1, 1902.

DR. J. GUY McCANDLESS,
Director of the Department of Public Works,

CITY HALL, PITTSBURGH, PA.

Sir:—In accordance with your request of March 24th, I submit herewith an estimate of the cost of the proposed filtration plant for the present water supply system of the City of Pittsburgh, together with the estimated cost of establishing a system of meters for the present distribution system of the City Water Works.

Land already bought and paid for.....	\$ 127,500
Land condemned, price of which is not yet determined, estimated at same rate per acre as that already bought	97,500
Filters, Sedimentation Basins and accessories as included in Contract No. 1 (on which bids were recently received) ...	1,500,000
Pumping Engines, 3-35,000,000 gal. each, high duty	300,000
Filtered Water Reservoir and Connections	225,000
River Crossing and Connections, at Brilliant	125,000
Intake, Engine House, Boiler House and accessories	250,000
Boilers, Coal Storage and Coal Handling Machinery	50,000
Sand Washer, Pumps, Electric Machinery, and Lighting, Crane and accessories	35,000
Sum of above items	\$2,710,000
Engineering and Contingencies, (including	

amount already spent), 10 per cent..	271,000
--------------------------------------	---------

Total estimated cost of Filtration Plant complete	\$2,981,000
Cost of installing meters on all services of the City Water Works at the present time	595,000
Add for general expenses and contingencies, 10 per cent.....	59,500
	654,500

Total cost of proposed Filtration Plant, including the cost of meters	\$3,635,500
---	-------------

The estimates for the River Crossing and Connections at Brilliant for the Intake, Engine House, Boiler House and accessories for Boilers, Coal Storage, Coal Handling Machinery, and for Sand Washing Pumps, Electric Lighting, Crane and accessories are based upon preliminary plans only and are less detailed than the others.

The cost of metering has been obtained from the detailed estimate for the same, made in co-operation with Mr. A. B. Shepherd, Superintendent of the Bureau of Water Supply and Distribution.

The sums which I have estimated for doing various parts of the work, are considerably in excess of those sums which I believe to be sufficient for doing the work at the present time upon a reasonable basis. It is necessary to make the estimate in this way, because the City Charter requires that no contract shall be let for more than the estimate of the cost of doing the work. In order to avoid delays and relettings, the estimate has been made sufficiently liberal so that I believe it is reasonably sure that bids can be obtained within the estimate for each part of the work.

Respectfully submitted,

MORRIS KNOWLES,

Resident Filtration Engineer.

DR. J. GUY McCANDLESS,
Director of the Department of Public Works.

CITY HALL, PITTSBURGH, PA.

Sir:—In response to your request of the 24th of March, the undersigned beg to submit herewith their report upon the estimated cost of installing a system of meters upon the present services within the distribution system of the Water Works belonging to the City of Pittsburgh.

In order to ascertain the cost for this work, it has been necessary for us to make an estimate of three factors.

1—The total number and the sizes of service (or ferrules) now in use.

2—The cost, delivered in Pittsburgh, of the meters of various sizes which will be needed.

3—The cost of installing these meters; including the discovery of connections not now definitely located and the combining of several connections where one is sufficient.

Section 1—As nearly as can be ascertained from the books of the Bureaus of Water Supply and Distribution and of Water Assessment, there were about 23,000 services in use in Pittsburgh in 1893; since that time and to the date of January 1st, 1902, there have been added 11,960, making the total estimated number of services in use January 1st, 1902, about 35,000.

In order to ascertain what proportion of the total number of services will need meters of the various sizes, we have investigated the reports of 26 leading American cities which use meters varying in number from 500 to 17,000, in each city, the number of services of various sizes in several cities and those added in Pittsburgh since 1893.

From a careful study of all of these figures and from our judgment based upon knowledge of the conditions in this city, we have concluded that the division of the total number of meters to be used in this city will probably be about as follows:

75 per cent. of 5-8-inch, 12 per cent. of 3-4-inch, 10 per cent. of 1-inch and the remaining 3 per cent. distributed among meters 1 1/2 inch and larger in size.

Section 2—As to the probable cost of meters of various sizes, we have considered not only the net water works prices of the various meters in use to-day, but also the prices which have been bid upon meters of various sizes in larger quantities in several of the large cities within recent months. Such prices as we have obtained by this method have been applied to the total number of meters of each size. Without going into the details of the calculation, we may state that this produces an average for the cost of meters, delivered in Pittsburgh, of about \$11.50.

Section 3—We find that the problem of making an estimate of the cost of installing the meters is the most serious and indefinite one which we have, because of the lack of exact knowledge regarding the location and condition of the service pipes, and also because it is probable that in several instances many connections are here used for a given supply where one is sufficient and should be used. In many instances it is also likely that it will not be possible to set meters within the walls or inside of the dwellings or factories and this will necessitate the extra expense of building vaults or some structure outside. Wherever time must be spent in discovering and overhauling service pipes, it will also increase the expense of the work.

For the purpose of this estimate we have decided that the best we can do is to assume that two-thirds of the number of each of the smaller sized meters, up to one inch, can be set inside and at a minimum expense, simply by cutting the pipe and placing connections. The re-

mainder may be divided into two portions, one of which will be placed outside in some form of box, which will probably increase the price to four or five times what it would otherwise be for installing and setting inside. But the second portion may require considerable hunting and study to locate properly and arrange for the best method of setting of the meters, the cost of which is quite indefinite but is best assumed at something more than the cost of the first portion mentioned. For all meters three inches and above, in size, we have assumed a flat rate for cost of installation. Without going into the details of the cost of the several sizes in the several groups, we will say that the average cost of setting the several meters was found to be about \$5.50. The cost of the meters themselves added to the cost of setting, makes \$17.00 per meter, which applied to 35,000 meters will give a sum of \$595,000, and to this should be added 10 per cent. for supervision, engineering and contingencies, making the total cost of installation for the 35,000 meters, to be used in the Municipal distribution system, \$655,000. The average yearly increase of services during the past five years has been about 1,500, and upon this basis and present prices the additional cost for each year taken to complete the work will be about \$28,000.

The above estimate is based upon a somewhat inaccurate knowledge of the location, condition and character of many of the service connections to the city water mains, but in our judgment the above estimate is considered liberal enough to allow for ordinary contingency and unlooked for conditions.

DEPARTMENT OF PUBLIC SAFETY.

July 5, 1902.

To the Common Council of the City of Pittsburgh:

W. C. GEARING, Clerk.

GENTLEMEN:—Replying to your communication of July 1st in reference to a motion carried in Common Council on Monday, June 30, 1902, as follows: "That the Department of Public Safety be requested to accept the service of Mr. Roger O'Mara and Mr. Solomon Coulson in protecting the President of the United States on the 4th of July, and during his stay in the City," I beg to say that there was no tender of any such services made to the Director of the Department of Public Safety and there was, therefore, no opportunity to comply with your request.

I am happy to state, however, that the President of the United States visited us on the 4th of July and was safely conducted through the streets of the City, delivered an address at Schenley Park, passed through all the exercises as arranged by the General Committee and was put aboard his train and departed from the City in safety without any injury to his person.

Without passing personal judgment upon the police and other arrangements entered into for his safety and the safety of the public, but accepting the commendations made by the general public and the newspapers, if you will permit I will quote from the Pittsburgh Post of July 5th, as follows: "With all this crush there was no confusion. Police regulations carefully arranged were splendidly carried out with the precision of machinery," and we take this as a sufficient endorsement of the competency of the Department of Public Safety and the Bureau of Police to properly arrange and carry out the details to protect and care for any demonstration that may occur within the City, as it is generally admitted that this was the greatest day the City of Pittsburgh ever had.

Very truly yours,

A. H. LESLIE,

Director Department Public Safety.

Mr. Stevenson presented

No. 437.

WHEREAS, Mr. Andrew Carnegie in a communication to the Hon. W. J. Diehl, Mayor, under date of November 15, 1900, says, inter alia:

I believe that a first-class technical school, probably as large as that of Worcester, would develop latent talent around us to such extent as to surprise the most sanguine.

If the City of Pittsburgh will furnish a site, which I hope will be of ample size for future extensions, I shall be delighted to provide the money for such a school, taking care to provide room for additions to the buildings, to meet the certain growth of Pittsburgh.

I would endow it with \$1,000,000 five per cent. gold bonds, yielding a revenue of \$50,000 per year.

The rare ability with which the Trustees of the Carnegie Institute have managed it, and the results which have so surprised and gratified me, naturally led me to beg these gentlemen to take charge of the Technical Institute and its endowment. I had only to plead that their increased labors were for the good of Pittsburgh, to be assured by everyone that I have so far had an opportunity of consulting, that they would gladly assume the enlarged responsibility.

I propose, therefore, Mr. Mayor, to include the Technical School with the Institute, and have therefore made its endowment equal to the latter.

There are many questions to decide, involving investigation, careful study and much labor; among these, whether fees should be charged, as at the Armour, Drexel, Worcester and Boston Institutes, and, in fact, I might say all the technical schools, or whether we can take a new departure and arrange that the students of the High School, for instance, should have the doors of the Technical School open to them free. This and many other questions must be left to the Commission. But I am in a position to assure you that the Commission is prepared to face the problem, and that my heart is in the work, and

WHEREAS, The Committee on Plans and Scope are ready to report to the Trustees acting under the last paragraph of the communication, and

WHEREAS, Mr. Carnegie has intimated that he will grant a further donation of a large sum of money for fully carrying out his intention, and,

WHEREAS, No definite steps have been taken to secure a site for the proposed school; therefore,

Resolved, That a special Joint Committee consisting of three (3) members from Select and four (4) members from Common Coun-

cils be appointed to confer with the Trustees of the Carnegie Institute in relation to the matter of selecting and acquiring a site for the proposed Technical School.

Which motion prevailed.

And the rule having been suspended the resolution was read a second and third times and finally passed.

Mr. McNally presented

No. 438.

WHEREAS, The independence of the great people of the United States was, on the Fourth day of July last past, celebrated in a manner befitting the character and dignity of this, one of the most populous and most wealthy communities of the Union; and,

WHEREAS, The magnificent success of the celebration was due to the presence of His Excellency the President of the United States, Theodore Roosevelt, as well as to the untiring and excellently well directed efforts of His Honor the Recorder of the City of Pittsburgh, Jos. Mr. Woods presented (at the request of the Department of Public Works)

No. 456.

Whereas, The City of Pittsburgh, on the 8th day of June, A. D., 1900, lawfully entered into articles of agreement, or contract, with Cronin & O'Herron, for laying a 6-inch water pipe in the Watt-Preble street system on Grant Boulevard, south sidewalk, from 201 feet east of Washington street to Arch street, 4900 feet, more or less, but no part of said work has as yet been done; and

Whereas, It is the judgment of the Director of the Department of Public Works that it would be for the best interests of the City of Pittsburgh, to cancel and annul the said contract; and

Whereas, Said contractors have signified to the said Director of the Department of Public Works their willingness to cancel and annul the same; and now, therefore, be it

Resolved, By Select and Common Councils of the City of Pittsburgh, that the Director of the Department of Public Works be and he is hereby authorized and empowered, by and with the consent of said contractors, Cronin & O'Herron, their successors or assigns, to cancel and annul said contract.

Which was referred to the Committee on Public Works.

Mr. Stevenson presented

No. 459.

PITTSBURGH, PA., July 14, 1902.

To the Select and Common Councils of the City of Pittsburgh:

Gentlemen:—The petition of the undersigned respectfully sheweth that he has been assessed \$73.50, for the construction of a sewer in Carolina street, Fourteenth ward, which assessment is

now in the hands of the City Attorney for collection.

The said sewer is so constructed as to be three feet or more above the drainage level of his premises, and on this account cannot be used by him. He therefore respectfully asks that your honorable body will order the City Solicitor to strike off said claim against him, and he will ever pray, etc.

WILLIAM LEWIS.

Also

No. 460.

Whereas, William Lewis is assessed \$73.50, for the construction of a sewer in Carolina street, Fourteenth ward; and

Whereas, Said sewer as constructed is of no use to the property upon which said assessment is levied. Therefore,

Resolved, That the City Solicitor shall be and is hereby authorized and directed to strike off his claim against William Lewis, and charge the amount to the City of Pittsburgh, for which this resolution shall be his voucher.

Also

No. 461. Resolution authorizing the issuing of a warrant in favor of the Real Estate Savings Bank for \$13.00, in repayment of overpaid water rent on No. 224 Fourth avenue, First ward, Pittsburgh, in accordance with exoneration No. 781, for the year 1902, dated June 12, 1902; and charge the same to Appropriation No. 49.

Also

No. 462.

Whereas, The City of Pittsburgh has issued bonds to the amount of \$2,500,000.00, and authorized the expenditure of this amount for the building and equipping of a filtration plant; and

Whereas, The Director of Public Works has approximately estimated that the entire cost of the filtration plant, not including covers, will be \$3,635,500.06; and

Whereas, It has been approximately estimated that the cost of covering the filter beds will be about \$600,000.00, and

Whereas, There is such a wide discrepancy between the amount of money authorized by the people to be spent for the building of the filtration plant and the estimated cost stated by the Director of Public Works; and

Whereas, It is necessary, before any further expenditure of money, that the total cost of the contemplated plant be ascertained according to the plans and specifications now being prepared by the Director of Public Works; and

Whereas, The Director of the Department of Public Works has stated that the plans and specifications for the work will be completed within three weeks, now be it

Resolved, That the Committee on Filtration shall be and is hereby authorized and empowered, on completion of the plans and specifications, to have estimates prepared showing the entire cost of the installation of the proposed sand filtration plant, and for that purpose shall be and is hereby authorized and

empowered to engage the service of a person, or persons, fully qualified to act in conjunction with the superintendent of the Bureau of Water Supply, or some other competent engineer designated by the Director of Public Works, to make an estimate or estimates of the entire cost of said plant. The expense attending the preparation of the estimate to be paid from Appropriation No. 42, Contingent Fund. On completion of the estimate and delivery of the same to the chairman of the Committee on Filtration, the City Controller is hereby authorized and directed to issue his certificate on the City Recorder for a warrant in payment of said expense.

Which were severally referred to the Committee on Finance.

Mr. Stevenson presented

No. 463.

PITTSBURGH, July 14, 1902.

To the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:—Your Committee on Finance respectfully return herewith, with an affirmative recommendation, the following: C. C. No. 357. A resolution for the satisfaction of tax liens against three (3) pieces of ground in the Thirty-second ward, owned by the City of Pittsburgh.

W. H. STEVENSON,

Chairman.

Which was read, received and filed.

Also

C. C. No. 357.

Whereas, The City of Pittsburgh did purchase at Sheriff's sale, the following described three lots or pieces of ground, to wit:

The first thereof being Lots 5 to 10 inclusive in H. M. Rolfe's plan of lots on Mt. Washington, recorded in the Recorder's office for Allegheny County, in plan book 4, page 131. Beginning on the easterly side of Heckman street, at the dividing line between lots Nos. 4 and 5 in said plan, and 95 feet southwesterly from Pfeil street; thence along Heckman street southwesterly 164.29 feet to a point; thence south 76° 13' E. 103 feet, more or less, to an alley 20 feet wide; thence along said alley northeasterly 138 feet 6 in., more or less, to line of lot No. 4; thence along the line of lot No. 4, 102.48 feet to Heckman street, the place of beginning.

The second thereof beginning at a stone at the intersection of the center lines of Boggs avenue and Washington avenue; thence along the center of Washington avenue S. 12° 53' W. 49.37 feet to a stone; thence south 15° 37' E. 81 feet to Sycamore street; thence north 72° W. 541.20 feet; thence north 52° W. 100.32 feet to the center of Boggs avenue; thence along said center line south 80° E. 591.86 feet to the place of beginning, containing one acre, 3.74 perches.

The third thereof being part of lot No. 2 in S. L. Bogg's plan of lots, recorded in the Recorder's office for Allegheny County in plan book vol. 8, page 206. Beginning at the northwest corner, formed by the intersection of Boggs avenue with Washington avenue; thence

extending along said Boggs avenue north 80° W. 223.66 feet to a point; thence extending N. 1 1-4° E. 52.50 feet to a point on line of lot No. 3 in said plan; and thence extending south 67° 8' E. 239.52 feet to the place of beginning.

And whereas, At the time of said sale, and for a long time prior thereto, and at the present time, there exist against said property certain municipal and tax liens, which are apparently liens of record against the same, to wit:

S. C. No. 304. Resolution authorizing and empowering the Alexander King Estate to lay water pipe on certain streets and avenues in the Nineteenth ward of the City of Pittsburgh.

WHEREAS, it is absolutely necessary for the property owners residing on the east and west sides of North Negley avenue, between Hampton street and line of Highland park; Callowhill street, between Negley avenue and property line of John Fite; Elgin street, between Negley avenue and line of John Fite; Bryant

street, between Negley avenue and King avenue; Cordelia street, between Negley avenue and King avenue; Hampton street, between Negley avenue and King avenue; King avenue, between Hampton street and Bryant street, in the Nineteenth ward of the City of Pittsburgh, to be provided with a water supply; and

WHEREAS, it appears no sufficient appropriation has been made for the fiscal year 1902, to enable the City of Pittsburgh to itself lay the necessary water pipe lines for the required water supply; now, therefore, be it

Resolved, That the City of Pittsburgh hereby gives its consent to, and the Alexander King estate (Sarah C. King, Alexander H. King, William S. King, Robert B. King and Jennie K. Mellon) is hereby authorized and empowered to lay the said water pipe on the said streets and avenues, between the above mentioned points, under the direction and supervision of the Director of the Department of Public Works of the said City, and at a cost to be approved by him, the said Director.

Provided, That the said City of Pittsburgh shall have the right and option, at its election, to purchase from the said Alexander King Estate all of said pipes, plugs and appurtenances laid or established under this agreement, at any time in the future it sees fit so to do for a price not exceeding the actual cost of the laying and establishing of said pipes, plugs and appurtenance.

And provided further, That the cost of laying and establishing said pipes, plugs and appurtenances shall not, in any event, exceed the sum of twelve thousand dollars (\$12,000.00).

In Select Council July 14, 1902. Passed.

Which was read.

AYES—13.

NOES—26.

So the motion did not prevail.

Mr. Lamb presented

No. 464.

A Resolution in relation to the Removal of the Fifth avenue and Grant street Hump, and providing for the appointment of a committee to inquire into said matter.

Whereas, The removal of the Fifth avenue and Grant street Hump has been a question of great public interest and concern for many years last past; and

Whereas, In pursuance thereof, and in recognition of the supreme importance of said matter, the Department of Public Works has at various times, and until recently, caused extensive surveys and work to be made and done in relation to said matter; and

Whereas, The rapid and enormous growth of our city in population, commerce and business, has made apparent the inevitable necessity of relieving the intolerable congestion of the lower business district of the city; and

Whereas, It seems that in the judgment of the great body of the business interests of the city the removal of said hump will relieve said congestion and open a great field for splendid business expansion to meet the great needs of our vast and wonderfully growing city, and thereby not only greatly improve the city and benefit its people, but, also, increase its revenues; therefore, be it

Resolved, That the President of this Council be and he is hereby empowered and directed to appoint a special committee of seven members of this Council to inquire into and report to this Council on the subject of the removal of said hump, and as to the work, surveys, and measures that have been done, made, and taken, from time to time, in relation thereto, and as to the cost and damages of such removal, and as to advisability of making said improvement.

Which was read.

Mr. Lamb moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Upon which motion Mr. Armstrong demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered to be taken, and being taken were:

AYES—Messrs.

Baldauf	Lamb	Schuck
Barker	Lauler	Shaw
Beckert	Lewis, David	Shearer

Bonini	Edwards	Rodgers
Brand	Hogue	Sheehan
Cavett	Lewis, John	West

AYES—27.

NOES—12.

So the motion to suspend the rule did not prevail.

And on motion

Council adjourned.

On motion of Mr. Reitz the reading of the minutes of the previous meeting was dispensed with.

The Chair took up

UNFINISHED BUSINESS OF COMMON COUNCIL.

C. C. Bill No. 359. An Ordinance entitled "An Ordinance directing the City Recorder and Director of the Department of Public Safety to advertise for sealed proposals for the collection, removal and disposal of garbage, dead animals and animal offal from dwellings, hotels, stock yards, slaughter houses, markets, streets, alleys, lands, lanes, squares and public places of the city for a period of four years from July 1, 1903."

In Common Council, June 30, 1902. Read a first time.

In Common Council July 7, 1902. Read a second time and amended in Section 13 of the Specifications, in line "1" by striking out the words "if any" and inserting in lieu thereof the word "no," and in Section 16, line "2," by inserting after the words "working order" the words "outside of the city limits."

In Common Council July 21, 1902. Bill as read a second time and amended agreed to.

And the bill was read a third time.

Mr. Armstrong moved

That the bill be laid on the table indefinitely.

The motion having been seconded.

Mr. Wasson, taking the floor, began speaking on the motion.

Whereupon Mr. Armstrong arose to a point of order; that a motion to lay on the table was not debatable.

The Chair asked Mr. Armstrong to state his motion.

Mr. Armstrong stated that his motion was that action upon the bill be postponed indefinitely.

The Chair ruled that as there were two motions they were out of order.

Mr. Wasson moved

That the bill be laid on the table.

Which motion prevailed.

No. 477.

PITTSBURGH, PA., August 2, 1902.

To the Select and Common Council of the City of Pittsburgh.

GENTLEMEN—Your Committee on Finance respectfully return herewith, with an affirmative recommendation, the following resolutions:

C. C. No. 462. As to the completion of the plans and specifications for the Sand Filtration Plant, showing entire cost of said Plant.

C. C. No. 461. Authorizing the issuing of a warrant in favor of Real Estate Savings Bank, refunding Water Rent.

Respectfully submitted.

W. H. STEVENSON.

Chairman.

Which was read, received and filed.

Also

C. C. No. 461. Resolution authorizing the issuing of a warrant in favor of the Real Estate Savings Bank for \$13.00, in repayment of overpaid water rent on No. 224 Fourth avenue, first ward, Pittsburgh, in accordance with exoneration No. 781, for the year 1902, dated June 12, 1902; and charge the same to Appropriation No. 49.

Which was read.

And the rule having been suspended the resolution was read a second and third times, and upon final passage, the ayes and noes were taken, and being taken were:

AYES—Messrs.

Armstrong	Hogue	Schad

And the Clerk was directed to message the same to Select Council for concurrence.

C. C. No. 402.

Whereas, The City of Pittsburgh has issued bonds to the amount of \$2,500,000.00, and authorized the expenditure of this amount for the building and equipping of a filtration plant; and

Whereas, The Director of Public Works has approximately estimated that the entire cost of the filtration plant, not including covers, will be \$3,635,500.00; and

Whereas, It has been approximately estimated that the cost of covering the filter beds will be about \$600,000.00, and

Whereas, There is such a wide discrepancy between the amount of money authorized by the people to be spent for the building of the filtration plant and the estimated cost stated by the Director of Public Works; and

Whereas, It is necessary, before any further expenditure of money, that the total cost of the contemplated plant be ascertained according to the plans and specifications now being prepared by the Director of Public Works; and

Whereas, The Director of the Department of Public Works has stated that the plans and specifications for the work will be completed within three weeks, now be it

Resolved, That the Committee on Filtration shall be and is hereby authorized and empowered, on completion of the plans and specifications, to have estimates prepared showing the entire cost of the installation of the proposed sand filtration plant, and for that purpose shall be and is hereby authorized and empowered to engage the service of a person, or persons, fully qualified, to act in conjunction with the superintendent of the Bureau of Water Supply, or some other competent engineer designated by the Director of Public Works, to make an estimate or estimates of the entire cost of said plant. The expense attending the preparation of the estimate to be paid from Appropriation No. 42, Contingent Fund. On completion of the estimate and delivery of the same to the chairman of the Committee on Filtration, the City Controller is hereby authorized and directed to issue his certificate on the City Recorder for a warrant in payment of said expense.

Which was read.

Mr. Stevenson moved

Mr. Brown presented

No. 528.

To the Select and Common Councils of the City of Pittsburgh:

The petition of Henry J. Thoma respectfully shows:

1. That in and by certain proceedings had upon the petition of the City of Pittsburgh, in Court of Common Pleas No. 3, of Allegheny County, at No. 346 May Term, 1902, in the matter of the grading, paving and curbing of Shakespeare street, from Pennsylvania Railroad to Centre avenue, Twentieth ward, there was assessed against your petitioner the sum of \$71.80 for alleged benefits to the property of your petitioner erroneously supposed to abut upon said improvement, and on August 9, 1902, your petitioner received notice from the first assistant City Solicitor to make payment of said assessment.

2. That said assessment against your petitioner is wholly erroneous, illegal and void for the reason that your petitioner's property so undertaken to be assessed does not abut upon said improvement, although adjacent to it, and your petitioner did not at the time of said improvement or at any other time own any property abutting on said improvement.

3. That your petitioner and Emma E. Thoma, his wife, own a lot of ground in said ward fronting 51 feet on the southerly side of Centre avenue (formerly Ellsworth avenue), and extending back southwardly 85 feet to Bietler street, more fully and particularly described in deed of Andrew W. Mellon to your petitioner and Emma E. Thoma, his wife, dated December 31, 1897, and duly recorded in the office of the Recording of Deeds, etc., in and for said county in Deed Book Vol. 9184, page 482, which said deed was duly registered in the Department of Public Work of the City of Pittsburgh, February 8, 1898, and said deed is hereby referred to and made a part of this petition. That said property of your petitioner and his said wife is separated from said Shakespeare street by an alley and by property now or lately owned by Mary D. Patterson, and no part of your petitioner's property touches or abuts upon said Shakespeare street, and the assessing of the property of your petitioner and his wife for supposed frontage upon and benefits thereby derived from said improvement is wholly erroneous, unjust and illegal.

4. Your petitioner did not attend any meetings of the Viewers or pay any attention to said proceedings in the matter of said improvement, because he owned no property abutting thereon, and supposed he was wholly disinterested, and your petitioner was wholly ignorant of any such assessment until notified to pay the same.

5. That said assessment may tend to cloud the title of your petitioner and his wife, and otherwise lead to their serious prejudice by proceedings which might be undertaken to enforce the payment of said assessment.

Your petitioner therefore prays that your Honorable bodies may authorize and direct the City Solicitor to strike off said assessment against your petitioner and his said property

accordingly, and to charge the amount thereof to the City of Pittsburgh.

And your petitioner will ever pray.

HENRY J. THOMA.

No. 529.

WHEREAS, In proceedings of the Court of Common Pleas No. 3, of Allegheny county, at No. 346 May Term, 1902, upon the petition of the City of Pittsburgh in the matter of the grading, paving and curbing of Shakespeare street, there was assessed against Henry J. Thoma, the sum of \$71.80 for alleged benefits to his property situate on the southerly side of Centre avenue, and erroneously supposed to abut upon said improvement; and

WHEREAS, No portion of the property of said Henry J. Thoma against which said assessment was so undertaken to be made does in fact touch, front or abut upon said Shakespeare street, nor any part of said improvement; and

WHEREAS, The assessment so made against Henry J. Thoma, is accordingly erroneous, unjust and illegal and tends or may tend to cloud or prejudice his title to said property, therefore be it

Resolved, That the City Solicitor shall and he is hereby authorized and directed to strike off said assessment against said Henry J. Thoma in the above proceedings, and charge the amount thereof to the City of Pittsburgh, and this resolution shall be his sufficient warrant therefor.

OFFICE OF THE
DEPARTMENT OF PUBLIC WORKS,
PITTSBURGH.

PITTSBURGH, September 8, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Pittsburgh.

GENTLEMEN:-

I submit herewith estimates of the whole cost of the proposed Filtration Plant, including the establishment of a meter system; also complete plans and specifications relating thereto. These estimates are fully set forth in a communication under date of September 2d, 1902, addressed to me by Morris Knowles, Resident Filtration Engineer, and approved by Allen Hazen, Consulting Filtration Engineer, which communication I attach hereto. The complete estimate is \$3,719,000.00, which is \$1,219,000.00 in excess of the bond issue.

I also submit herewith forms of proposed ordinances authorizing the letting of contracts in accordance with the estimates and recommendations of the engineers, together with form of proposed ordinance referring to the electors of the city, the question whether an additional bond issue should be made.

The estimates submitted to you in my letter of April 14th, 1902, were, as stated therein, as to a part of the proposed improvement, incomplete, because the plans and specifications were not, at that time, fully prepared. The present estimates are based upon completed plans and specifications.

These estimates, plans and specifications and forms of proposed ordinances, I submit for the consideration of your honorable bodies. Respectfully,

J. GUY M'CANDLESS,

Director Department of Public Works.

PITTSBURGH, September 2, 1902.

Dr. J. Guy McCandless, Director of Public Works, City Hall, Pittsburgh, Pa.:

DEAR SIR:

In accordance with your instructions, received subsequent to my report of April 1st, I submit herewith an estimate of the cost of the proposed Filtration Plant for the City of Pittsburgh, based in all particulars upon detailed contract plans and specifications relating thereto, which contract plans and specifications are on file in this office.

ESTIMATE.

Contract No. 1—Filter, basins and appurtenances.....	\$1,550,000.00
Contract No. 2—Filter water reservoir and appurtenances.....	225,000.00
Contract No. 3—River crossing, intakes, connections, screen chamber and appurtenances.....	225,000.00
Contract No. 4—Three 35,000,-000 gallon pumping engines.....	300,000.00
Contract No. 5—Boilers and appurtenances.....	50,000.00
Contract No. 6—Sand washing pumps, electric engines and generators, crane, Machine shop equipments, outside wiring and appurtenances.....	50,000.00
Contract No. 7—Pumping sta-	

tion, including boiler house, chimney and appurtenances. 170,000.00

\$2,570,000.00
Land secured and paid for.... 238,153.63
Add for engineering and contingencies, including amounts already spent upon this work, about 10 per cent. of the estimates for contract work..... 256,846.37

Total.....\$3,065,000.00
Meter system, as per report of April 1st, 1902..... 654,000.00

Total for filtration plant, including meter system.....\$3,719,000.00

The sums which are given above for doing the various parts of the work are somewhat in excess of those which I believe to be sufficient for doing the work at the present time upon a reasonable basis. It is necessary to make the estimate in this way, because the City Charter requires that no contract shall be let for more than the estimated cost of doing the work. In order to avoid delays and re-lettings, the estimate has been made sufficiently liberal so that I believe it is reasonably sure that bids can be obtained within the estimate for each part of the work.

The estimate of April 1st 1902, for "Filters, basins and appurtenances, and for Filtered water reservoir and appurtenances," now called in this report "Contracts 1 and 2," and comprising 69 per cent. of the whole contract work, was based upon plans and quantities by items; the remainder, or 31 per cent. of the contract work, was based upon preliminary plans and sketches, sufficient, however, to give us an idea of what the work would cost. Since that date specifications and contract plans have been prepared for the 31 per cent., which are now completed and the plans signed. The estimate of this date, therefore, for the whole of the filter plant, including all accessories, is based upon detailed items taken from specifications and contract plans, which are ready for receiving bids.

Since making the estimate of April 1st, prices of various materials have advanced and it has been necessary to increase the estimates accordingly on many items. The estimates for the pumping station building and machinery are for a complete plant, and based upon a few contracts in which many different machines are grouped. The cost can probably be reduced by letting the contract for the pumping engines first and then drawing the plans and specifications for other parts of the work successively in small contracts, as recommended in my letter of May 19th. By doing the work in this way a pumping station plant can be built for somewhat less money than is now estimated.

In view of the recent discussions upon the size of the plant it may not be amiss to state that in making designs for a filter plant of the size recommended in the report of the Filtration Commission (Viz: 25 beds of one acre each) we are not providing for filtering any more water than is likely to be drawn from the Pittsburgh municipal water system. When the report of the Filtration Commission was made, the amount of water pumped

at Brilliant pumping station was about 50,000,000 gallons per day, but to-day the amount is about 60,000,000 gallons and is steadily increasing. The design of the filter plant, as stated in the report of the Filtration Commission, contemplated an average daily use of 50,000,000 gallons of water, the extra beds being for the demands of certain periods when the consumption is above the annual average, and for some beds being out of service for cleaning and sanding.

Nothing has been done to meter the services in the city and, although probably two-thirds of the water is wasted, we must, in providing for the health and business prosperity of the city, be governed by what is, and not by what ought to be. If meters are introduced at once, it is not likely that within the time which it will take to build a filter plant, the waste will be so reduced as to bring the consumption much below an annual average of 50,000,000 gallons per day, which is the amount for which the plant was designed.

Common prudence demands a plant of the present size in order to provide for conditions as we find them. Unless the waste is restricted, the plant now proposed will be too small to meet the consumption which must be expected in the near future, perhaps even before the plant is completed.

Respectfully submitted,

MORRIS KNOWLES,
Resident Filtration Engineer.

Approved:

ALLEN HAZEN.
Consulting Filtration Engineer.

No. 579.

PITTSBURGH, June 5, 1902.

To the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:—

The petition of the undersigned respectfully represents that she is the owner of property on Wallingford street, in the Twentieth ward; that, some time on or about the 1st day of March, 1901, she sent to the Treasurer's office for a statement of her taxes; that she received from the Treasurer what purported to be such a statement, which was in the name of Mrs. Elizabeth W. Stevenson, amounting to \$79.56, which she promptly paid, as is shown by Treasurer's receipt No. 353, dated March 26th, 1901.

That, on or about the 1st day of January, 1902, or possibly prior to that date, she received from the Collector of Delinquent Taxes a notice that the taxes on her property remained unpaid and had gone delinquent; that having a receipt for what she supposed to be her taxes, she gave it no attention, but was finally notified that the Collector would advertise the property and file a lien against it.

An investigation shows that the property on which she paid the taxes was not

her own, but that of Mrs. Elizabeth W. Stevenson, on Stratford avenue. Her property was assessed in the name of her deceased husband, A. B. Stevenson. That Mrs. Elizabeth W. Stevenson, as shown by the records, has since sold the property which she owned to Lissle E. Robinson. Your petitioner is now compelled to pay the taxes properly assessed against her property. She, therefore, asks that as the error was not hers she be refunded the \$79.56 paid in error, and that a resolution be passed directing the Controller to issue a warrant for that amount.

LILLIE W. STEPHENSON.

Which was read, received and filed.

Also

C. C. No. 278. Resolution authorizing the issuing of a warrant in favor of Mrs. Lillie W. Stephenson, refunding overpaid taxes paid in error in the sum of \$79.56 on property in the Twentieth ward, and charge Appropriation No. 40.

Which was read.

And the rule having been suspended the resolution was read a second and third times, and upon final passage, the ayes and noes were taken, and being taken were:

AYES—Messrs.

Armstrong	Hogue	Semmelrock
Baldauf	Leslie	Sheehan

Mr. Semmelrock presented
 No. 580.

Resolved, That a committee of five members of Councils be appointed (three from Common Council and two from Select Council) to confer with The Pittsburgh and Washington Tunnel Co., its officers, stockholders, or whoever it may be necessary.

The Officers of the city of Pittsburgh.

The Officers of the county of Allegheny.

It has been established that the Pittsburgh and Washington Tunnel Co. are constructing a tunnel through Mt. Washington, in the city of Pittsburgh, in the county of Allegheny.

For the purpose of conveying cars through said tunnel for the transportation of persons, mostly subjects of said city and county. Therefore this resolution is presented, so as to ascertain if the parties hereto can arrive at an agreement whereby this tunnel can be constructed large enough for a public highway.

Which was read.

Mr. Semmelrock moved

That the resolution be adopted.

Which motion prevailed.

Mr. Stevenson moved

That Council adjourn.

Upon which motion Mr. Leslie demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered to be taken, and being taken were:

AYES—15.

NOES—15.

So the motion did not prevail.

Mr. Leslie arose and asked the Chair if there was not some unfinished business on the desk.

The Chair said:

There are a few papers on the desk.

Mr. Brand called up

S. C. No. 345.

Resolved, That the City Solicitor shall be and he is hereby directed to bring suit or suits against the Pittsburgh Junction Railroad Company, its successors or assigns, for the recovery of the penalty, of the sum of twenty (\$20.00) dollars per day, for each day that any locomotive on which bituminous coal is used for fuel is run over said road, in violation of

Section 8 of an ordinance entitled "An Ordinance granting to the Pittsburgh Junction Railroad Company a right of way from the Monongahela river to the Allegheny river," approved November 30, 1881, and recorded in Ordinance Book, Vol. 5, page 273.

In Select Council June 30, 1902. Passed.

In Common Council July 7th and 21st failed to pass for want of a legal majority of votes.

In Common Council August 4, 1902. Read and action postponed until next meeting of Council.

Which was read.

Mr. Semmelrock moved

To postpone action upon the resolution for one year.

Mr. Stevenson moved

To postpone action upon the resolution until next meeting.

Mr. Leslie moved

That further action upon the resolution be postponed indefinitely.

And the question being put on the motion of Mr. Leslie to indefinitely postpone,

Mr. Leslie demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered to be taken, and being taken were:

AYES—Messrs.

Armstrong	Edwards	McNally
Brand	Hogue	Schwarzwaelder

AYES—15.

NOES—15.

So the motion did not prevail.

And the question recurring on the motion of Mr. Stevenson to postpone action until next meeting,

Mr. McNeil demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered to be taken, and being taken were:

AYES—Messrs.

Baldauf	O'Brien, Thos.	Wasson
Barker	Reltz	Woods

Cavett	Leslie	Semmelrock
Cross	Lewis, John	Sheehan
Delaney	Moore	West

AYES—15.

NOES—15.

So the motion did not prevail.

Mr. Stevenson moved

That Council adjourn to meet next Friday evening.

Upon which motion Mr. Leslie demanded a call of the ayes and noes, and the demand

having been sustained, the ayes and noes were ordered to be taken, and being taken were:

AYES—Messrs.

Baldauf	O'Brien, Thos	Stevenson
Barker	Reltz	Wasson
Beckert	Sahner	Wymard
Brown	Soffel	Zeuger
McNeil		

Crawford, C. S., President.

NOES—Messrs.

Armstrong	Edwards	McNally
Brand	Hogue	Schwarzwaelder
Cavett	Leslie	Sammelrock
Cross	Lewis, John	Sheehan
Delaney	Moore	West

AYES—14.

NOES—15.

So the motion did not prevail.

Mr. Leslie moved

That when Council adjourns, it adjourns to meet the last Monday of September, and not until then.

Mr. Sahner arose to a point of order, stating:

That the motion would conflict with the rules of Councils that give the Chair, or a certain number of members, power to call a meeting at any time.

The Chair decided

The point of order well taken. That it would require a suspension of the rule to entertain the motion of Mr. Leslie.

Mr. Leslie arose and appealed from the decision of the Chair.

And the appeal having been sustained, President Crawford called Mr. McNeil to the chair.

The Chair (Mr. McNeil) directed the clerk to read the appeal, and the appeal having been read, Mr. Leslie, taking the floor, said:

"Mr. Chairman and members of Council: My reasons for the motion to adjourn until the next regular meeting of Council, and not until then, are that there are members of Council who desire to adjourn to-night while there remains on the desk unfinished business of Councils, rather than stay and dispose of it, and then to be called together in a few days. I deem it unfair and unjust to the members having other business to transact, and that it would be but fair to adjourn to our next regular meeting day, the last Monday of this month, and not be placed in a position of attending unnecessary meetings to be called two or three times a week."

President Crawford said,

"Mr. Chairman and members: My ruling was made as I believe it to be in accordance with the rules of Council and the City

Charter. The rule of Council states that special meetings of Council can be called by the Chair or by one-third of its members. The charter gives power to the City Recorder to call a meeting at any time. For these reasons I made my ruling."

The Chair:

"The question before Council is, 'Shall the decision of the chair be sustained?'"

A vote having been taken *viva voce* , the Chair decided the ayes had it, and the decision of the Chair sustained, and called President Crawford to take the chair.

Mr. Leslie demanded a call of the ayes and noes.

Mr. Armstrong called for a division of the vote.

Several members at this time were on the floor calling for a call of the roll.

The Chair—(Mr. McNeil):

"I have decided the question, and will not order a call of the roll. The decision of the chair is sustained."

Mr. McNeil immediately vacated the chair and called President Crawford to take his seat.

President Crawford on taking the chair called Council to order, and said:

"The business before Council is

S. C. No. 345. Resolution directing the City Solicitor to bring suits against the Pittsburgh Junction Railroad Company for violation of an ordinance relative to smoke, approved November 30th, 1881, and the question is, 'Shall the resolution pass finally?'"

The ayes and noes were then taken agreeably by law, and were:

AYES—Messrs.

Baldauf	Martin	Sahner
Barker	McNeil	Schad
Beckert	O'Brien, Thos.	Stevenson
Brown	Reltz	Wasson

Crawford, C. S., President.

NOES—Messrs.

Brand	Leslie	Sheehan
Cavett	Lewis, John	West
Cross	Moore	Wymard
Delaney	McNally	Zeuger
Edwards	Schwarzwaelder	

AYES—13.

NOES—17.

And a majority of votes being in the negative, the resolution was rejected.

Mr. Stevenson moved

That Council do now adjourn.

Which motion prevailed.

And Council adjourned.

No. 608.

PITTSBURGH, September 29, 1902.

To the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:—

I herewith transmit for your approval a resolution ordered and directing that an extension of time shall be granted to Wm. Kerr's Sons, of Pittsburgh, contractors for the erection of No. 2 Police Station, at the corner of Center avenue and De-villers street, Pittsburgh, and that the liquidated damage clause shall not be enforced until the expiration of the aforesaid one hundred days' time. This resolution is asked for on behalf of Messrs. Wm. Kerr's Sons for the reasons that:

First: The said contractors were delayed to some extent by the City of Pittsburgh owing to a change found necessary in the sewerage system of said No. 2 Police Station caused by an extension in said system of four hundred feet or more to get a proper fall for the drainage.

Second: The said Wm. Kerr's Sons, contracts, have been delayed by the sub-contractors for the cell work at said No. 2 Police Station, viz.: The Van Dorn Iron Works Co., of Cleveland, O., owing to the fact that the said Van Dorn Iron Works Co. was unable to secure the iron necessary for the prison work from the iron manufacturers for the reason that the said iron manufacturers were too busy and unable to furnish the materials at the proper time as per communication hereto attached.

Third: it was found necessary during the excavation to excavate at a greater depth than was originally contemplated in the plans and specifications in order to secure proper foundation for the erection of said building.

I believe that the extension of time as asked for is reasonable and just and trust that your honorable bodies will pass the resolution herein mentioned.

Very truly yours,

A. H. LESLIE,
Director Department
of Public Safety.

CLEVELAND, O., September 26, 1902.

WM. KERR'S SONS,
419 Lewis Building,
Pittsburgh, Pa.

GENTLEMEN:—

Replying to yours of the 24th inst. would say that we fully expect to make the final shipment of the cell work for the No. 2 Police Station, City of Pittsburgh, in four weeks' time.

After the final shipment arrives we do not expect to be longer than three weeks in completing the erection of all this work at the building.

Therefore, you should arrange if possible to get an extension of time as far as the cell work is concerned of at least seven weeks.

It is necessary for us to ask you to do this owing to the fact that the mills delayed us fearfully in not shipping the material as soon as agreed.

We placed the order with the mills promptly upon the receipt of the contract, but it was weeks and months before we could get a return from them. Their delay has discommoded us terribly, but as we now have all of the material on hand and are rushing the work, you can rely on us to finish up in the time stated above.

Hoping to hear that you have been able to petition the City Council favorably on the extension of time and awaiting your further letter, we beg to remain,

Very truly yours,

THE VAN DORN IRON WORKS CO.

Also
No. 609.

Resolved, That the Director of the Department of Public Safety shall be and he is hereby ordered and directed to grant an extension of time not exceeding the period of one hun-

dred days (100) to Messrs. Wm. Kerr's Sons of Pittsburgh, contractors for the erection of No. 2 Police Station, corner of Center avenue and Devillers street, Thirteenth ward, Pittsburgh, from the date of the expiration of the contract entered into by and between the said Wm. Kerr's Sons and the City of Pittsburgh by and through J. O. Brown, City Recorder, and A. H. Leslie, Director of the Department of Public Safety, for the erection of the aforesaid Police Station under date of January 8, A. D. 1902, and that the liquidated damage clause provided for in the aforesaid contract shall not be enforced by the said Director of the Department of Public Safety nor any other officer or agent of the City of Pittsburgh until the expiration of the aforesaid one hundred days hereinbefore mentioned.

Which were referred to the Committee on Public Safety.

Mr. Leslie presented

No. 610. An Ordinance authorizing and directing the making of a temporary loan in behalf of the City of Pittsburgh in order to meet an apparent deficit in the City Treasury due to the fact that all the moneys appropriated, levied and assessed have not been collected.

Which was referred to the Committee on Finance.

Mr. Stevenson presented

No. 611.

PITTSBURGH, PA., July 31, 1902.

To the Select and Common Councils of the City of Pittsburgh.

GENTLEMEN:—

The petition of the undersigned respectfully represents that he was the owner of certain lot of ground on Negley avenue; that the City under an ordinance constructed a sewer and graded and paved the street; that your petitioner was assessed for said improvements as follows:

Construction of sewer.....	\$ 76.16
Grading, paving, etc.....	1,021.84

That he promptly paid his assessments for the improvement; that subsequently the assessments for these improvements were stricken down by the Supreme Court; that afterwards under the curative act a reassessment was made and the assessments against the property were as follows:

Construction of sewer.....	\$ 68.85
Grading and paving.....	998.82

Your petitioner, therefore, respectfully asks that under the Act of Assembly and General Ordinance of Councils, the difference between the amount paid by him and the amounts assessed in the legal assessments may be refunded.

And he will ever pray, etc.,

No. 620.

PITTSBURGH, October 13, 1902.

To the Select and Common Councils of the City of Pittsburgh.

GENTLE MEN:—I herewith transmit for your consideration and action the report of the General Committee on Municipal Improvements, so far as the same relates to Water Supply and Distribution, it having approved the finding of the sub-committee to which the question of Water Supply and Distribution was referred. This sub-committee had many meetings with the local Board of Fire meetings with the local Board of Fire Underwriters and the Department engineers, and submit the result of its findings in the form of a recommendation that practically an entire new distribution of water mains be immediately provided for in what is known as the down-town or congested district. Its reports and estimates fix the sum at \$215,000.00. And under its direction, and with the approval of the Board of Fire Underwriters, an ordinance covering the exact streets, location of pipes and fire plugs required for the relief of the congested district, will be presented.

This relief of the congested district of the city, as to water supply and distribution, is of the highest public importance, and should be given immediate legislative attention. When the proper legislative power has been granted, I am satisfied the "pink slip," or advanced insurance rates, will be withdrawn on the insurance policies of the business interests in the congested district, thus saving our people hundreds of thousands of dollars annually.

The report, blue prints and exhibits are hereby transmitted for your consideration.

Yours respectfully,
J. O. BROWN,
City Recorder.

Also

No. 621. An Ordinance providing for the better supply and distribution of water in that part of the City of Pittsburgh, bounded by the Allegheny and Monongahela rivers, Grant, New Grant, Liberty and Eleventh streets, known as the "Congested District," and directing the Finance Committee to make provision in the Appropriation Ordinance for the fiscal year beginning February 1, 1903, for an appropriation of two hundred and fifteen thousand dollars (\$215,000.00) for the payment of the cost and expense of the same.

Which were referred to the Committee on Finance.

Mr Wymard presented

No. 659.

To the Select and Common Councils of the City of Pittsburgh.

The petition of H. H. Wunderlich, of the Twenty-first Ward of the City of Pittsburgh, on his own behalf, and on the behalf of Christina Otto, Margaret Langham, Jennie A. Will and Charles

Wunderlich, heirs of John Wunderlich, deceased, late of the City of Pittsburgh, respectfully represents:—That H. H. Wunderlich purchased from James A. B. Melvin and William P. Smith, by deed dated October 14, 1892; recorded in Deed Book Vol. 796, p. 547, all those six (6) certain lots of ground, numbered 93 to 98, both inclusive, in plan of lots laid out by Melvin & Smith. Twenty-first Ward, City of Pittsburgh, as recorded in the Recorder's office in Plan Book Vol. 11, p. 37, said lots having a front of 180 feet on the southerly side of Kelly street and extending back preserving the same width of 135 feet to the northerly line of Formosa alley. And H. H. Wunderlich executed and delivered to John Wunderlich, a mortgage for Seven thousand dollars (\$7,000), on said lots, dated Nov. 16, 1892, recorded in Mortgage Book Vol. 537, p. 57. Said lots were subsequently conveyed to Saddler & Evans subject to said mortgage, and Saddler & Evans conveyed to J. A. Wynne. That in the year 1892, or prior thereto, when the legal title to said lots was still vested in Melvin and Smith, the City of Pittsburgh constructed a thirty-six (36) inch sewer along Kelly street, known as the Susquehanna and Albion streets sewer, and caused an assessment to be made against said lots for the construction thereof, amounting to \$437.72, which assessment was made in the name of W. P. Smith, and for which a lien was filed at No. 475 Sept. T., 1894, M. L. D., for the sum of \$437.72, with interest from March 23, 1894, as will appear by certified copy hereto annexed, of the Docket entries of said lien. That a Scire Facias was issued on said lien in the name of W. P. Smith as will appear by said record, and was returned nihil, and afterwards the lien was advertised in the name of W. P. Smith, but no notice given to either your petitioners or the terra tenants. That in the year 1897, J. A. Wynne, being then the owner of the premises, John Wunderlich caused a Scire Facias to be issued on his mortgage above mentioned, at No. 660 March Term, 1897, and obtained a judgment thereon for \$7,743.22 on which a Lev. Fa. was issued at No. 113 June Term, 1897, and the premises sold by the Sheriff to John Wunderlich, plaintiff, for \$1,000.00, as shown by copy of the Sheriff's return hereto annexed, and the Sheriff executed and delivered to John Wunderlich a sheriff's deed, for the premises dated June 12, 1897, and recorded in Sheriff's D. B. Vol. 11, p. 691; that no notice was given at the sheriff's sale of said lien, the same having been entered in the name of W. P. Smith, and no distribution therefor was made to satisfy lien by the Sheriff; that immediately after the sheriff's sale, John Wunderlich borrowed from the Allemania Fire Insurance Company, Four thousand dollars (\$4,000.00), to pay all the liens against said premises, and gave his mortgage therefor, recorded M. B. Vol. 798, page 536, which said mortgage has since been paid and satisfied. Said John Wunderlich stated to your petitioner at the time, that all said liens had been paid, as he believed. That your

petitioner and his co-tenants, the heirs of John Wunderlich, who died about March, 1900, have recently made sale of the premises, and find that said lien is still unsatisfied on the record, though your petitioners believe that the same has long since been paid; that the lien with the interest and costs will amount now to nearly \$750.000; that the original assessment for said sewer was largely in excess of what it should have been under the now existing laws, being assessed on the basis of a 36-inch sewer, which is larger than necessary for the proper drainage of the premises. That your petitioners are ready and willing, and have offered the City of Pittsburgh through the City Attorney, \$520.00, together with the Court costs, in full satisfaction of said lien, and are ready and willing to pay said amount, believing that the same being the amount of the judgment on the lien as entered May 17, 1897, on the scire facias, is in justice all that they should pay. That the lien on the adjoining premises filed against Melvin & Smith at 474 Sept. T., 1894, M. L. D., for the same improvement, was compromised by a resolution of councils for about 50 per cent. of the claim.

Your petitioners therefore pray that a resolution be passed authorizing and directing the City Attorney to enter satisfaction of said lien as filed against W. P. Smith, on payment to the City Treasurer of the sum of \$520.45, together with the Court costs accrued thereon, and they will ever pray, etc.

Whereas, It appears by the records of
 Allegheny County and by petition of H.
 H. Wunderlich, et al., on file, that a
 lien as filed by the City of Pittsburgh in
 the name of W. P. Smith at No. 475 Sep-
 tember Term, 1894, for the construction
 of the Susquehanna ad Albion street et
 al., sewer, against premises on Kelly
 street fronting 180 feet on the southerly
 side of Kelly street, and extending back
 135 feet; and,

Whereas, At the time of the construc-
 tion of said sewer, the registered owner
 was James A. B. Melvin and W. P.
 Smith, and no notice was given of the
 proceedings had on said lien to the sub-
 sequent owners of said premises in
 June, 1897, at Lev. Fa. No. 113 June T.
 1897. No notice was given of said as-
 sessment and the premises were con-
 veyed to said John Wunderlich by the

Sheriff of Allegheny County; and,

Whereas, The original assessment for
 said sewer under the then existing laws
 was in excess of what would have been
 proven justly due under the subsequent
 decisions of the Courts of this Com-
 monwealth; and,

Whereas, Doubts have arisen as to the
 validity of said lien, and the heirs of
 John Wunderlich offered to pay \$520.45,
 being the amount of the judgment as
 entered on the Scire Facias in May 17,
 1897, on said lien.

Resolved, That the City Attorney be
 authorized and directed to enter satis-
 faction in full on said lien upon pay-
 ment of all costs thereon as taxed, and
 upon payment to the City Treasurer, of
 the sum of \$520.45 by said heirs of John
 Wunderlich, deceased.

No. 680.

To the Select and Common Councils of the City of Pittsburgh.

Gentlemen:—The petition of the heirs of P. C. Byrne respectfully represents:

That on the night of the 10th of December, 1901, one of our drivers while returning with team, carriage and party of four (two gents and two ladies), when driving on the up track near Forleth street on Butler street, Seventeenth Ward, met with an accident which resulted in the total loss of our horse, damaging our horse very badly and twisting carriage, so that repairs did not help much; also loss of one brand new set of our best harness.

That this ditch being open on either or both sides of the track should have been filled in several days before this mishap and on account of no light or signal whatever being there to protect those that were passengers during the night.

As it was by reason of this condition of street or neglect of watchman, signal or any other protection, your petitioners respectfully request that an order may be made, paying them the sum of three hundred and seventy dollars, as per bill attached.

Hoping that you kind gentlemen will realize this our loss and consider this petition with favor.

Very respectfully,

HEIRS OF P. C. BYRNE,

Per Raymond A. Byrne, Mgr.

A Resolution authorizing and directing the City Recorder in behalf and in the name of the City of Pittsburgh to sign a petition for the widening of Virgin alley from Wood street to Smithfield street to a width of 50 feet.

WHEREAS, A movement is on foot looking toward the widening of Virgin alley in the Third ward, City of Pittsburgh, from Wood street to Smithfield street, to the width of fifty (50) feet; and

WHEREAS, The City of Pittsburgh is owner of one hundred and twenty (120) feet of frontage on said Virgin alley between the streets aforesaid; and

WHEREAS, The widening of the above-mentioned portion of Virgin alley will be of great benefit to the property aforesaid owned by the City of Pittsburgh, and in addition thereto will greatly relieve the congestion now existing in that section of the city; now, therefore, be it

Resolved, By the Select and Common Councils of the City of Pittsburgh that the City Recorder be and he is hereby authorized and directed in behalf and in the name of the city to sign a petition to the Select and Common Councils of the City of Pittsburgh, praying for the widening of Virgin alley from Wood street to Smithfield street, from a width of twenty (20) feet as it now exists, to a width of fifty (50) feet. The said widening to be accomplished by taking the entire thirty (30) feet necessary for such widening from the property abutting on the northerly side of said alley within the limits aforesaid.

C. C. No. 614.

WHEREAS, A question has arisen in relation to the building of a municipal hospital for isolated and contagious diseases; and

WHEREAS, The needs of the city require the speedy completion of the building as at first designed; and

WHEREAS, There remains to the credit of the fund applicable for that purpose the sum of \$125,000.00; therefore,

Be it resolved, That the Director of the Department of Public Safety shall be and is hereby directed to submit to this Council at its next meeting the plans and specifications prepared for the municipal hospital, together with an estimate of the total cost of the building as at first projected, and also an estimate or estimates of the improvements, equipments, furnishings, supplies and all other matters and things necessary for the completion, requirements and needs of the projected municipal hospital.

In Common Council September 20. Read and adopted and asked if the Director of the Department of Public Safety had complied with the resolution.

The Chair announced that the Director has made a report and presented

No. 682.

To the President and members of Common Council:

GENTLEMEN:

In answer to resolution C. C. No. 614 in C. C. September 24, 1902, as follows:

"WHEREAS, Question has arisen in relation to the building of a municipal hospital for isolated and contagious disease; and,

WHEREAS, The needs of the city require the speedy completion of the building as at first designed; and,

WHEREAS, There remains to the credit of the fund applicable for that purpose the sum of \$125,000.00; therefore,

Be it resolved, That the Director of the Department of Public Safety shall be and he is hereby directed to submit to this Council at its next meeting the plans and specifications prepared for the municipal hospital, together with an estimate of the total cost of the building as at first projected, and also an estimate or estimates of the improvements, equipments, furnishings, supplies and all other matters and things necessary for the completion, requirements and needs of the projected municipal hospital."

I beg to submit that this is a question which should be discussed and disposed of without any politics or feeling other than what will best serve the interest of the public.

The first question raised by the Controller is that there was appropriated under the ordinance dated June 19th, 1899, No. 100, \$300,000.00 for hospital services. In connection therewith we desire to submit to you attached copy of ordinance as passed by the Councils covering the whole question, a careful reading whereof shows that there was no specific amount for any specific purpose, but that the entire \$600,000.00 was to be used for the general purpose of bettering the service coming under the direct charge the department, including among many other things enumerated therein, the erection, building, completion and equipment of an isolated hospital for conta-

gious and infectious disease. This money has been expended as follows:

Of the \$600,000.00 appropriated this report shows a balance of \$125,919.74. An ordinance was introduced into Select Council asking for an appropriation of \$60,000.00 for the purpose of erecting a municipal hospital for isolated and contagious diseases, which was referred to the committee on public safety. During the intervening time, and, while awaiting the action of the public safety committee, we made a careful inquiry as to the needs, wants and probable cost and were led to believe that it would be impossible to erect a suitable hospital for that amount and, therefore, asked the public safety committee to amend the ordinance by striking out \$60,000.00 and inserting \$80,000.00, which was done and affirmatively recommended to councils. There was at the same time an ordinance introduced authorizing the employment of an architect to draw plans and specifications for said hospital and the ordinance was also affirmatively recommended to councils. These ordinances passed both Common and Select Council May 26th, 1902, by a unanimous vote, and were approved by the City Recorder May 29th, 1902. We immediately proceeded to employ an architect, and he in turn proceeded with all speed possible with the drafting of the plans and drawing up the specifications, calling to our assistance the physicians of the Bureau of Health and examining carefully into the recommendations of the commission which had been appointed by my predecessor, Hon. J. O. Brown, now Recorder of the City. Said plans and specifications are herewith submitted you for your examination, and I quote the following letter sent me by S. F. Heckert, the architect, in reference to the suggestions of the committee or commission and wherein the present plans coincide and differ from the same:

PITTSBURGH, August 13, 1902.

A. H. Leslie, Esq.,
Director, Dept. of Public Safety.

"Honorable Sir: In reply to your inquiry as to how long I have been practicing architecture as a member of a firm or individually, I would say that I spent nine and one-half years as the junior member of a firm and the last seven years without a partner. I have made institutional work my specialty, together with semi-public buildings and have built a number in this and other states. My hospital work covers the erection or alteration and additions to private institutions. I now have four hospitals under the course of preparation of plans or construction, including the present hospital for your city.

"Pertaining to the hospital in question I would say that the report of January 1st, 1897, of the Commission on Isolation Hospital, has been closely followed, together with the recommendation of Dr. Matson, who has been in consultation with me from time to time during the planning of this building, and I make the following minute report of our plans, citing the similarities and dissimilarities.

"The Administration Building covers all the points and goes further than re-

quired therein, we having the necessary offices both for the superintendent and doctors, together with their individual baths, the dispensary, general dining room, store rooms, pantries, kitchen, female dining room and pantries; all arranged in such a manner that the sex do not come in contact with each other, nor do the dishes used by the various persons mingle or become mixed with those of others. The same may be said of the system of service from the kitchen. The general laboratories are provided for persons not directly connected with the work in the building. The second-story of the Administration building is divided into sleeping quarters to accommodate those whose quarters are mentioned on the first floor, and under similar conditions, each having their own baths, ward-ropes, etc.

"We have not provided the number of pavilions recommended in the report under the present contract, but the building is planned as to location on property and all connections provided for the future erection of buildings which will about meet the suggestions except that the number of patients provided for will be greater than that recommended, to-wit: The commission provides for 24 beds for smallpox, whereas our plans call for 64 in a total of four wards. We now contemplate, as you know, the smallpox pavilions for both sex, together with one pavilion for diphtheria, and in connection with these pavilions we have more than suggested by the commission in that we have the receiving and developing rooms for doubtful cases, isolated wards for those nearing death, nurses' rooms, fumigated clothes compartments reached only from the outside so that they can in no way become infected; the general ward accommodating thirty patients with the standard air capacity and general linen rooms not in contact with the ward. From the wards through a short cloister we find washstands and shower baths, together with the water closets, slop sinks and bath tubs, each separated and directly lighted from the outside. In connection with the wards is the day room for patients able to be about and in connection with the day room the solarium or sun parlor, and all connecting rooms are so arranged that if it be desired to remove a patient from the ward, the same can be done without lifting a patient from the bed, that is, by rolling the bed with the patient wherever you please.

"The provision made for receiving cases that are developed and need no further question is as follows: From the outside they enter a vestibule, pass into a disrobing room where the infected clothes are left, then into a shower bath, and from there to a hospital robing room, from which point they are taken to their beds or the day room as the case requires. I might say that the entry and exit are the same except they reverse. The new clothes being brought to the exit and the patient discharged. The doctors enter and leave the wards as provided for the patients.

"The arrangements of the diphtheria pavilion is much the same as provided for the smallpox, with the addition of a small operating room.

"The pavilions are one-story high, connected with the Administration Building as recommended in the report. The heating system is constructed precisely with the recommendations of the report with this exception: the air in the absence of a complete building is not burnt, but discharged at one given point. The contour of the ground is such that our boiler house, which is substantial and the foundation for future building, permits of a return gravity system which has been taken advantage of. Our heating system is a direct indirect plant as recommended and the air is drawn out by electric fans, leaving the wards at a point just above the floor under the beds; the air entering and leaving at a velocity not to be noticed by the patients or others in the way of draughts.

"The sewer system is not as recommended by the commission, as it is better to have it on the outside of the building entirely, which has been done, and I know will meet with your approbation. The buildings throughout are substantial and of red brick as recommended in the said report, the roofs are of slate and the inside walls are all cemented, and I might add that in no case is there a square angle in the buildings, all such being rounded so that there can be no possible place for disease germs to harbor.

"We have provided a system of telephones that brings the isolated buildings in direct communication with the superintendent's office in the Administration Building, and the various parts of the building one with the other.

"In connection with the Administration Building we have provided porches separate and distinct for the superintendent and the male and female help. We have avoided all woodwork in the way of trimmings except where it is absolutely necessary to cover a joint or an opening between various materials. The Administration Building, of course, is treated with wood trimmings as all administration buildings of such institutions are.

"I believe that the foregoing description is clear enough to give those who have not viewed the plans a clear understanding of the proposed buildings and their arrangements. I am of the opinion that the plans as arranged more than cover all of the requirements of the conditions laid down by the commission hereinbefore mentioned and I might further say that when all the pavilions are finished, I do not know of a more complete Municipal Hospital except possibly that of the City of Boston.

"If there be any further information desired by you or others I shall be only too pleased to be of service to you.

"Very truly yours,

"[Signed] S. F. HECKERT,
"Architect."

Bids were advertised for in the usual manner and were invited to embody the entire plans and specifications and also separate bids to exclude the diphtheria ward. Bids were submitted by the several bidders as follows:

	Total.	Less Diphtheria Ward
Geo. A. Cochran....	\$108,200.00	\$94,300.00
Henry Shenk Co....	115,217.00	99,761.00
Wm. Miller & Sons..	109,874.00	95,874.00
Kerr & Fox.....	91,932.00	76,876.00
G. Henry Schmunk..	106,000.00	91,000.00
Lorenzo Benz.....	103,000.00	
Wm. Kerr Sons.....	100,900.00	86,900.00

As you will note the bids including the diphtheria ward all exceeded the amount appropriated and therefore the erection of that portion of the hospital was deferred and contract was let for the erection of the other portion covering the administration building, the smallpox wards and the heating plant. The heating plant is of sufficient capacity to accommodate all of the originally proposed buildings, so that if at any time the councils in their wisdom determine to build the diphtheria and scarlet fever wards there will be no additional expense in so far as the administration building is concerned or in the heating plant except the introduction of additional boiler capacity.

The all important question at this time is the smallpox ward and the administration building. The buildings now in use are not of sufficient capacity to accommodate the smallpox patients by reason of the very severe epidemic we are now passing through and we are fearful that this winter will make a greater strain and demand upon us than at any time in the past. We have, in order to meet the extraordinary conditions existing during the summer season, erected an additional building of 24x75, out of the moneys that your honorable bodies very generously granted us for that purpose. We have in addition to expending that money, added bathing facilities and other necessary matters not deemed necessary by reason of the few cases heretofore treated at any one time in the hospital, so that today the hospital as planned and contract let for, if erected, I feel satisfied will be capable of caring for all the smallpox probable to arise during this winter in a sanitary first-class manner, and that at the expiration of this epidemic now existing and at an expenditure not to exceed \$4,000.00, the present building used for smallpox purposes can be disinfected and fitted up so as to take care of all diphtheria and scarlet fever and erysipelas cases that it will be necessary for the city to care for.

I desire to call your attention to the fact that the scarlet fever, diphtheria and smallpox cases during the specified years were as follows:

Year.	Scarlet Fever.	Diphtheria.	Smallpox.
1898	391	488	1
1899	610	522	24
1900	719	719	32
1901	898	821	117
1902	789	489	518

Of these the following were sent to the hospital:

Year.	Scarlet Fever.	Diphtheria.	Smallpox.	Erysipelas.
1898	4	1	1	2
1899	4	7	24	5
1900	2	13	32	17
1901	12	13	117	14
1902	22	9	517	23

And the expense to the city for the care of scarlet fever, diphtheria and erysipelas at the Mercy hospital, that being the only hospital which will admit infectious diseases, and with whom we have an annual contract, during these years, follows:

Year.	Amount paid for Care and Treatment.	Amount of Contract.	Total.
1898	\$ 280.00	\$ 525.67	\$ 805.67
1899	363.45	1,042.77	1,406.22
1900	670.29	954.20	1,624.49
1901	830.00	1,131.32	1,961.32
1902	1,106.00 (6 mos.)	602.83	1,708.83

I desire to further call your attention to the fact that if the city should erect additional buildings for the care of scarlet fever, diphtheria and erysipelas, it will be necessary to employ additional help in the way of scarlet fever, diphtheria and erysipelas nurses because these nurses cannot from the very nature of the diseases intermingle one with the other. I do not raise this question because I realize that no matter what it might cost for the care of the afflicted, we ought not to consider this as against life, but these cases are all cared for in the hospitals in the city and receive as good treatment as it would be possible for them to receive in a municipal hospital, and, therefore, I raise this question at this time to call your attention to the increased cost that would be incurred as against the present method of caring for them, and to the further fact that the mere erection of this hospital along the lines as herein indicated does not in any way interfere with the city's future action in adding to the present hospital facilities in so far as the land that the city now owns will permit.

I want to suggest that the most urgent things at this time, as I have already indicated, are the erection of the administration building and the smallpox wards, and the further necessity of the purchase of additional land, in the very near future, so that the city may provide a general hospital for the care of all classes of injured or diseased persons.

As above indicated there is unappropriated and unexpended \$16,469.74, which will more than equip the new hospital. The one reason why we do not or cannot give you other than an approximate estimate is the fact that if the smallpox abates, as we have every reason to believe it will, and that judgment is based on the history of the disease, we will have in the present buildings used for smallpox purposes ample bedding and furniture of such like character for the equipment of the new hospital, and it will be an unwise and extravagant use of money to enter into contracts at this time for the equipment of the hospital, when no human being can determine the conditions of the disease at the time the hospital will be ready for occupancy, and, therefore, it is utterly impossible to determine how much of the present material will be available.

I desire to submit to you that if the Controller is so desirous of expending the entire \$125,000.00 he alleges is unexpended in this bond issue, but which I have

shown you has already been appropriated excepting about \$16,000.00, were it not better for him to approve this contract which will tie up \$80,000.00 for this specific purpose in which he seems so deeply interested than to tie up and refuse his approval of this very necessary improvement on which life and death hinges and the possibility of spreading this dreadful infection to a larger extent throughout the entire city, without any reference to the extraordinary cost which will be involved thereby through quarantining the patients in their homes, making the period of quarantine six to eight weeks as against sixteen to eighteen days at a cost of \$7.50 per day, exclusive of the feeding, fuel and light of quarantined persons.

I would also direct your attention to the fact that there has been some criticism called forth by reason of the Department of Public Safety having given contractors twelve months in which to complete the buildings. The reason for this is that at the time of advertising for bids, the Controller served notice on prospective bidders that he would lay every impediment in the way of the erection of the hospital, and gave as his reason that he wanted the entire unexpended balance of the \$600,000.00 loan applied in the hospital contract, and that when it came to a question of signing the contract, the contractors, Messrs. Kerr & Fox, objected to signing a contract for the completion of said building within what might have been considered a reasonable time, to-wit: on or about the first day of February, 1903, giving as their reason this notice and the fear that the controller would enforce his threat which he has done. We are losing valuable time for doing outdoor work, and the closer it comes to the cold freezing weather, the slower will be the progress and the more uncertain will be its completion, and I assert, that, judging from the history of this disease, the all important time for that hospital is now, and that every impediment in its way should be removed and the contractor be permitted to proceed at once with all haste with the erection and completion of this all important improvement.

Respectfully submitted.

A. H. LESLIE,

Director, Department of Public Safety.

There has been a great deal of comment charging the administration with being dilatory in effecting the erection and completion of an isolated hospital. My predecessor, Hon. J. O. Brown, now Recorder has had this question up in different forms in the past six or eight years, urging its necessity, and at one time had an ordinance introduced into Councils providing for the employment of an architect and authorizing him to proceed with the work. The only available property at the command of the city at that time was the property that is now occupied by the present municipal hospital and on which the contemplated building is to be erected, to-wit: at the corner of Ridge and Francis streets, Thirteenth ward. Each time that an effort was made the residents of that section of the city brought to bear all the influence possible, both of their own Councilmen and Coun-

climen from other sections of the city, and other very powerful political influence on the then Director to deter him from proceeding with the work, and that influence was sufficiently powerful from time to time to prevent any legislation that would permit the proposed erection on the property in question.

Mr. Brown at one time secured an option on an island up the Allegheny river opposite Harmarville. He then took up the question with the United States Government as to the use of a boat for transporting of the afflicted to the hospital by the way of the Allegheny river. The United States authorities notified him that under no circumstances would they permit this. He then secured an option on a piece of property near the present city farm and took up the question with the Pennsylvania Railroad officials as to the transportation of the afflicted over their lines, if the city secured a suitable car, and this was also emphatically refused. Then the question was taken up as to securing a site on the outskirts of the city, and Mr. Brown was then confronted with the State law which permits townships, borough and cities to prohibit the transporting of persons afflicted with smallpox through such territory. This led to the question of locating the hospital in some of the distant, inaccessible portions of the city not likely to be built up and in all of these questions in the matter of transportation he was always confronted with the proposition of the movement of the patients to an ambulance and from thence to the boat or car or the hauling of them long distances over the streets, jeopardizing life, and with the consideration that it was an unwise and unfeeling manner of providing for the unfortunate. So that the only proposition left to the city was to build on the property they own at the corner of Ridge and Francis streets, and I want to say to those residing within the immediate vicinity of that hospital that the judgment of the physicians of this department and others who have given the matter considerable study is that a properly constructed sanitary hospital built along the lines of the proposed infectious hospital, carries with it little or no danger of infection outside of a forty-foot limit. Patients in the hospital at this time, when they become convalescent, have no rooms to retire to and are compelled either to go out in the open air or to remain in the infected ward, which is disagreeable on account of the odors arising from the disease and the unsightly aspect of the afflicted, and their going out in the open and tramping around within the inclosure to a great or less extent exposes the neighborhood to the infection, but under the proposed plan the convalescents, while in the condition of scaling, will not be permitted to pass outside of the building. We have provided a room for convalescents separate and apart from the general ward, and adjoining the convalescent room we have a solarium, so that as the patients advance toward recovery they pass from the general ward to the convalescent ward, and from thence to the solarium, and finally they are permitted to depart and go to their homes, so that taking the reasonable, common-

sense view of the situation, we are brought to this conclusion, that if we are not permitted to build an up-to-date sanitary hospital on that property the city will be compelled to use their present buildings, and from time to time add on temporary structures which are not suitable for the care and proper treatment of the patient. I have special reference to the treatment and care of smallpox. The buildings can be very satisfactorily arranged so as to give the proper treatment and care to other infectious diseases, because they are not so numerous and there is not danger of overcrowding such as there is in a small-pox epidemic.

No. 100. An ordinance authorizing the submission to the electors of the city of Pittsburgh the question of increasing the indebtedness of the said city, for the purpose of the acquisition and purchase of real estate within the city or Pittsburgh for the uses of the Department of Public Safety, the erection and repair of buildings and improvements for said department; the purchase of the necessary machinery, apparatus, equipment and furniture therefor; and for the erection and construction of the necessary buildings, improvements, equipments, furnishings, supplies, and all other matters and things necessary for the completion, requirements and needs of municipal hospitals for isolated and contagious diseases

Section 1. Be it ordained and enacted by the city of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, that the question of increasing the indebtedness of said city of Pittsburgh to an amount not exceeding the sum of six hundred thousand (\$600,000) dollars, by an issue of bonds bearing interest at a rate not exceeding

four per centum per annum, and maturing in not exceeding thirty years from the date of the issue thereof, and to the redemption of which at maturity so much of the revenue of the city of Pittsburgh as may be necessary shall be pledged for the purpose of the acquisition and purchase of real estate within the city of Pittsburgh for the uses of the Department of Public Safety; the erection and repair of buildings and improvements for said department; the purchase of the necessary machinery, apparatus, equipment and furniture therefor; and for the erection and construction of the necessary buildings, improvements, equipments, furnishings, supplies, and all other matters and things necessary for the completion, requirements and needs of municipal hospitals for isolated and contagious diseases, shall be submitted to the electors of said city at an election to be held therein on Tuesday, the 19th day of September, A. D. 1899, in the manner approved and prescribed by an Act of Assembly of the Commonwealth of Pennsylvania entitled, "An Act to regulate the manner of increasing indebtedness of municipalities, to provide for the redemption of the same and to impose penalties for the illegal increase thereof," approved the 20th day of April, A. D. 1874, and the various supplements thereto.

Section 2. That the Mayor of said city shall be and he is hereby authorized and directed to issue his proclamation and to supervise and provide at the expense of the said city the ballots, return sheets, and all other papers necessary for the lawful holding of said election, or to cause and direct the same to be done as provided by law.

Section 3. In the event of said qualified electors authorizing said increase of indebtedness, no portion of the proceeds thereof shall be used for any purpose than herein named, nor shall any portion thereof be expended or any liability thereunder incurred until the Councils of said city shall by ordinance specifically appropriate the same for the purposes aforesaid, therein fixing the amounts and conditions of such expenditure.

Section 4. That any ordinance or part of ordinance, conflicting with the provisions of this ordinance, be and the same is hereby repealed so far as the same affects this ordinance.

Ordained and enacted into a law in Councils this 19th day of June, A. D. 1899.

TWENTIETH CENTURY CLUB OF ALLEGHENY COUNTY.

428 Duquesne Way,

PITTSBURGH, PA.

Resolutions adopted by the Twentieth Century Club October 21, 1902:

To the Honorable, the Select and Common Councils of the City of Pittsburgh:

Whereas, It has come to the notice of the Twentieth Century Club of Allegheny County that plans have been made, and the same presented to Councils, embodied in four special railroad ordinances, which affect the interests of the club, of the individual members thereof, and of other residents and property holders of Pittsburgh, and,

Whereas, Such plans and ordinances will involve radical changes in the City of Pittsburgh and materially affect its

future importance as a center of commerce and population; and,

Whereas, We believe the aforesaid ordinances, and the changes by them projected, to be detrimental to the welfare of Pittsburgh as such center, therefore be it

Resolved, That we, the members of the Twentieth Century Club of Allegheny County, do hereby protest against the passage of the aforesaid ordinances by your honorable bodies;

We do protest against the sacrifice of the center of our city for railroad terminals and freight stations;

We do protest against the irreparable injury to the great river interests of the city which would result from the construction of railroad tracks upon such property as has been given to the city in perpetuity for wharf purposes only;

We do protest against the use of some of the city's most important thoroughfares for the transportation of freight to and from the proposed terminal station, thereby increasing the present congestion of said thoroughfares and interfering with the convenience of the general public;

We do protest against the sacrifice of any part of Highland Park for railroad purposes and against the injury to the city's boulevard which would result from freight transportation or railroad tracks parallel to it and within a very short distance of the same;

We do protest against the heavy burdens which would be laid upon the taxpayers of Pittsburgh by the contract proposed in said ordinances between the city and a railroad corporation, wherein the city assumes all liability for and payment of lawful claims for damage or injury to property resulting from change of grade made in the interest of said railroad corporation; and,

We do protest against the cession of valuable city property, including streets, alleys and wharves, to any private corporation without adequate compensation; be it further

Resolved, That we do petition your honorable bodies to reject the aforesaid ordinances, now before you for consideration, and to take such action as will protect the interests of the citizens and taxpayers threatened by the same.

AGNES HAYS GORMLY,
President.

ANNES S. PHILLIPS,
Secretary.

TWENTIETH CENTURY CLUB OF ALLEGHENY COUNTY.

428 Duquesne Way,
PITTSBURGH, PA.

Recommendations adopted by the Ordinance Committee of the Twentieth Century Club, October 27, 1902.

To the Honorable, the Select and Common Councils of the City of Pittsburgh:

The Ordinance Committee of the Twentieth Century Club, appointed by the President to present the subjoined resolutions and also to consider a plan for the solution of the difficulties arising from the rejection of the ordinances therein referred to, realizing the importance of the freight and transportation interests of Pittsburgh, see no reason to believe that needless loss or inconvenience would be imposed upon any railroad corporation in safeguarding the already congested district of the Point from further encroachment, and respectfully submit the following:

First—Instead of the district desired by the railroad and asked for in the said ordinances, we would suggest to your honorable bodies the consideration of the district lying east of Eleventh street, for the following reasons:

(a) That a large portion of said district is already occupied by tracks, shifting yards and other holdings of the railroad asking the further privileges set forth in said ordinances and that such holdings could be conveniently extended in that district.

(b) That since the connection has been made and further connection is being made between the railroad lines on the north bank of the Monongahela river, and the north bank of the Allegheny river by means of the Pittsburgh Junction Railroad and bridges crossing the Allegheny river at Herts Island, thereby making a direct freight connection, grants in other portions of the city are not necessary to the railroad interests involved.

Second—We suggest that any extension which may be deemed necessary by the city and the railroad through the congested district of the city be made by subway only, after the manner of subway systems already in operation in Boston, Paris, London and Liverpool, and that passage either above or beneath rivers be made without obstruction to navigation, present or future.

Third—We suggest that should the consideration of the district lying east of Eleventh street find favor with your honorable bodies, adequate compensation be required for the streets, alleys and all other city property vacated for the use of said railroad, and that as a partial equivalent for such privileges the surface tracks be removed from Liberty street, and furthermore that all lawful claims for damage or injury to private property be assumed by the railroad.

Fourth—We respectfully petition your honorable bodies to withhold favorable consideration of any further ordinances permitting surface or elevated tracks in the congested district of the city until the City Engineer, in concert with a special board of engineers, has first carefully considered and reported upon the feasibility and expense of the construction of a subway connecting the business center of the city with the residence sections, and, in conjunction with surface lines, with the outlying districts, it being borne in mind that the original cost of the construction of a subway is practically the whole expense, and that noise, dirt, danger to life and limb, obstruc-

tion to traffic, blockades occasioned by weather conditions and damage or injury to property unavoidable by any other system of construction will be eliminated.

SOPHIE GASKELL KERNAN,

Chairman of Ordinance Committee.

JENNIE DARWENT BRADLEY,

Secretary of Ordinance Committee.

No. 695.

PITTSBURGH, PA., October 27, 1902.

To the Honorable, the Select and Common Councils of the City of Pittsburgh:

Whereas, The proposed changes and improvements of the Pennsylvania Railroad, as set forth in the special ordinances now pending before your honorable bodies, would, if carried out, cause irreparable and inestimable damage to the "Block House," to the historic site upon which it stands, and to the proposed park at the Point;

Resolved, That we, the Daughters of the American Revolution of Allegheny County, do hereby protest against the passage of such ordinances.

Resolved, That we petition your honorable bodies to take such action to protect this historic site, that no encroachment of any corporation, nor of private individuals shall in the future endanger its safety, nor interfere with the benefit to be derived by the general public from free access to this spot of both local and national interest.

Mr. Soffel presented

No. 721.

PITTSBURGH, October 27, 1902.

To the Select and Common Councils of the City of Pittsburgh.

GENTLEMEN: Your petitioner, Mrs. Kate McAninch, is the owner of the parcel of ground fronting on Natchez street, between Wilbert street and Bangor street, in the Thirty-second ward, having a frontage of 204 feet.

That the City of Pittsburgh, under ordinance approved April 19th, 1899, graded, paved and curbed said Natchez street, from Southern avenue to Bangor street (said street having been located by ordinance of Councils of February 28th, 1884, and opened between the parts improved under ordinance of October 10th, 1887, and the grade having been established July 7th, 1898) for the said improvement, the Board of Viewers assessed your petitioner the sum of \$1,069.25.

That prior to the establishing of the grade on said street, there existed in front of your petitioner's premises a ravine or hollow, which your petitioner filled in and made the roadway passable for driving wagons, etc., at her own cost and expense, and at the same time constructed a stone wall and an iron fence along and in front of her premises at a cost of \$469.00.

That in the improvement of said street, the stone wall and fence were entirely destroyed.

Your petitioner therefore prays your honorable bodies to pass a resolution exonerating her to the said amount of damages from the assessment as made by the board of Viewers.

And she will ever pray, etc.

[SEAL.] KATE M. MCANINCH.

Also

No. 722.

Resolved, That the City Solicitor be and he is hereby authorized and directed to satisfy the assessment made by the Board of Viewers, to wit: \$1,069.25, for the grading, paving and curbing of Natchez street, from Southern avenue to Bangor street, upon the payment by Mrs. Kate McAninch of the sum of \$600.25, with interest. Said sum being the difference between the original assessment and the damages claimed by her, caused by the destruction of a stone wall and iron fence in front of her premises.

REPORTS OF SPECIAL COMMITTEES.

Mr. Sahner presented

No. 723.

PITTSBURGH, October 27th, 1902.

To the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:

Your committee appointed to confer with the members of the trustees of the Carnegie Institute in reference to a site for the proposed technical schools to be given the city by Mr. Carnegie, beg leave to submit the following report:

In pursuance to C. C. No. 437, Resolution of Councils appointing a special committee of seven, three from Select Council and four from Common Council, to meet and confer with the trustees of the Carnegie Institute in relation to the matter of selecting and acquiring a site for the proposed technical school, the following members were appointed: Messrs. Sahnner, Sole, Fitzpatrick and D. F. Crawford from the Common Council, and Messrs. Sankey, Zahniser and Wainwright from the Select Council.

The committee organized on July 21st, 1902, immediately after its appointment, by the election of Gebhart Sahnner as Chairman and E. J. Martin as Secretary. At this meeting the Secretary was instructed to notify the members of the Carnegie Institute that this committee was ready to meet with them at their earliest convenience. The Secretary notified Mr. Frew, who is the Chairman of the Trustees, and received a letter from him stating that his committee was unable to meet with this committee, at the present time, but that they would be able to do so some time in September.

The committee was called together on September 19th, 1902, by notification from Mr. Frew, and met at Room 322, Carnegie building, with the Trustees of the Carnegie Institute, comprising Messrs. Stevenson, McConway, Scaife, Cohen, Lambie, C. S. Crawford, Brashear, Jackson, Church and Mellon. The Trustees and this committee decided to resolve themselves into a joint committee (the Trustees to act in an advisory capacity) for the purpose of getting such information in reference to a location of a site for the proposed technical school.

Mr. McConway, of the Plan and Scope Committee of the Carnegie Institute Trustees, offered various options on property to be used for the said technical schools. Other options were also offered for various sites during the continuance of the meetings of the committee, all of which are hereto attached and marked Exhibit "A."

At the meeting held on September 19th, a motion was made to visit the various sites, and in compliance therewith the committee visited the following proposed sites: The fifty-two acre site lying between Bayard and Allequippa streets, the eleven acre site at Forbes and Bouquet streets, the thirty-two acre site lying east of Woodlawn avenue, known as the "Magee and Elinn" property, and the twenty-one acre site at the northeast corner of Schenley Park, near the Murdoch entrance (a plan of which is hereto attached and marked Exhibit "B.") The latter site apparently met with the approval of all the members present. In view of this a committee of three was appointed from the members of the Councilmanic Committee, consisting of Messrs. Fitzpatrick, Zahniser and D. F. Crawford, to confer with the City Solicitor in reference to the legal proceedings necessary to procure a site in Schenley Park for the proposed technical school.

At a meeting of the committee, held on September 25th, 1902, the Sub-Committee appointed to confer with the City Solicitor submitted the following report: "Your sub-committee called upon the City Attorney, Mr. Carnahan, and we

had the deeds of the park ground that was bought from Mrs. Schenley before us, also of the three hundred acres that was given to the city, and after reading the deeds over, Mr. Carnahan told us that he thought the consent of Mrs. Schenley would have to be obtained before we could recommend that site upon which to put the technical school. While there was a question about it, he further said he thought it was not within the jurisdiction of this municipality to purchase ground to turn over to the technical school to erect buildings without some special legislation."

At a meeting of the committee on September 30th, 1902, by motion, a committee of three members from the Councilmanic Committee (Messrs. Fitzpatrick, D. F. Crawford and Zahniser) was appointed to confer with the City Solicitor to find out if the Councils can increase the indebtedness of the city for the purpose of purchasing a site for the technical school.

At a meeting held on October 3rd, 1902, the sub-committee of three, appointed to confer with the City Solicitor in reference to increasing the indebtedness of the city for the purpose of purchasing a site for the technical school, submitted the written opinion of the City Solicitor, which is made part of this report and marked Exhibit "C." At the same meeting, the joint committee dissolved itself, and the Councilmanic Committee extended a vote of thanks to the Trustees of the Carnegie Institute for the valuable information given and the assistance rendered in this matter.

After thoroughly going over and considering the information at hand, and in view of the financial condition of the City of Pittsburgh and its many immediate needs, this committee has decided that it would be ill advised to submit a bond issue to the vote of the people at the present time, and while your committee appreciates the proposed gift of Mr. Carnegie and desires that Pittsburgh should reap the benefits of his generosity, it does not believe that the city is in a position to incur any further increase of indebtedness for any purpose at the present time. While there is money available for the purchase or extension of parks, according to the opinion of the City Solicitor, it cannot be used for the purchase of a site for the proposed technical school, and the city could therefore purchase no property for that purpose, except by a bond issue.

It was therefore decided that the only available ground for the site that presents itself to your committee, would be the portion of Schenley Park lying at the northeast corner of the park, near the Murdoch entrance, containing twenty-one acres, more or less, which is shown upon a plan hereto attached and made part of this report, marked Exhibit "B." In pursuance to the opinion of the City Solicitor that the consent of Mrs. Schenley must be obtained before the buildings could be erected in Schenley Park, your committee would further recommend that Councils take such action as they deem right and proper for the purpose of having Mrs. Schenley so amend her deeds, or grant of Schenley Park, so that the proposed twenty-one acre site can be

used for the purposes of the technical school.

It is not the purpose of this committee that the area of the park be diminished. There is available at the present time \$360,000.00, from a bond issue for the extension of parks. As before stated, according to the opinion of the City Solicitor, this money could not be used for the purpose of purchasing ground for a site for the technical school. Your committee would therefore suggest that this money be used for the purpose of acquiring as much ground adjacent to the park, for the extension thereof, as it will purchase, and your committee believes that this will act as an incentive to Mrs. Schenley to change her deeds, as the city will not be taking away any more than it will be adding to.

Your committee believes that these buildings will be of high architectural beauty and will be an embellishment to the park, and will add to the interest of the parks as much as the Phipps Conservatory, or the Highland Park zoological buildings.

All of which is respectfully submitted for your consideration.

GEBHART SAHNER,
Chairman.

D. F. CRAWFORD,
D. J. BOLE,
HENRY FITZPATRICK,

HOTEL CECIL, London, W. C.

I am willing to sell and convey by deed in fee simple to the City of Pittsburgh, a municipal corporation of the State of Pennsylvania, United States of America, certain real estate, situate in the Fourteenth ward of said city, for the considerations and the purposes hereinafter named, that is to say:

I will sell and convey to said city the fee simple title to that certain piece of real estate, situate in the ward and city aforesaid, which is bounded on the west by Bouquet street, on the north by Allequippa street and Center avenue, on the east by an imaginary line extending from the end of St. Pierre street to Center avenue (this line to be definitely adjusted hereafter by me in such manner as not to interfere with the proper laying out of my property between it and Grant Boulevard) and on the south by Bayard street; the consideration therefor to be five hundred and fifty thousand (\$550,000.00) dollars, and the use of said property to be limited to park or educational purposes. The above described real estate consists of thirty-one acres, more or less.

I am willing to sell and convey by deed in fee simple to said City of Pittsburgh, all that real estate situate in said ward of said city, which is bounded on the west by Bouquet street, on the north by Allequippa street and Center avenue, on the east by Grant Boulevard, and on the south by Bayard street, consisting of fifty-two acres, more or less, for the consideration of one million and four hundred thousand (\$1,400,000.00) dollars, the use thereof to be limited to park or educational purposes.

The designation, however, by me herein as a boundary line, of any street not

opened on the ground, shall not be construed to mean that I include any part of such street in this agreement to sell and convey. On the contrary, I reserve to myself the ground in such street or streets, if there be any such.

This, my option to the City of Pittsburgh, is open to said city until and including January 1, 1903. If said city shall not, on or before January 1, 1903, have accepted the same and the deed or deeds for said pieces of real estate, or either, shall not have been made and delivered on or before said date, this option shall thereupon cease and determine.

I am informed that the City of Pittsburgh desires to obtain the title to the one or other of the pieces of real estate above described, and that the intention is to use the same for park or educational purposes. I am interested in the welfare of said city and its people, and it is in consideration of these premises that I give this option.

I do, therefore, in consideration of the above, and of the sum of one dollar this day paid to me by said City of Pittsburgh, the receipt whereof is hereby acknowledged, agree for myself, my heirs, executors and administrators, and do bind myself, my heirs, executors and administrators to sell and convey, as I have above stated, upon performance by the City of Pittsburgh, of the conditions above set forth.

Witness my hand and seal, in the City of London, England, this twelfth day of May, A. D. 1902.

MARY E. SCHENLEY.

GENTLEMEN:

You submit to me this question:

Has the city the right to borrow money for the purchase of a site for a Polytechnic School and to issue bonds therefor without the assent of the people given at a popular election?

In other words:

(1.) Has the city the right to purchase a site for a polytechnic school such as is proposed by Mr. Carnegie?

(2.) Has the city the right to raise money in payment therefor by the issue of bonds without the assent of the people given at a popular election?

My answer to the first question is this:

Fifteen years ago the better opinion seemed to be that the city had no such right, and when Mr. Carnegie's proposition to donate a free library was presented, it was deemed advisable to obtain an Act of Assembly empowering cities to accept such gifts and to make annual appropriations for their maintenance. Such an Act was passed and approved May 23rd, 1887. This Act is no authority for the purchase by the city of a site for the school now proposed; but, since its passage, additional light has been thrown upon the subject by the judiciary of the State, so that, at the present time, the better opinion is that a municipality has the right, unless expressly prohibited by the Constitution or by the statute laws, to do such things as will inure to the benefit and welfare of the city at large and its trade, commerce and manufactures. It was so held by the Supreme Court of Pennsylvania in the case of "The Provisional Committee of the Lake Erie and Ohio River Ship Canal vs. The City of Pittsburgh," reported in 183 Pennsylvania State Reports, page 202. In that case the City of Pittsburgh had appropriated \$10,000 for surveys and obtaining information as to whether a ship canal between Pittsburgh and Lake Erie was practicable and would be a benefit to the city. The City Controller declined to issue his certificate for a warrant in payment of the same, but was compelled to do so in response to a peremptory mandamus issued by the Court, which action was sustained by the Supreme Court on the ground that the purpose for which the appropriation was made "was certainly not foreign to the material interests and general prosperity of the municipality, but quite the contrary."

Would the purchase of such a site be in violation of any provision of the Constitution? The only provision bearing upon this question is contained in Section 7, Article 9, of the Constitution, which is in these words:

"The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money, or loan its credit to any corporation, association, institution or individual."

This section, as the courts have repeatedly said, has reference to business partnerships "between a municipality or subordinate division of the State, individuals or private corporations or associations. . . . In no project originated by individuals, whether associated or otherwise, with a view to gain, are the municipal bodies named permitted to participate in such manner as to incur pecuniary expense or liability."

It, therefore, does not appear to me that there is any constitutional prohibi-

tion against the purchase of a site for such a purpose, nor does there seem to be any statutory prohibition. On the contrary, the Charter Act of 1901, for cities of the second class authorizes such cities "to make all such ordinances, by-laws, rules and regulations not inconsistent with the Constitution or laws of this Commonwealth as may be expedient or necessary in addition to the special powers in this section granted for the proper management, care and control of the city and its finances, and the maintenance of the peace, good government and welfare of the city, and its trade, commerce and manufactures." * * *

If the establishment of such a school is not "foreign to the material interests and general prosperity of the municipality," but on the contrary would tend to promote its interests and general welfare, the city has the right to purchase such a site for such a purpose. Believing that the establishment and maintenance of such a school would greatly promote the interests and welfare of the city, I am of the opinion that the city has the right to purchase a site for it.

The provision of the Constitution which bears upon the second question proposed is contained in Section 8, Article 9, which is as follows:

"The debt of any city, county, borough, township, school district or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property without the assent of the electors thereof at a public election in such manner as shall be provided by law; but any city the debt of which now exceeds seven per centum of such assessed valuation may be authorized by law to increase the same three per centum in the aggregate at any one time upon such valuation."

In no case can a city voluntarily incur an indebtedness in excess of seven per centum upon the assessed value of the taxable property therein. Any city may incur a new debt to an amount not exceeding two per centum upon such assessed valuation of property without the assent of the electors. This may be done at once or at successive periods, but the now existing indebtedness created by the city without a vote of the people since the adoption of the Constitution must not aggregate more than two per centum.

In ascertaining the indebtedness of the city, the bonds of the city purchased and placed in the sinking fund should be deducted from the gross indebtedness; no other asset in the sinking fund, such as money or bonds other than those of the city, should be deducted. If it be found that of the present net indebtedness of the city less than two per centum of the last preceding assessed valuation was created by the city without a vote of the people, the city still has the right without a vote of the people to increase it up to the limit of two per centum, provided it does not exceed seven per centum by so doing. In other words, the city since 1874, may have increased the indebtedness more than two

per centum without a vote of the people; but it may have subsequently reduced that indebtedness to an amount below two per centum. If such be the fact, it has still the right to add to the debt, without a vote of the people, until it reaches two per centum of the last preceding assessed valuation. Beyond the two per centum no increase of indebtedness can be made without a vote and the assent of the people. If the entire indebtedness of the city were paid off, the city could again increase its indebtedness to the amount of two per centum, without a vote of the people, and beyond that to seven per centum, with a vote of the people.

The assessed valuation may, and does, vary each year. Two per centum this year may be considerably less in amount than two per centum next year; so that, even if there were no reduction of indebtedness, in the meanwhile, by the purchase of outstanding city bonds, or otherwise, it is quite possible for a municipality to have reached its constitutional limit of two per centum one year, and the next year to be within such limit.

In the case of *Keller vs. Scranton*, reported in 202 Pennsylvania State Reports, page 586, it appeared that the debt of the city of Scranton was more than two per centum of the assessed valuation. The city undertook to increase its indebtedness without a vote of the electors, and upon a bill in equity for an injunction the Court of Common Pleas of Lackawanna county granted an injunction on the ground that the city "had no right to increase the present indebtedness without first obtaining the consent of the electors." This decree was reversed by the Supreme Court because of the existing indebtedness. That portion created by the city without a vote of the electors was less than two per centum, although the total indebtedness exceeded two per centum; and it was held that the city had still the right to increase its indebtedness without a vote of the people up to the aggregate limit of two per centum. And it was also held in that case that the order in which the two powers may be exercised, namely, the power to create a debt not exceeding in the aggregate two per centum without a vote of the people, and the power to exceed two per centum with a vote of the people, was not material—that what the section was concerned with was the amount of the indebtedness in each class, not the order in which it was incurred. I quote from the opinion of Mr. Justice Mitchell in that case:

"The words of the section with which we are directly concerned are: 'Nor shall any municipality or district incur any new debt or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property without the assent of the electors thereof.'"

"This, though a limitation on the power of creating debt, is also a recognition of its existence. The power to raise and spend money for public purposes is a necessary attribute of all governments, and in our system has always been exercised by the legislative branch of municipalities under such regulations as the Legislature of the State has prescribed.

The constitutional provision puts a limit on the power, and on the Legislature's authority to confer it, but at the same time is a recognition of the power as exercised by the municipalities. Hitherto it had been without limit, not only as to amount of expenditure, but also as to time and mode of payment; it is still without limit as to amount of expenditure, if paid or means of payment provided at the time, but beyond two per cent. of assessed value, it cannot be authorized as a debt for the future without the assent of the electors obtained at a public election. The result of the provision is that the municipal authorities, charged with the raising and spending of public money incident to the current expenses of the government, still have the same power they have always hitherto had as to the creation of public debt up to the two per cent. limit, and the same power to the further limit of seven per cent. if authorized by a vote of the electors. The immediate necessity for money in the administration of the municipality's affairs may vary from day to day and the mode of meeting it was not intended to be taken out of the discretion of the ordinary municipal authorities, up to the prescribed limit, fixed as sufficient to provide for ordinary requirements. But when an extraordinary occasion or demand arises, requiring more than two per cent., then the assent of the voters must be obtained, and it will be sufficient up to the prescribed limit of seven per cent. The order in which these two powers may be exercised is not prescribed, and it is not material. What the section is concerned with is the amount of the indebtedness of each class, not the order in which it is incurred.

"It was found as a fact by the learned Judge below, that at the time the ordinance in question was passed, the debt of the city was more than two per cent. of the assessed value of taxable property therein, but that part of the debt had been duly authorized by a vote of the electors, and if this were deducted from the gross amount, the remainder, created by the Councils without special authorization by the electors, might be increased by the estimated debt to be incurred under the ordinance, without reaching the two per cent. limit. Under such circumstances the debt was within the authority of Councils and the ordinance valid."

I am aware of the fact that in the case of *Pepper et al. vs. The City of Philadelphia*, reported in 181 Pennsylvania State Reports, page 566, Chief Justice Sterrett, in delivering the opinion of the Court, made use of certain language which, taken apart from the facts of the case, would indicate that the city having, since 1874, once created an indebtedness up to the limit of two per centum without a vote of the people, never could again authorize any indebtedness without such vote, even though the indebtedness thus created were subsequently met and paid in full. The language I refer to is this:

"It is enough to know that the language of the eighth section permits a debt to be created by municipal authority to the limited extent only of two per cent. on the assessed value of the taxable property. That permission is a unit. When

once exercised its object is fully accomplished, the express limit of the municipal debt thus created or increased is established, and it remains thus established, simply because there is no further authority for its change. The question whether there may be a subsequent increase by a popular vote is not before us and of course we do not decide it. But it is entirely clear that after the two per cent. limit has been reached, there can be no further increase by municipal authority only. * * * In all the cases * * we have adhered to the proposition that the increase of two per cent. authorized to be made by the second clause of the eighth section may not be transcended except by a popular vote, and this whether the increase has been made by successive additions, each less than two per cent., or at one time and by one municipal act alone. We have not allowed this percentage of increase to be exceeded in any instance by mere municipal action."

The above quoted language was used in discussing the question whether a city could, by successive increases, each less than two per centum, create an indebtedness up to seven per centum without a vote of the people, and it was there held, as in all other cases upon the subject, that the aggregate net indebtedness so created since 1874 must not exceed two per centum. In that case it was also held "that, if a city whose indebtedness then (at the time of the adoption of the Constitution) exceeded the seven per cent. limit, subsequently reduced her debt below that limit, she at once passed into the category of all the other cities of the Commonwealth, and thereafter could only create or increase her indebtedness in the same manner that they could."

The city of Philadelphia had an indebtedness in excess of seven per centum at the time of the adoption of the Constitution. It was authorized by statutes to increase its indebtedness three per centum in accordance with the constitutional provision. This it did; but subsequently reduced its indebtedness so that the net amount was much less than seven per centum. It thereupon, as appears in the case of *Pepper vs. City of Philadelphia*, increased its indebtedness again without a vote of the people much more than two per centum, although at the time of the various increases, the net indebtedness so created was, of course, less than two per centum; and, in the case last referred to, it was recognized by all parties that the city still had the right to increase its indebtedness without a vote of the people to the amount of nearly \$400,000.00, because its then existing net indebtedness so created was that much less than two per centum of the last preceding assessed valuation on January 1st, 1897. The corporate authorities, however, without a public election, had authorized loans to the amount of \$11,000,000, and as this sum, added to the then existing net indebtedness, incurred without a popular vote, would exceed two per centum, they were restrained from further proceeding.

I am of opinion that if, of the present net indebtedness of the City of Pittsburgh, less than two per centum of the last preceding assessed valuation was since the adoption of the Constitution,

January 1, 1874, created by the city, without a vote of the people, it has the right to increase its indebtedness without a vote of the people until the aggregate amount of such increase or increases reaches two per centum of the last preceding assessed valuation, provided such increase, added to the total net indebtedness, does not exceed seven per centum.

This is in accordance with the Constitution, the Act of April 20, 1874 and its supplements, and the Charter Act of 1901.

If the city has the right to so increase its indebtedness, it, of course, has also the right to issue bonds up to the limit indicated, without a vote of the people.

Very respectfully,

T. D. CARNAHAN,

City Solicitor.

PITTSBURGH, October 8, 1892.

Which was read.

Mr. **Sahner** moved

The adoption of the report.

Mr. **Stevenson** moved to amend

That the following resolution be attached to the report:

Resolved, That the portion of Schenley Park lying adjacent to and east of the Murdock entrance should be selected (with the consent of Mrs. Schenley) as the site for the proposed Technological School, and that the Chairmen of Select and Common Councils be appointed a committee to suggest a plan to secure Mrs. Schenley's consent to its use for that purpose.

Resolved, That in the event of Mrs. Schenley's consent being obtained to the foregoing proposition the property adjoining Schenley Park should be purchased by the city with the funds remaining in the bond issue voted for that purpose, and the same be added to Schenley Park in lieu of the ground to be occupied by the buildings of the proposed Technological School.

Which resolution was read.

And the question being on the report with the resolution attached

Mr. **Leslie** demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered to be taken, and being taken were:

Whereas, It is absolutely necessary to lay water pipe, on property known as Dalzell place, Twenty-second ward, City of Pittsburgh, Pa., because of the number of houses to be erected thereon, immediately; and,

Whereas, It appears that no appropriation has been made for the fiscal year 1902, to enable the City of Pittsburgh to itself lay the necessary water pipe for the required water supply; now, therefore, be it

Resolved, That the City of Pittsburgh hereby gives its consent to G. A. Barclay, and he is hereby authorized and empowered to lay the said water pipe on the said Dalzell place, under the form of contracts and specifications approved by the City of Pittsburgh and the direction and supervision of the Director of the Department of Public Works of the said city, and at a cost to them approved by him, the said Director.

Provided, That the said City of Pittsburgh shall have the right and option, at its election, to purchase from the said G. A. Barclay, all of said pipes, plugs and appurtenances, laid or established under this agreement, at any time in the future it sees fit so to do, for a price not exceeding the actual cost of the laying and establishing of said pipes, plugs and appurtenances as ascertained by said Director, at the time that the work is done.

And Provided Further, That the cost of laying and establishing said pipes, plugs and appurtenances shall not, in any event, exceed the sum of eight hundred and fifty dollars (\$850.00).

Which was read.

Which were referred to the Committee on Finance.

Mr. Rodgers (for Mr. Barr) presented

No. 734.

PITTSBURGH, October 27, 1902.

To the Select and Common Councils of the City of Pittsburgh:

GENTLEMEN:

I submit herewith for your acceptance and approval Stanton Avenue Plan of

lots, laid out by Stanton Land Company, Eighteenth ward.

Respectfully,
J. GUY McCANDLESS,
Director Department of Public Works.
Which was read received and filed.
Also

No. 735. Stanton Avenue Plan of Lots, Eighteenth ward, Pittsburgh, and the dedication of the streets and alleys therein.

Which was referred to the Committee on Surveys.

Mr. Brown presented

No. 736.

PITTSBURGH, Nov. 10, 1902.

To the Select and Common Councils of the City of Pittsburgh:

The petition of the undersigned respectfully represents that he is engaged in the laundry business in the Twentieth ward of the City of Pittsburgh; that he has purchased his water by meter and that the amount assessed against him has aggregated \$860.00 during the years 1901 and 1902.

That his laundry is a hand laundry, and the same amount of water is not used in it as in other establishments.

That he has on his premises for use an artesian well and a cistern.

That in comparison with other laundries, Stark's Model Laundry, Eclipse Laundry, Parkway Laundry, and other Laundries, he has been over-assessed for the use of city water at least 100 per cent.

That he believes that some relief should be granted in the premises. He therefore prays your honorable body to direct the Director of the Department of Public Works and the Superintendent of the Bureau of Water Assessments to grant him an exoneration for such an amount as the Committee on Finance may ascertain to be just and equitable, and he will ever pray, etc.

THOS. L. PFARR, JR.

Also

No. 737.

Resolved, That the Director of the Department of Public Works and the Superintendent of the Bureau of Water Assessments shall be and are hereby authorized and directed to issue an exoneration on water assessment in favor of Thomas L. Pfarr, Jr., in the Twentieth ward, for ———, for which this resolution shall be their warrant.

Which were referred to the Committee on Finance.

The Chair presented

No. 748.

To the President and Members of Common Council:

GENTLEMEN:—

I return herewith six resolutions each authorizing the issue of a warrant for what appears to be extra work, and each referred to me "for a written opinion as

to the liability of the city and the legality of the bill."

It appears that in none of these cases was there an ordinance of Councils authorizing a contract, nor was there any advertisement for proposals to furnish the supplies or do the work. In accordance with the Act of 1874, known as the "Wallace Act" and Charter Act of 1901.

The purpose of these Acts of Assembly in requiring authority from Councils, public advertisement for bids and letting to the lowest responsible bidder, is to prevent useless expenditure of public money, secure competition and enable the city to purchase its supplies and contract for work at the lowest market prices.

I do not know the circumstances which called for the supplies and the work to be done in these particular cases. It is, perhaps, impossible to cover everything in municipal contracts. It very frequently happens that in the execution of a contract something not anticipated, and which perhaps could not have been anticipated, occurs, which makes it necessary that immediate action be taken, and that to await an ordinance of Councils or an advertisement for proposals would involve the city in a much greater expenditure of money than to have the difficulty met and overcome at once by the department having the matter in charge. When extra supplies and work of this kind are authorized by the department and pursuant to such authority the supplies are furnished and the work is done, the contractors cannot be paid without the sanction of Councils. Councils have a perfect right to ratify such contracts.

If the supplies furnished and the work done under such circumstances appear to have been necessary and for the benefit and interests of the city and the amounts charged are fair and reasonable, it would seem to be entirely proper for Councils to authorize payment therefor. The Wallace Act provides for such cases by the following language in Section 5:

"No ordinance shall be passed, except by a two-third vote of both Councils, and approved by the Mayor, giving any extra compensation to any public officer, servant, employee, agent or contractor, after services shall have been rendered or contract made, nor providing for the payment of any claim against the city without previous authority of law."

Very respectfully,

T. D. CARNAHAN,
City Solicitor.

The Chair presented.

No. 749.

To the President and Members of Common Council:

GENTLEMEN:—

Two resolutions each authorizing the issue of a warrant in favor of the Pittsburgh & Allegheny Telephone Company for \$23.52, one for telephone service at the city office in Highland park from May 1st, 1901, to May 1st, 1902, and the other for telephone service at the office in Schenley park from May 1st, 1901, to May 1st, 1902, and each referred to me "for a written opinion as to the legality of the bill," I return herewith.

The ordinance approved February 23d, 1899, which granted the right to the Pittsburgh & Allegheny Telephone Company to enter the streets, lanes and alleys of the City of Pittsburgh for the purposes therein set forth, contains this provision:

"Section 3. That said company shall furnish and erect telephones for the use of the city in all municipal buildings, and shall as well reserve the top cross-arm on all poles erected by said company for use of the city, or any of its departments, free of any charge or cost whatever."

The above quoted section was amended by an ordinance approved March 18th, 1902, the amended section being as follows, to-wit:

"Section 3. That said company shall furnish, erect and maintain, free of any cost or charge whatever, at least seventy (70) telephones for the use of the City of Pittsburgh, the same to be located in such building or buildings, office or offices, as the said city may designate or direct, and shall as well reserve the top cross-arm on all poles erected by said company for use of the city, or any of its departments, free of any charge or cost whatever."

Prior to the passage of the amendment of March 18th, 1902, the telephone company was not entitled to charge for telephone service in any municipal building. The offices in Highland and Schenley parks were and are municipal buildings.

After March 18th, 1902, the company was not obliged to furnish free of cost more than seventy (70) telephones for the use of the city.

Inasmuch as the service for which these bills are rendered extended from May 1st, 1901, to May 1st, 1902, the city may be liable for a part of this service, that is, from March 18th, 1902, to May 1st, 1902, provided these telephones were not included in the seventy (70) telephones which the company, under the second ordinance, is obliged to furnish free of cost.

Very respectfully,

T. D. CARNAHAN,
City Solicitor.

PITTSBURGH, Nov. 8, 1902.

Mr. Stevenson moved

That the bills be returned to the Department of Public Works.

Which motion prevailed.

C. C. No. 613. Resolution authorizing the issuing of a warrant in favor of E. M. Morris for damages in the sum of \$310.00 caused by injury to vehicle and loss of horse by falling into a hole on Corbes street on June 9th, 1902, and charge Contingent Fund.

In Common Council September 29, 1902. Referred to the City Solicitor and Director of the Department of Public Works.

Which was read.

The Chair presented
No. 750.

If the street was in bad condition, and this bad condition was the cause of the accident, and the city had notice of the fact of its bad condition, or should have known it by reason of its having been in such condition for a reasonable time—say a week—then the city was negligent and the party injured or whose property was damaged would be entitled to recover. Provided, however, there was no contributory negligence on the part of the man who was driving the animal. If he knew of the bad and dangerous condition of the street and deliberately took the chances of an accident by driving there in the dark, he was guilty of contributory negligence; or if the horse frightened and became unmanageable so that the accident was bound to happen irrespective of the bad condition of the street, the city is not liable.

Yours respectfully,

T. D. CARNAHAN,
City Solicitor.
